The Monument Fire District has reviewed the Monument Glamping II Site Development Plan dated 8/14/24. Based on our initial review of the site plan for fire apparatus access and emergency egress we have the following comment:

- The fire department requests that the section of the gravel driveway at the far east section of the loop that generally runs north/south have a minimum width of 20' or greater.

All other components of the site development plan are acceptable.

Thank you for the opportunity to comment,

Jonathan Bradley
