**18065 Saddlewood Road, PPR-22-35**

**Please accept the following comments from El Paso County Public Health for the proposed Agritainment site plan:**

- **Water service was not specified; therefore, ensure all water used for drinking, cooking, food vendors, handwashing, etc. is obtained from an approved source. Water obtained from sources like a private well is not approved for use.**
- **Wastewater service was not specified; therefore, make sure all portable toilets and portable handsinks are serviced routinely by a licensed service company to help prevent unsanitary conditions and the attraction of flies and other insects.**
- **The food concessions planned require input from El Paso County Public Health on licensing and food handling. Call 719-578-3199 and option #3 of Environmental Health and ask to speak to a representative of the Food Program for information.**
- **Locate your onsite wastewater treatment system, and the soil treatment area. Do not allow vehicle parking or driving over the area to help prevent damage and premature failure of the system.**
- **Note: More information is needed regarding the permanent setups that are proposed. Are the permanent picnic and animal petting areas planned for use beyond what is defined as temporary?**
