Subject: FW: BDR for Community System in Falcon, CO

All,

Attached is receipt from CDPHE that the BDR was received. The BDR includes all of the water quality data.

A link to the BDR is included below (it's a very large document).

https://www.dropbox.com/s/uddm58s76x4tf5a/31102_BDR_Report.pdf?dl=0

Thank you,

Ryan

The WQCD Engineering Section has received your drinking water application and plans and specifications for the Saddlehorn Ranch MD - New Treatment System project. At any time, you may use the [Active Project Status](#) to view the status of this application, the assigned review engineer, and a listing of all projects in the review queue. While the Engineering Section typically queues projects based on the submittal date, please be aware that we may prioritize projects for public health and environmental emergencies. Your primary point of contact for this project is the assigned review engineer. Prior to assignment of a review engineer, please contact one of the unit managers for any additional information. Amy Zimmerman may be contacted by telephone at 303-692-3545 or by email at amy.zimmerman@state.co.us, and Doug Camrud may be contacted by telephone at 303-692-3271 or by email at douglas.camrud@state.co.us.
