Part III. Project Information	
Name of Subdivision and Filing *if not applicable, provide the Legal Description*	INVILO HTS SUB
Street Address	6265 Vessey Rd., Colorado Springs, CO 80908
Parcel Number	5206008005
Acreage	Total: 2.8 acres Proposed Disturbance: 1.507 acres
Schedule *input estimated month (or season) and year*	Start of Construction: January 2027 Completion of Construction: November 2027

For reference, here is my comment from Review #1:
If disturbance is 1.0ac or more, an ESQCP is needed, which is an much more involved process. You will need GEC Plan, SWMP, Drainage Letter, and more. Plus there are frequent site inspections during construction. So I definitely recommend doing what you can on this sheet and the Site Map to get the proposed limits of disturbance to be <1ac.

Review #3 update: Is there anything thing you can do to get the proposed limits of disturbance to be <1ac? You could phase the disturbance, but the Phase 1 disturbed areas would have to be fully stabilized (paved, house built, and/or fully revegetated) prior to that area not counting towards your 1ac of disturbance. Or just tighten up your limits of disturbance shown on your Site Map. I've highlighted ~0.50ac of space
