Case Number: CCM-2411071

Case Type: Contact My Commissioner

I affirm that I am submitting my electronic email address, telephone number, and/or home address for the purpose of receiving future electronic communications from El Paso County related to this Citizen Connect request. I request that this information be kept confidential under C.R.S. § 24-72-204(2)(a)(VII).: No

Please note that information you submit, including your name, may be subject to release under the Colorado Open Records Act. Certain specific information may be withheld if you checked the box above. If you do not wish for your name to be potentially released, please submit your request anonymously.

Contact All Commissioners: No

Please note that anything put in these fields will be viewable by members of the public.

Type of Submission: Complaint

Subject: Variance for Meadow Lake Airport File VA245

Notes (Describe the issue for the Commissioner): We are home and hanger owners at Meadow Lake Airport. We are currently reviewing the plan to allow a rezoning or variance of use for the 8304 and 8308 along with our neighbors. At this time, we are very much against a variance and if approved will seek any legal an or political means necessary to prevent the construction of this maintenance shop. We have been impacted by noise and light pollution from the Autobody shop that is on Cessna drive, the outside lights they use for night time and security are intense, vehicles running unattended. Adding additional traffic that has little control over access to the airport adds a security, safety and additional pollution. Yes, I live at an Airport but a diesel truck running for hours is worse than airplane traffic. The airport also gains funds from the number of Aircraft that is hangered here. We are on critical need of hanger space and using these lots for mechanic space is not the best use of the commercial space. Even as residences here we were well aware of this being an Airport. We are aviation enthusiasts. This change in variance will impact that enjoyment of our property. This will grossly add to the traffic of the Airport that is a Gated Airport for security and for the Safety of Airplanes that use all roads which are primarily taxi ways. The road in question is also needing repairs and additional traffic will impact the life of the gate and road. Currently variances have minimal impact as the businesses cater to a smaller group of customers that are related to Government Services. These Government services will also be impacted by the additional traffic coming to this facility. They operate within a gated community that limits the traffic and helps keep their business safer and provides more discretion. I will be attending the formal meeting in person. Thank You for reading my concerns and listening to my concerns, Berton
