### **Rolling Hills (Revised), PUDSP-19-9**

**Please accept the following comments from El Paso County Public Health regarding the project referenced above:**

- **The proposed 725-residential lot, 518.21-acre, single-family residential development will be provided water and wastewater services through Meridian Service Metropolitan District.**
- **A finding for sufficiency in terms of water quality can be made for this Colorado Department of Public Health and Environment, Water Quality Control Division, approved water system. PWSID # CO0121455 has been assigned by the Colorado Department of Public Health and Environment.**
- **Meridian Service Metropolitan District has provided a Letter of Commitment to Serve Water and Wastewater Letter dated 30Aug2019.**
- **Radon resistant construction building techniques/practices are encouraged to be used in this area. The EPA has determined that Colorado, and the El Paso County area, have potentially higher radon levels than other areas of the country.**
- **Earthmoving activities greater than 25 acres require a Construction Activity Permit from the Colorado Department of Public Health and Environment, Air Pollution Control Division. Go to: <https://www.colorado.gov/pacific/cdphe/general-air-permits>**
- **El Paso County Public Health encourages planned walkability of residential communities. Please consider appropriate connections to commercial areas using sidewalks, and bike trails. Walkability features help reduce obesity and associated heart diseases.**
- **Storm water quality detention ponds must be constructed and maintained to help protect the public health, safety and welfare in the area. Detention ponds not properly constructed and maintained create mosquito breeding habitat and increase the risk of West Nile Virus.**
