RESOLUTION NO. ~~97-272~~
EXHIBIT A
SPECIAL DISTRICT POLICIES

I. PURPOSE, INTENT AND APPLICATION

- A. Purpose.** The purpose of these policies is to provide a framework for the evaluation of applications for new, amended and updated special district service plans as authorized by C.R.S. Title 32 and which are under the jurisdiction of the El Paso County Board of County Commissioners.
- B. Intent.** It is the intent that applications for new and revised service plans should be drafted to both address and be consistent with these policies. However, the applicant(s) for a proposed district or districts, or amendment to any existing service plan shall have the right to seek relief or modification from any of these stated policies, based on proper justification, to the extent allowable by law. The County, for its part, maintains its discretion to apply additional evaluation criteria, policies and limitations to the formation of new and revised districts, as the County may deem applicable.
- C. Model Service Plans.** New service plans and any ~~major amendments-material modification~~ thereof shall adhere to the applicable Model Service Plan formats as further addressed in Resolution No. ~~0721-XXX-273 (June 25, 2007)~~ Date as may be amended. The purposes of the model plan approach include standardizing the organization of information, and inclusion of standard language and limitations consistent with current Board policy. Additionally, this approach is intended to focus on variations from standard language and/or policy. The appropriate Model Service Plan template (i.e. Single District, Multiple District, and Master District) should be utilized and then modified as appropriate to address the particular needs and circumstances associated with a given application. Title 32 Special Districts which are not metropolitan districts should adhere to the Model Service Plan template to the extent possible.
- D. Required Hearings.** ~~Prior to a hearing of the Board of County Commissioners,~~ aAll service plans for new Title 32 Special Districts and ~~Major~~ material ~~Amendments-modifications~~ thereof shall first be considered at a hearing of the Planning Commission in accordance with Colorado Revised Statutes and as further described in the El Paso County Land Development Code and its

accompanying Procedures Manual. Any request for a service plan amendment which does not meet the definition of a ~~Major~~material Amendment ~~does~~modification does not require a hearing by the Planning Commission unless a need for this hearing is specifically determined by the Planning and Community Development Services-Department Director. The above policy is intended to apply retroactively to any previously approved Service Plans which may have had conditions requiring all requests for ~~m~~Material Modifications-modifications to first be heard by the Planning Commission.

At a hearing occurring at least ten (10) days after the Planning Commission hearing on new service plans, the BoCC shall set a date for its hearing on the service plan, which date must be within thirty (30) days after the first BoCC hearing.

D.E. Special Justification. Certain matters shall be specifically and comprehensively justified based on the unique needs and circumstances associated with the particular Service Plan application. Matters requiring special justification- include but are not necessarily limited to the following, as further addressed in these policies:

1. Use of Master Districts;
2. Authorization of mill levy caps in excess of the caps as set forth in Section III.F;
3. Specific authorization of special purpose mill levy caps which have the effect of increasing the Maximum Combined Mill Levy Cap above 60 (sixty) mills as set forth in Section III.F.5 and 6;
3. Processing of service plans prior to approval of underlying land use approvals as set forth in Section III.I.;
4. Use of a district or districts for covenant enforcement in lieu of Homeowners Associations (HOAs), where a Master District arrangement is proposed and/or where the district or districts are not otherwise being used to provide ongoing services.

~~**E. Procedures.** The detailed procedures governing the application process for new and amended service plans shall be maintained by the Development Services Director in a Procedures Manual (to be subsequently adopted by the BoCC and as may be amended).~~

II. BACKGROUND

~~A. **History.** Prior to 2007, El Paso County followed Special District policies which were initially adopted on September 2, 2004, and subsequently amended on September 22, 2005, and on December 28, 2006 to address limited changes. El Paso County has processed approximately 40 new and amended Service Plan Applications between 2000 and mid-2007, involving about 70 separate districts. During this period, policy issues have continued to evolve. In October of 2006 the Board of County Commissioners directed the Long Range Planning Division Staff to review the County's existing policy language for additional updates and pursue the adoption of a Model Service Plan approach.~~

~~B. **Formation of Special District Task Force.** Since the County recognizes the value Special Districts provide in developing community infrastructure and services, a Special District Task Force was formed in early 2007, comprised of special district attorneys and managers, members of the development community, El Paso County Administration and Commissioners, and citizen representatives.~~

~~C. **Objectives of Special District Task Force.** The initial, 2006 objectives of the Task Force were (1) to recommend an updated Annual Report form; and (2) make a policy recommendation pertaining to developer advances. Additional objectives for 2007 included revising existing County policy and preparation of Model Service Plans. It was contemplated the Task Force may also be utilized to provide beneficial input regarding potential future legislative and technological changes. The importance of using the County Web site as a vehicle for communication and disclosure was also agreed upon.~~

~~D. **Outcome of Special District Task Force.** An updated Annual Report Form was prepared to include a single combined Annual Report and Disclosure form, approved by the Board of County Commissioners on December 18, 2006. County staff worked together to reference this document on the Assessor's tax bill and allow for internet availability. The developer funding agreement policy was proposed and approved by the Board of County Commissioners on December 28, 2006. Special District Model Service Plans and revised Policies were approved by the Board of County Commissioners on June 25, 2007.~~

III. **OVERALL SERVICE PLAN POLICIES**

- A. **Conformity.** All proposed service plans shall be evaluated by both the applicant and County staff for conformity with the applicable standards contained in C.R.S.

32-1-203. Evaluation shall consist of more than a simple listing of the standards and/or statement that the service plan complies.

- B. Consistency.** All proposed service plans shall also be evaluated by the County for consistency with applicable elements of the El Paso County Master Plan, [including but not limited to Your El Paso Master Plan \(2021\), the El Paso County Water Master Plan \(2018\), the El Paso County Parks Master Plan \(2013\), the El Paso County Major Transportation Corridors Plan,](#) and with ~~respect to~~ these Special District Policies.
- C. Applicable Statutes and El Paso County Preferences.** It shall be the responsibility of the applicant to assure that service plans are drafted to meet all of the minimum requirements contained in C.R.S. Title 32, specifically including C.R.S. 32-1-202 (2) as well as all other applicable State requirements.
1. Districts which include water supply as one of their purposes shall be strongly encouraged to join the [El Paso County Pikes Peak Regional Water Authority](#) upon formation.
 2. The preference of El Paso County is for the formation of conventional districts which accord full electoral representation to residents and property owners within the district(s) and/or service area(s).
- D. Application and Schedule.** Although the County will endeavor to be reasonably flexible in accommodating the scheduling needs of special district applicants, it is the ultimate responsibility of the applicants to allow sufficient time to meet the County's procedural guidelines and requirements for application processing.
- E. Review.** Service plans shall be drafted and processed in a manner that allows for coordination and input of all affected elected officials and County departments and other external agencies, specifically including the Clerk and Recorder, the Assessor and the Treasurer.
- F. Mill Levy Caps**
1. All proposed districts that rely significantly on future development to meet financing projections shall include mill levy caps as part of their service plans. To the extent permitted by law, such caps may be lifted once the district achieves the ratios of assessed valuation to debt and other requirements which would allow these caps to be removed. However, actual removal of a Board-imposed mill levy cap is subject to approval of the Board of County Commissioners at the time the cap is proposed to be

removed. Removal of mill levy caps should be supported by justifications including, but not limited to, data establishing ratios of assessed valuation to debt that meet statutory criteria for the issuance of bonds without a mill levy cap, and enhancement of a district's ability to refinance debt at a more favorable rate (if proposed in connection with a refunding of debt).

2. The Maximum Debt Service Mill Levy Cap for Full Service Districts shall normally be 50 (fifty) mills ~~subject to Gallagher adjustment as permitted by law.~~ Debt Service Caps for Limited Service Districts should be correspondingly lower based generally on the proportion of services and facilities the district will be providing compared with a Full Service District.
3. A Maximum Operational Mill Levy Caps of up to ~~15 (fifteen)~~ 15 mills if District(s) is proposed to own and maintain infrastructure and or open space, landscape, and or other facilities that serve as amenities to the residents within the proposed district(s) shall be allowed if supported by the Service Plan and accompanying detailed Development and Financial analyses. ~~Unless a special district has been "de-TABORED" with respect to its operational mill levy, the Maximum Operational Mill Levy Cap shall not subject to Gallagher adjustment.~~
4. All service plans for metropolitan districts shall specify a Maximum Combined Mill Levy cap. Unless otherwise provided for and justified below, the Maximum Combined Mill Levy shall be 60 (sixty) mills.
5. If justified and fully documented by supporting information, an increase in the Maximum Operational, Debt Service and/or Maximum Combined Mill Levy Caps to allow up to ~~15-20 (twentyfifteen)~~ additional mills may be specifically authorized for the purpose of funding ongoing fire protection services where either the District itself will be providing these services or the District(s) propose to contract with another district to provide these services. Such additional mill levy caps shall only be allowed in cases where the property within the proposed district is not presently included in an organized fire protection district.
6. If justified and fully documented by supporting information, an increase in the Maximum Combined Mill Levy Caps ~~of~~ up to 5 (five) additional mills may be specifically authorized as a Special Purpose Mill Levy for the purpose of funding ongoing covenant enforcement and/or maintenance of

common facilities in the absence of a Homeowners Association, or if such covenant enforcement, in the alternative, is to be undertaken by the District.

7. In cases where districts are subject to a mill levy cap and will be relying significantly on future development to meet financing projections, notice shall be provided in the service plan or its approval to the effect that repayment periods for bonds and/or other district obligations are subject to extension in the event revenues come in at a rate lower than anticipated.

G. Disclosure, Notice and Annual Reports

1. It is the policy of El Paso County to further and encourage full, balanced, clear, convenient and constructive disclosure of special district information to all potentially effected parties especially including existing and potential future residential property owners.
2. Notice and disclosure should specifically address topics including but not necessarily limited to unique representational issues (e.g. master districts), dissemination of contact and basic financial information to property owners, and apprising tax and rate payers of their potential maximum financial risk and exposure associated with owning property in the district(s)
3. All districts shall file an Annual Report and Disclosure form in accordance with Resolution 06-472, as may be amended.

H. Non-Proliferation and Need for Districts. Notwithstanding the many factors which may create a justification to form one or more new and independent special district(s), it is the policy of the County to discourage the unnecessary proliferation of additional districts in the County.

1. All proposals for new districts shall clearly and comprehensively justify their need compared with alternatives including using existing districts or non-special district options.
2. Plans for new districts shall be designed and implemented to allow reasonable options for inclusion of additional property; thereby reducing the necessity of creating additional districts in the future.
3. Although the County supports the reasonable and judicious inclusion of additional territory by existing and proposed new districts, conditions

should be placed on new and revised service plans to limit the potential for inclusion of remote properties unless these actions were anticipated in the original service plan.

4. Service Plans should be written with contingences that contemplate eventual annexation of territory by a municipality, in cases where this is a significant possibility.

I. **Land Use Approvals.** Applicants for developer-initiated districts are encouraged to obtain Underlying Land Use Approvals prior to, or at a minimum, in conjunction with service plan application. In those cases where an applicant desires to process a service plan prior to final action on underlying land use approvals, the burden shall be on the applicant to justify the necessity of this timing, sufficient conditions shall be placed on the service plan to address potential subsequent denial or modification of the land use applications, and notations shall be added making it clear that the County has no obligation whatsoever to approve subsequent land use applications in cases where applicants may chose to process service plans in advance of obtaining underlying land use approvals.

J. **Fees.** Within the limits of State Statutes, it is the policy of the County to establish and charge fees commensurate with the actual cost of processing and reviewing of new and amended service plans. Such fees are established by separate Board resolution, and may be waived or reduced by the Board of County Commissioners either in advance of or in conjunction with the hearing on a given service plan. Justifications for fee waiver or reduction include, but are not limited to:

1. County-initiated or partnered service plans.
2. Reduced fee based on limited non-controversial modification to an existing Service Plan.
3. Processing of service plans for volunteer initiatives and/or for districts with limited proposed indebtedness and revenue generation.

IV. SERVICE PLAN REQUIREMENTS & PROCEDURES

A. **Development and Financial Analysis.** A development analysis shall be required prior to formation or full authorization of all proposed districts which rely significantly on future development to meet financial projections

1. At a minimum, the development analysis shall include a summary of the anticipated development within the district described by applicable

category and with development absorption projected throughout the applicable forecast period, [including justification for the basis of such projections.](#)

2. A summary financial analysis shall be provided to correspond with the development analysis. This financial analysis shall include, a first-year revenue budget, a summary of projected revenues, expenditures, and proposed debt issuances over the forecast period, and at a minimum shall address the requirements of C.R.S. 32-1-202 (2) (b) and (f). [The summary financial analysis shall also estimate the average annual impact to the County's Specific Ownership Tax of the proposed maximum district mill levy and a comparison of that impact with the estimated increase in County property tax collections from property within the district.](#)
3. The development analysis and financial plan shall address the "most probable" market absorption assumptions at a minimum, but shall also specifically address contingencies in the event initial development is significantly delayed and/or market absorption occurs at significantly lower rates than anticipated.
4. Service Plans for newly developing areas shall specifically address the potential vulnerability of the development forecasts to short-term market downturns at the beginning of the forecast period.

B. Eligible Improvements.

1. It is the policy of the County to encourage the use of financing districts for Regional Public Improvements which provide a benefit to a significant share of residents and businesses within a larger development and/ or to areas outside the development.
2. Special districts may be authorized to fund Local Public Improvements, where a need is demonstrated, and if a plan for this financing can be justified in the Service Plan.
3. Districts shall not be authorized to finance non-public improvements, nor shall district facilities be used for non-public purposes without proper remuneration to the district(s).
4. In cases where districts are used to finance Local Public Improvements which are tied to the subdivision process, any Service plans and/or subdivision agreements shall be structured in order to prevent a loss of

sales tax revenue from sales of construction materials which would otherwise accrue to the County or other local government taxing entities.

C. Acquisitions and Eminent Domain

1. The policy of the County is to generally discourage the use of districts as a mechanism to reimburse developers for the cost of facilities or other costs already committed to a land development project unless such reimbursement was contemplated in previous County approvals.
2. The contemplated use of eminent domain and/or dominant eminent domain should be addressed in the service plan with reasonable limits placed on thereon, based on the intended use of the district(s). Such limits may include the requirement for express prior approval of the Board for any purposes not explicitly identified in the service plan.
3. In no case shall the authorized eminent or dominant eminent domain powers of the district(s) be used to acquire land or other assets for the purpose of private economic development of such property, where such acquisition is not clearly necessary to support the essential facility and service provision purposes of the districts (s).
4. Pursuant to Colorado Revised Statutes, districts shall not be authorized to acquire water rights by condemnation.

D. Authorization of Debt and Issuance of Bonds

1. Districts shall be encouraged to prudently phase the issuance of debt, especially in situations where future development will be substantially relied upon for to generate revenue to pay such debt.
2. The pre-authorization of debt shall be reasonably limited.
3. In cases where there will be a Master District arrangement, consideration may be given to limitations which require prior Board of County Commissioners approval for re-authorization of debt if and when the original authorization expires.
4. Districts shall evaluate their proposed mill levy and debt in relationship to the current and potential future combined mill levies and debt which may be levied by all overlapping and eligible taxing entities for the affected area.
5. Where applicable and appropriate, districts are encouraged to rely on a combination of property taxes, fees and charges both to diversify their

revenue sources and to reduce some of the repayment impact on future property owners, particularly in the case where the district(s) will be used to fund Local Public Improvements.

6. Districts are encouraged to limit the term of bond issuances to the shortest time period that is reasonable and practical. The term of each individual bond issue should be limited to thirty (30) years or less unless specific justification for a longer duration is provided.
7. In cases where developers or other directly interested parties may be purchasing developer-held bonds, an opinion letter from an external financial advisor shall be provided to ensure that interest rates for these bonds are competitive as compared with bonds sold on the open market.
8. Districts shall not be authorized to directly accept sales or use tax revenues (i.e. from tax increment financing arrangements) without express prior approval of the Board).

E. Developer Funding Agreements. Districts shall be allowed to prudently use developer funding agreements and/or capitalized interest as a means of compensating for delays in receipt of property tax and other revenues in newly developing districts.

1. The proposed and potential use of Developer Funding Agreements shall be addressed as part of the Service Plan for new districts and ~~Major material Amendments/modifications, as well as for other non-Major Amendments~~ if this topic is deemed by the ~~Development Services~~ Planning and Community Development Director to be pertinent to the amendment.

2. To the extent Developer Funding Agreements are included in an approved Service Plan (or any amendment thereof), such Agreements may provide for the earning of simple interest thereon, but under no circumstances shall any such Agreement permit the compounding of interest. The Service Plan may permit an interest rate that does not exceed the prime interest rate plus two points thereon
3. Unless specifically addressed in the original Service Plan or a Board of County Commissioners-approved amendment of the Service Plan, the maximum term for repayment of a Developer Funding Agreement shall be twenty (20) years from the date the Special District becomes obligated to repay the Developer Funding Agreement under the associated contractual obligation. For the purpose of this provision, Developer Funding Agreements are considered repaid once the obligations are fully paid in cash or when converted to bonded indebtedness of the Special District (including privately placed bonds). Any extension of such term must be approved by the Board.
4. Required disclosure notices shall clearly identify the potential for a Special District to enter into obligations associated with Developer Funding Agreements.

F. Multiple Districts.

1. Multiple District Service Plans shall include the following:
 - a. Provide justification that the total number of proposed districts is the minimum necessary to effectively manage the infrastructure and operational needs of the service area.
 - b. Clearly and comprehensively address the relationships among separate districts, including proposed intergovernmental agreements and contingencies for potential dissolution or combination.
 - c. Clearly address intent to fairly and equitably distribute costs and benefits among separate districts.
2. If justified in the Service plan(s) the Board may consider Multiple District concepts for the following purposes:
 - a. Accommodating the phasing of infrastructure financing for distinct major phases of a larger land development project

- b. Allowing for differential mill levies between non-residential and residential areas within a larger project ~~for the purposes of addressing the impact of the Gallagher Amendment.~~

- G. Master Districts.** Service plans which contemplate Master District concepts shall provide justification that the total number of proposed districts is the minimum necessary to effectively manage the infrastructure and operational needs of the service area. Master Districts ~~approvals are not preferred but may~~ shall be allowed subject to specific justification of the unique need for these limited representation arrangements.
1. The preference of El Paso County is for the formation of conventional districts that accord full electoral representation to residents and property owners within the district(s) and/or service area(s).
 2. Service Plans that contemplate Master District concepts shall provide justification that the total number of proposed districts is the minimum necessary to effectively manage the infrastructure and operational needs of the service area.
 3. In cases where one or more Master Districts will provide services or facilities to a larger defined service area, the applicants for the district shall use reasonable means (including mailings and/or informational meeting) to inform existing property owners of the proposed district arrangement.
 4. Board of County Commissioners appointed Citizen Advisory Councils (CACs) should be actively considered as a means to allow a more formal role in the affairs of the Controlling Board of Directors, including, where appropriate, consideration of establishing the Chair of the CAC as either an ex-officio or formal voting member of the Controlling Board of Directors.
 5. If not initially required as a condition of Service Plan approval, ~~and but~~ if ~~so provided as part of permitted by~~ such approval, at any time during the existence of the Controlling Board of Directors, the Board of County Commissioners, either on its own initiative or in response to citizen input, may exercise their prerogative to require the creation a Citizen Advisory Council (CAC) if it is determined to be in the best interest of the County, and/or the property owners within the service area. The Board may

establish the Chair of the CAC as either an *ex-officio* or formal voting member of the Controlling Board of Directors.

6. Other than responsibility for the appointment process, the Controlling Board of Directors shall have responsibility for support of any CACs, which may be required.
7. In the event of insufficient interest in CAC membership, appropriate justification presented by the Controlling District Board of Directors, or for any other reason, the Board of County Commissioners, at its sole discretion, shall have the right to eliminate a prior requirement for a CAC.
8. Service plans which contemplate Master District arrangements shall include provisions to accommodate a transition back to a conventional district once the area served by the district(s) is fully developed.

H. Concealed Carry Prohibition.

Service plans shall include the following provision: The District shall not adopt or enact an ordinance, resolution, rule or other regulation that prohibits or restricts an authorized permittee from carrying a concealed handgun in a building or specific area under the direct control or management of the District as provided in C.R.S. § 18-12-214.

H.I. Covenant Enforcement and Homeowner's Association Functions.

1. Any intent or reserved option to use the proposed District(s) for Homeowners Association (HOA) functions, including covenant enforcement or common area maintenance should be clearly described in the Service Plan. Such description should specify whether there is intent to use the District(s) in lieu of one or more HOAs or to contract with HOA(s) for provision of certain services.
2. Use of district(s) for ongoing covenant enforcement purposes should be specifically discouraged if there are expected to be no other ongoing needs for the perpetual existence of the District(s).

H.J. Service Plan Amendments ~~(Material Modifications)~~.

1. The Board of County Commissioners reserves the discretion to impose review standards and hearing requirements as deemed appropriate and necessary for any application for amendment of an existing Service Plan, as otherwise allowed under State Statute.

- 4.2. ~~All applications for material modifications shall require~~ All applications for material modifications shall comply with the County's Service plan Policies, and conformance with the applicable Model Service plan, and adds the following provision: The District shall not adopt or enact an ordinance, resolution, rule or other regulation that prohibits or restricts an authorized permittee from carrying a concealed handgun in a building or specific area under the direct control or management of the District as provided in C.R.S. § 18-12-214.
- 2.3. ~~In cases where one or more Major Amendments~~ In cases where one or more material modifications are proposed to be made to an existing Service Plan, a revised Service Plan submittal shall be required with hearings to be scheduled before both the Planning Commission and the Board of County Commissioners consistent with the review of a Service Plan for a new district, except where these procedures may be clearly inapplicable. Final action on a material modification ~~Major Amendment~~ shall consist of approval of the new Service Plan which will have the effect of replacing the previous one, and any conditions or notations which may have been imposed on that plan by the Board of County Commissioners.
3. ~~In cases where one or more Minor Amendments are proposed to be made to an existing Service Plan, the submittal shall not normally require a complete new Service Plan, but only those materials necessary to support and justify the amendment as determined by the Development Services Department Director in consultation with the County Attorney's Office. The hearing or hearings addressing Minor Amendments shall be scheduled directly before the Board of County Commissioners. Final action on a Minor Amendment shall consist of approval of a resolution specifically amending the language included in the existing Service Plan or the conditions or notations imposed on that plan by the Board of County Commissioners.~~
4. ~~Material Modifications may be processed as either Major or Minor Amendments at the discretion of the Development Services Department Director in consultation with the County Attorney's Office.~~
5. ~~Administrative amendments to approved Service Plans shall only be approved administratively (by the Development Services Department~~

~~Director in consultation with the County Attorney's Office) in those cases where this authority is expressly delegated by the Board of County Commissioners.~~

- ~~6.4. Determinations as to the use and applicability of the Major or Minor Amendment process, as outlined above, shall be made by the Development Services Department Director for all Service Plans approved prior to the date of adoption of these policies, based on a determination of the need for and appropriateness of the Minor versus Major Amendment processes.~~
- ~~7. Any administrative decisions concerning IV. J. 2-6 above may be appealed to the Board of County Commissioners pursuant to applicable procedures as outlined in the El Paso County Land Development Code, or as otherwise provided for in State Statute.~~

III. INTRODUCTION

A. Overall Purpose and Intent.

The District will be created pursuant to the Special District ~~Act, and~~ Act and is being organized as a Conventional Representative District under El Paso County policies. The District is an independent unit of local government, separate and distinct from the County, and, except as may otherwise be provided for by State or local law or this Service Plan, its activities are subject to review by the County only insofar as they may deviate in a material matter from the requirements of the Service Plan. It is intended that the District, in its discretion, will provide a part or all of various Public Improvements necessary and appropriate for the development of a project within the unincorporated County to be known as “_____” (the “Project”). The Public Improvements will be constructed for the use and benefit of all anticipated inhabitants, property owners and taxpayers of the District. The primary purpose of the District will be to finance the construction of these Public Improvements. Additional major purposes will include _____ *(add additional ongoing service and maintenance purposes if applicable).*

In approving this Service Plan the objectives of the County include an intent to allow the applicant(s) reasonable access to public tax-exempt financing for reasonable costs associated with the generally identified Public Improvements and to allow the applicant(s) the ability to prudently obligate future property owners for a reasonable share of the repayment costs of the Public Improvements which will benefit the properties within this District.

It is the additional objective of the County to allow for this District to provide for the identified ongoing services which either cannot or will not be provided by the County and/ or other

districts. *(Delete if not appropriate- or modify as appropriate)*

(Insert language concerning other major objectives e.g. regional cost sharing, if appropriate)

In approving this District as a Conventional Representative District, it is also an objective of the County to maximize opportunities for full representative participation on the part of future eligible electors. D. Maximum Maturity Period For Debt.

The period of maturity for issuance of any Debt (but not including Developer Funding Agreements) shall be limited to no more than thirty (30) years without express, prior approval of the Board of County Commissioners. ~~Such approval, although required, is not considered to be a Material Modification of the Service Plan which would trigger the need to amend said Service Plan.~~ However, the District is specifically authorized to refund or restructure existing Debt so long as the period of maturity for the refunding or restructured Debt is no greater than 30 years from the date of the issuance thereof.

E. Developer Funding Agreements.

The Developer (does/does not) intend to enter into Developer Funding Agreements with the District in addition to recovery of the eligible costs associated with creation of this District. The Developer may fund these obligations for the District to promote the Project's development subject to the

Developer being repaid from future District revenues.

(Describe any intended agreements including reimbursement agreements; include the following language if applicable)

Developer Funding Agreements may allow for the earning of simple interest thereon, but under no circumstances shall any such agreement permit the compounding of interest. The Developer Funding Agreements may permit an interest rate that does not exceed the prime interest rate plus two points thereon.

The maximum term for repayment of a Developer Funding Agreement shall be twenty (20) years from the date the District becomes obligated to repay the Developer Funding Agreement under the associated contractual obligation. For the purpose of this provision, Developer Funding Agreements are considered repaid once the obligations are fully paid in cash or when converted to bonded indebtedness of the District (including privately placed bonds). Any extension of such term is considered a ~~Material~~ material Modification-modification and must be approved by the Board of County Commissioners.

Required disclosure notices shall clearly identify the potential for the District to enter into obligations associated with Developer Funding Agreements.

F. Privately Placed Debt Limitation.

Prior to the issuance of any privately placed Debt, the District shall obtain the certification of an External Financial Advisor substantially as follows: We are [I am] an External Financial Advisor within the meaning of the District's Service Plan.

The District is an independent unit of local government, separate and distinct from the County, and, except as may otherwise be provided for by State or local law or this Service Plan, its activities are subject to review by the County only insofar as they may deviate in a material matter from the requirements of the Service Plan. It is intended that the District, in its discretion, will provide a part or all of various Public Improvements necessary and appropriate for the development of a project within the unincorporated County to be known as “_____” (the “Project”). The Public Improvements will be constructed for the use and benefit of all anticipated inhabitants, property owners and taxpayers of the District. The primary purpose of the District will be to finance the construction of these Public Improvements. Additional major purposes will include _____ *(add additional ongoing service and maintenance purposes if applicable).*

(Provide any other key summary information as applicable)

Future County involvement in the affairs of the District will generally be limited to functions as required by the Colorado Revised Statutes, reporting and disclosure functions, determinations as to compliance with the limits as set forth in this Service Plan or any conditions attached to its approval, as well as additional activities or relationships as may be stipulated in any intergovernmental agreements which may be entered in to between the District and the County in the future.

In approving this Service Plan the objectives of the County include an intent to allow the applicant(s) reasonable access to public tax-exempt financing for reasonable costs associated with the generally identified Public Improvements and to allow the applicant(s) the ability to prudently obligate future property owners for a reasonable share of the repayment costs of the Public Improvements which will benefit the properties within this District.

It is the additional objective of the County to allow for this District to provide for the identified ongoing services which either cannot or will not be provided by the County and/ or other

districts. *(Delete if not appropriate- or modify as appropriate)*

(Insert language concerning other major objectives e.g. regional cost sharing, if appropriate)

In approving this District as a Conventional Representative District, it is also an objective of the County to maximize opportunities for full representative participation on the part of future eligible electors. III. INTRODUCTION

A. Overall Purpose and Intent.

The Districts will be created pursuant to the Special District Act and are being created with a Conventional Representative District structure under El Paso County policies. The Districts are independent units of local government, separate and distinct from the County, and, except as may otherwise be provided for by State or local law or this Service Plan, their activities are subject to review by the County only insofar as they may deviate in a material matter from the requirements of the Service Plan. It is intended that the Districts, in their discretion, will provide a part or all of various Public Improvements necessary and appropriate for the development of a project within the unincorporated County to be known as “_____” (the “Project”). The Public Improvements will be constructed for the use and benefit of all anticipated inhabitants, property owners and taxpayers of the Districts. The primary purpose of the Districts will be to finance the construction of these Public Improvements. Additional major purposes will include _____ *(add additional ongoing service and maintenance purposes if applicable)*.

(Provide any other key summary information as applicable)

B. Need For The Districts.

The overall need for creation of the Districts is _____. *(Summarize overall need for the Districts. Explain why adjacent districts cannot provide services, provide supporting evidence.)*

C. County Objectives In Forming The Districts.

The County recognizes the Districts as independent quasi-municipal entities which is duly authorized for the purposes and functions identified in the Service Plan. Future County involvement in the affairs of the Districts will generally be limited to functions as required by the Colorado Revised Statutes, reporting and disclosure functions, determinations as to compliance with the limits as set forth in this Service Plan or any conditions attached to its approval, as well as additional activities or relationships as may be stipulated in any intergovernmental agreements which may be entered in to between the Districts and the County in the future.

In approving this Service Plan the objectives of the County include an intent to allow the applicant(s) reasonable access to public tax-exempt financing for reasonable costs associated with the generally identified Public Improvements and to allow the applicant(s) the ability to prudently obligate future property owners for a reasonable share of the repayment costs of the

Public Improvements which will benefit the properties within the Districts.

It is the additional objective of the County to allow for the Districts to provide for the identified ongoing services which either cannot or will not be provided by the County and/ or other districts. *(Delete if not appropriate- or modify as appropriate)*

(Insert language concerning other major objectives e.g. regional cost sharing, if appropriate)

In approving these Districts as a Conventional Representative Districts, it is also an objective of the County to maximize opportunities for full representative participation on the part of future eligible electors. However, because many of the critical financing decisions will be made prior to the existence of resident electors, it is the further intent of the County to accommodate and allow for reasonable and constructive ongoing notice to future property owners of the probable financial impacts associated with owning property within the Districts.

D. Multiple District Structure.

1. Multiple District Structure. Multiple Districts are being proposed for the Project in order to permit the provision of the Public Improvements according to the phasing and pace of development, as well as to promote equitable allocation of costs among properties within the Project.

Each District will be authorized to provide improvements and services, including but not limited to acquisition of completed improvements, to the property within and without their respective legal boundaries, as they may be amended from time to time. Debt may be issued by the Districts as appropriate to deliver the improvements and services to the property within the Project.

Due to the relationship between the Districts and the Project as a whole, various agreements are expected to be executed by one or more of the Districts clarifying the respective responsibilities and the nature of the functions and services to be provided by each District. The agreements will be designed to help assure the orderly development of essential services and facilities resulting in a community that is aesthetic and an economic asset to the County.

2. Benefits of Multiple District Structure. The use of a multiple district structure as described in this Service Plan serves the best interests of the County, the applicant(s) and the future taxpayers within the Districts. The benefits of using the multiple district structure include:- (a) coordinated administration of construction and operation of public improvements and delivery of- those improvements in a timely manner; and (b) assurance that improvements required by the County are financed and constructed in a timely and cost-effective manner.

a. Coordinated Services. As presently planned, development of the Project will proceed in phases, which will require the extension of public services and facilities. The multiple district structure will assure that the construction and operation of each phase of Public Improvements will be administered consistent with a long-term construction and operations program.

b. Debt Allocation. Allocation of the responsibility for paying debt for capital improvements will be managed through development of a unified financing plan for these improvements and through development of an integrated operating plan for long-term operations and maintenance for those improvements that are not dedicated to and accepted by the County, but retained by the Districts as appropriate. Intergovernmental agreements will help assure that no area within the Project becomes obligated for more than its share of the costs of capital improvements and operations. Neither high nor low-density areas will bear a disproportionate burden of debt and operating costs. Additionally, equity is also promoted due to the fact that there must be a rational relationship between the land that is subject to a district's mill levy and the improvements or services being funded.

E. Specific Purposes -Facilities and Services.

The Districts are authorized to provide the following facilities and services, both within and without the boundaries of the Districts as may be necessary:

III. INTRODUCTION

A. Overall Purpose and Intent.

The Districts will be created pursuant to the Special District ~~Act, and Act and~~ are being created with a Control District/Financing District structure under El Paso County policies. The Districts are independent units of local government, separate and distinct from the County, and, except as may otherwise be provided for by State or local law or this Service Plan, their activities are subject to review by the County only insofar as they may deviate in a material matter from the requirements of the Service Plan. It is intended that the Districts, in their discretion, will provide a part or all of various Public Improvements necessary and appropriate for the development of a project within the unincorporated County to be known as “_____” (the “Project”). The Public Improvements will be constructed for the use and benefit of all anticipated inhabitants, property owners and taxpayers of the Districts. The primary purpose of the Districts will be to finance the construction of these Public Improvements. Additional major purposes will include _____ *(add additional ongoing service and maintenance purposes if applicable)*.

District No. 1 is proposed to be the Control District, and is expected to coordinate the financing and construction of all Public Improvements. District Nos. __ - __ are proposed to be the Financing Districts, and are expected to include residential and/or commercial development that (under the direction of District No. 1) will produce the required revenue to fund the Public Improvements and any operations and maintenance costs.

(Provide any other key summary information as applicable)

B. Need For The District.

The overall need for creation of the Districts is _____. *(Summarize overall need for the Districts)(include justification for number of Financing Districts). Explain why adjacent districts cannot provide services, provide supporting evidence.*

C. County Objectives In Forming The District.

The County recognizes the Districts as independent quasi-municipal entities which are duly authorized for the purposes and functions identified in the Service Plan. Future County involvement in the affairs of the Districts will generally be limited to functions as required by the Colorado Revised Statutes, reporting and disclosure functions, determinations as to compliance with the limits as set forth in this Service Plan or any conditions attached to its approval, as well as additional activities or relationships as may be stipulated in any intergovernmental agreements which may be entered in to between the Districts and the County in the future.

In approving this Service Plan the objectives of the County include an intent to allow the applicant(s) reasonable access to public tax-exempt financing for reasonable costs associated with the generally identified Public Improvements and to allow the applicant(s) the ability to prudently obligate future property owners for a reasonable share of the repayment costs of the Public Improvements which will benefit the properties within the Districts.

It is the additional objective of the County to allow for the Districts to provide for the identified ongoing services which either cannot or will not be provided by the County and/ or other districts. *(Delete if not appropriate- or modify as appropriate)*

(Insert language concerning other major objectives e.g. regional cost sharing, if appropriate)

D. Multiple District Structure.

1. Multiple District Structure. This Service Plan sets forth the general parameters for the working relationship between District No.1 (as the Control District) and the Financing Districts. This structure is intended to provide for the fair and equitable allocation of the costs of the Public Infrastructure and related services within the various development areas of the Project.

District No. 1 is expected to be responsible for managing the construction, acquisition, installation and operation of the Public Improvements. The Financing Districts are expected to be responsible for providing the funding and tax base needed to support the plan for financing the Public Improvements and for operation, maintenance and administrative costs. The allocation of responsibility for all such functions among the Districts may occur in any combination based upon the best interests of the property owners and residents within the Project.

Each District will be authorized to provide improvements and services, including but not limited to acquisition of completed improvements, to the property within and without their respective legal boundaries, as they may be amended from time to time. Debt may be issued by either District No. 1 and/or the Financing Districts as appropriate to deliver the improvements and services to the property within the Project.

Due to the interrelationship between the Districts, various agreements are expected to be executed by one or more of the Districts clarifying the respective responsibilities and the

nature of the functions and services to be provided by each District. The agreements will be designed to help assure the orderly development of essential services and facilities resulting in a community that is aesthetic and an economic asset to the County.

2. Benefits of Multiple District Structure. The use of a multiple district structure as described in this Service Plan serves the best interests of the County, the applicant(s) and the future taxpayers within the Districts. The benefits of using the multiple district structure include: (a) coordinated administration of construction and operation of public improvements and delivery of those improvements in a timely manner; and (b) assurance that improvements required by the County are constructed in a timely and cost effective manner.

a. Coordinated Services. As presently planned, development of the Project will proceed in phases, which will require the extension of public services and facilities. The multiple district structure will assure that the construction and operation of each phase of Public Improvements will be administered consistent with a long-term construction and operations program. Use of District No. 1 to direct financing, construction, acquisition and installation of improvements and for management of operation and maintenance needs will facilitate a well planned financing effort through all phases of construction, which will assist in the coordinated extension of services.

b. Debt Allocation. Allocation of the responsibility for paying debt for capital improvements will be managed through development of a unified financing plan for these improvements and through development of an integrated operating plan for long-term operations and maintenance for those improvements that are not dedicated to and accepted by the County, but retained by the Districts as appropriate. Use of District No. 1 to manage these functions will help assure that no area within the Project becomes obligated for more than its share of the costs of capital improvements and operations. Neither high nor low-density areas will bear a disproportionate burden of debt and operating costs. Additionally, equity is also promoted due to the fact that there must be a rational relationship between the land that is subject to a district's mill levy and the improvements or services being funded.

E. Specific Purposes -Facilities and Services.

1. REPORT ITEMS

A. Planning and Community Development – Kevin Mastin or Justin Kilgore

Mr. Mastin Planning and Community Development has advertised the Executive Director position. We have received 46 applicants. It will be posted till October 30th, 2022. It will probably be the first of the year before the position will be filled. Matthew Fitzsimmons one of our Senior Planner's has accepted another position. PCD is in the process of hiring a new planner. Will work with HR to look at the correct number of applicants. We are trying to get two out of this next hiring cycle to bring it to a total of eight. I briefed the BoCC about the critical need for two (2) additional planners to bring the total to ten (10). Mr. Mastin thanked the Board members for their efficiency.

Mr. Kilgore Ms. Parsons will be taking over the presentation for 2D and 4D.
Ms. Parsons has some staff report and resolution updates for the Board.

Ms. Parsons in your packets the resolutions are now attached to each item. Conditions of approval were specifically spelled out in those resolutions as well as the findings for each item. That is very consistent with the Board of County Commissioners and their process. To be consistent with the Board of County Commissioners and more transparent as the El Paso County strategic plan requires us to be. We have attached those resolutions so that the people who look at the staff report online, the people in the audience and the commissioners themselves can see those resolutions from the Planning Commission, rather than identifying a page in a book that the public has no access to. We don't have to vote on this it is just for clarification.

Mr. Trowbridge how do we reference that in a motion to approve?

Ms. Parsons just like the Board of County Commissioners reference the resolution, number of conditions, approval and a finding of sufficiency that is applicable.

Ms. Seago I would recommend that you use language similar too: I make a motion to approve item xyz in accordance with the resolution included in the packet.

Ms. Parsons handed resolutions to the chair so he can circle if approved or denied.

Mr. Risley asked if there were any questions for staff. Chair saw none. I don't see it on the agenda but customarily we allow a period for the members of the audience that would like to comment on items that are not on the agenda. Chair asked if there was anyone that would like to address the Board. Chair would like that put back on the agenda.

B. The next scheduled Planning Commission meeting is for Thursday, November 3, 2022, at 9:00 A.M.

HOWSER

SPECIAL USE RAEL STORAGE RURAL HOME OCCUPATION

A request by Steve Rael for approval of a rural home occupation as a special use for an existing automobile and boat storage yard. The 40-acre property is zoned RR-5 (Residential Rural) and is located on the west side of Colorado Highway 83, approximately one-third of a mile south of Colorado Highway 105/Walker Road and is within Section 15, Township 11 South, Range 66 West of the 6th P.M. (Parcel No. 61000-00-489) (Commissioner District No. 1)

Mr. Howser presented Staff's presentation for the Special Use for rural home occupation request.

Ms. Seago summarized the criteria for approval.

Ryan Howser presented the background for the request in 2018, El Paso County code enforcement issued a notice of violation. In 2019, the applicant formally applied for the special

use to legalize the storage on the property. In early 2022, the applicate submitted the appropriate site plan to complete the application process.

Mr. Rael – Owner gave his presentation.

Mr. Howser presented arial view of the property with the trailers. It shows the intent of the 50-foot setback as opposed to the current location which is quite close to the property line.

Mr. Hernandez discussed the transportation and roadway fees. Roadway improvements are with CDOT.

Mr. Whitney had questions about CDOT.

Mr. Mastin confirmed that it is the applicant's responsibility, and it would not affect the ability to vote on this.

Ryan Howser presented the conditions and notations. This is a long running code enforcement violation. We have applied a 30-day time window for the applicant to receive the approval of the Commercial Site Development plan, also have applied 30-days to move the trailers and put up 100% Opaque fence screening. The Staff presentation was concluded.

Mr. Trowbridge, Mr. Carlson and Ryan Howser discussed the fencing. The fencing must surround the outside storage use, just around the trailers. If it goes higher than 7-feet, it would be considered a structure and would need a building permit.

Mr. Schuettpelz questioned the paving. Is it 25 or 42 spaces?

Mr. Howser our code requires paving for a parking area of more than 25 spaces. If the applicant does only 25, he does not have to pave. If he does more than 25 it is tripped in our parking standards of our code, it would have to be paved. If he would exceed the 25 spaces, he would have to come back for a revision of the Special Use. Today for the Special Use it is 25.

Mr. Risley has it been paved?

Mr. Rael I have acquired the asphalt but have not paved. It is on the westside of the property. It will be 25 spaces.

Mr. Trowbridge and Mr. Bailey the current letter of intent is only to pave 25. That is what is tide to any resolution that we decide for approval.

Mr. Risley questioned the grading of the property per the letter of intent.

Mr. Rael – you just grade the asphalt we will not disturb the land. It is just crushed asphalt.

Mr. Mastin- the crushed asphalt is something like millings that will be put down. No machinery.

Mr. Whitney just to make clear for the record it will be 25 spaces millings on the ground covering the spaces no paving.

Mr. Bailey further on to that the specific details of how the site development plan will follow this approval within 30 days. The 25 spaces in the letter of intent ties to our task today which is to look at the existing code what's allowed for a Special use how that gets implemented comes next. It probably won't come to this commission.

Mr. Mastin yes that is correct. If he goes over the 25 spaces, he will not be complying with what this board approves.

Mr. Risley are there any folks that would like to speak. There are only those that are opposed to the Special Use.

Jill Fowler I'm here to oppose. I am directly across from Mr. Rael. He has been in violation for the past 4 years. The RV's and Semi have been parked for 15 years. Jill Fowler presented pictures. I hired a certified appraiser. He is currently the president of the Colorado Association of Real Estate Appraisers. He did an analysis and submitted an impact statement that indicated that the RV storage has an estimated negative impact of 5.5% for my overall property. The Special use does not meet the criteria or the letter of intent.

DAVE ELLIS – Representative for the Canterbury Estates – Equestrian Community.
Mr. Rael's property is about 800 feet from our community. Dave showed a picture. Mr. Rael's property does not keep up to the character of the neighborhood. The picture shows a person riding a horse behind the trailers on Mr. Rael's property. It makes an iron curtain between our equestrian community and his. We are asking for a buffer of equivalent characters to the size of our properties. I looked at 7 storage properties. My spread sheet column 3 looks at the zoning and none of them are RR-5. Showed pictures of the storage lots with very high opaque fences. They have easy access from a paved road. The Rael Storage as proposed here is not in harmony with our neighborhood. Incompatible, safety concerns, flammable materials. Please protect the value of the present and future owners. If was up next to highway 83 our association has no problem with that.

Ivan Anthony my property is on the southeast corner. Mr. Rael said he emailed everybody I did not get an email. Rael Storage is for RV's and trailers not vehicles or boats as stated in the Staff Report. If approved, it will set a precedent to other landowners RR-5. I have lived here since 1991. I moved here for the rural feel. Mr. Rael has been in violations for at least 15 years. It was in 2019, that I was notified. Mr. Rael kept adding more and more RV's. You can see part of the trailers from my house. What is the purpose of zoning laws if we do not follow them.

Debra Duey I have lived in monument since 1969. I have known the Rael's for 40 years. The gentleman who spoke before me owns his own business on his property. The horse barn on the other side of Rael that is a business. I have looked personally at the changes of our views. That I have had to put up with because it is the law. Steve is doing the best he can. We all have the right to own a business within the law.

Mr. Risley we will close the public testimony of the hearing.

Mr. Rael closed his testimony. If you could give me till November, I will have the RV's moved.

Mr. Whitney asked to question David Ellis about the compatibility of Canterbury and Mr. Rael.

Mr. Carlson, Mr. Bailey, Mr. Schuettpelz, Mr. Patterson discussed the fencing issue, 50' foot set back. Our job is to apply the criteria that exists today.

Mr. Risley asked for a vote. 5-4 in opposition for disapproval. What would the recommendation be for the BoCC? It is a double negative.

Ms. Seago a motion to approve would be to capture the conditions and notations. If it passes that would be the recommendation to go forward.

PC ACTION: BAILEY MOVED/PATTERSON SECONDED FOR APPROVAL OF REGULAR ITEM NUMBER 4A, AL-19-018 FOR AN APPROVAL OF A SPECIAL USE, UTILIZING ATTACHED RESOLUTION, WITH THREE (3) CONDITIONS AND THREE (3) NOTATIONS AND THAT THIS ITEM BE FORWARDED TO THE BOARD OF COUNTY COMMISSIONERS FOR THEIR CONSIDERATION. THE MOTION WAS APPROVED (5-4).

**EPC PARKS MASTER PLAN
UPDATE 2022**

El Paso County Community Services Department requests adoption of the El Paso County Parks Master Plan. This Master Plan repeals and/or replaces the existing El Paso County Parks Master Plan (2013). The Master Plan area includes all land within El Paso County located outside the incorporated municipalities and includes the accompanying maps, charts, and descriptive and explanatory matter. The Master Plan is an advisory document to guide park, trail, and open space development and preservation decisions.

Type of Hearing: Legislative

Ms. JACKSON – Presented the Presentation.

Mr. Carlson were the early evaluations processed by your own people for each asset? Evaluations were not on public use just on grading landscaping. Do consider volunteers.

Ms. Jackson in our firm we have an individual that is a past landscape architect and a GIS specialist who went in the field first. The second round we had a local landscape architect to ensure the grading was done correctly. It was all parks to see all the elements if they were in poor, fair or good condition.

Mr. Trowbridge looking at the cost of 14 million. How does that fit with historical spending by the county. It was over 8 million alone for Fox Run.

Mr. Marts – In previous years we have not. In future years the work that they have done will tie to the strategic plan. Not proposing funding 45% is third party funding. We have over twenty thousand hours of volunteer service that we do. We are not able to do what we do without volunteers.

Mr. Risley this is a regular hearing Is there anybody wanting to speak on this topic?

Scott Layman – I'm just a concerned citizen. One of the things you can use is a work release program to help with the parks. It would be a training exercise for the inmates. It would help with cost.

Ms. Seago Mr. Chair I neglected to provide any criteria at the beginning of the hearing. This is a legislative item. This is an item on which the Planning Commission's action is the final action, and it will be provided as an information item if approved to the BoCC. The BoCC will not vote on it because it is a legislative item. There is a lot of discretion in terms wither to approve or deny the item. If it has a rational connection to public purpose and does not violate the Constitution you are free to approve as you see fit.

Mr. Risley this is like the Water Master Plan and the County Master plan. Our job is to certify that the first eight statues that the parks division has followed the statuary requirements in terms of public input. Ms. Jackson walked us through that. We are certifying this if we choose to take that action.

Mr. Bailey – requirements for 2 hearings. No vote.

El Paso County Attorney - Lori Seago confirmed NO vote

**SPECIAL USE
17340 FAIRPLAY DRIVE MINOR KENNEL**

A request by Mark and Anne Seglem for approval of a minor kennel as a special use for eight (8) personal dogs. The 1.06-acre property is zoned RS-20000 (Residential Suburban) and is located approximately west of West Higby Road and one-half of a mile northwest of the intersection of West Higby Road and Fairplay Drive and is within Section 24, Township 11 South, Range 67 West of the 6th P.M. (Parcel No. 71241-03-061) (Commissioner District No. 1)

Ms. Parsons – Presented Presentation.
Applicant is Virtual

Mr. Risley is there anybody present that might be in the hallway? Nobody is present.

Ms. Seago read criteria for approval

Mr. Seglem – Presented Presentation.

Mr. Risley any questions for the applicant.

Ms. Parsons continued the presentation

Mr. Risley one of the emails about opposition spoke about a walking path adjacent to the property. Can you indicate where the open space is located?

Mr. Seglem – We were part of the WASC in which the county was very much in favor we worked with a developer. One hundred twenty-eight of us here in South Woodmoor purchased land from the original owners. We were permitted to purchase additional land approximately .468 acres which is about ½ of what you see. There is a walking trail behind the land. WASC donated land for the trails. We asked that they move the trails further from our home so it would not be a problem. WASC did not do that. We asked Woodman HOA to move the trail 10 to 20 feet further from the house.

Ms. Parsons continued the presentation.

Mr. Bailey is there a time limit on the approval of this special use? In general, once a special use is granted does this continue and the applicant can replace the dogs in the future.

Ms. Parsons I do not believe so we did not want to guess when the dogs would pass. that is correct unless there was a specific condition added that did not allow them to do that.

Mr. Carlson on the first condition would that include that they are not going to operate a kennel. Concerned another homeowner would want to have kennel

Ms. Seago yes you are correct they would not be able to run a kennel.

Mr. Trowbridge If you sold the property would the special use be void?

Ms. Seago the special use does run with the land.

Ms. Parsons anybody online? No

Mr. Risley – Does the applicant have anything further they would like to say?

Mr. Seglem I would also say that again within 5 years we will be below the 8 dogs. We would like our dogs to stay home.

Mr. Trowbridge can we put a 5 year limit? That would help reassure everybody.

Ms. Parsons can we put this just for the dogs that are there now. We do not want another code enforcement issue.

Mr. Trowbridge can we revisit in 5 years that is all I'm saying

Mr. Carlson in the presentation you stated you fit your dogs with anti-bark collars. Does that work.

Mr. Seglem it does work. In recent trip to the vet, it is a concern about zapping the dogs due to their age. We are doing everything we can. They bark only when someone is walking down the trails close to our fence. The homeowners' dogs are not on a leash, not in control and they run up to the fence.

Mr. Mastin are all the dogs chipped?

Mr. Seglem all the dogs are all registered with the county.

Mr. Mastin it would be a concern if there is a new dog was brought in.

Mr. Risley Commissioners have concerns if this runs with the land it would extend the problem we have now.

Ms. Seago It does not have to run with the land with the sale of property

Mr. Patterson sounds reasonable to me.

Mr. Bailey have a question about condition number two.

Ms. Parsons what the applicant has on the site plan is sufficient.

Mr. Carlson – Wouldn't it allow 8 dogs for ever more.

Mr. Trowbridge, Mr Carlson, Mr. Risley, Mr. Bailey have concerns about the 5 years.

Mr. Seglem We use a local vet which is easy to trace if we were trying to slip in a new dog.

Mr. Carlson, Mr. Risley, Mr. Trowbrige would it be easier to give him the extension for 5 years.

Ms. Parsons to be frank we would have staff time involved with processing a special use which requires an engineer, code enforcement, planning staff, planning commission, admin staff, BoCC, added expense to the applicant it would be about 25 hours. Staff is not concerned about the issue.

Ms. Seago – I would like to make some un-legal comments that you could take for how they are worth having done code enforcement in the past I ask that you consider some of the burden. Is it worth the county resources? The special use is consistent with the letter of intent. He has named all the eight dogs. I question is this good use of staff and county time. As you deliberate to consider what you are trying to achieve here, what impacts you are trying to mitigate and what is realistic based on future resources necessary to enforce whatever conditions you impose.

Ms. Brittian-Jack bottom line is they are making a request given us their intent in keeping their family together. Their pets are their family. I do not see nit picking is serving anybody. If we are going to put a condition it should end when they no longer own the property.

Mr. Trowbridge the expiration on the property is the way to go.

Mr. Risley called the vote.

DISCUSSION:

PC ACTION: TROWBRIDGE MOVED/ CARLSON SECONDED FOR APPROVAL OF REGULAR ITEM NUMBER 4D, AL-22-014 FOR AN APPROVAL OF A SPECIAL USE, UTILIZING ATTACHED RESOLUTION, WITH AN ADDITIONAL CONDITION WILL MAKE IT THREE (3) CONDITIONS AND THREE (3) NOTATIONS AND THAT THIS ITEM BE FORWARDED TO THE BOARD OF COUNTY COMMISSIONERS FOR THEIR CONSIDERATION. THE MOTION WAS APPROVED (8-0)

**SPECIAL DISTRICT POLICIES AND MODEL SERVICE PLANS
PROCEDURES AMENDMENT**

A request by the El Paso County Planning and Community Development Department to amend the Special District Policies and Model Service Plans, as referred to in Chapter 9 of the El Paso County Land Development Code (2022). The proposed revisions, in their entirety, are on file with the El Paso County Planning and Community Development Department.

Type of Hearing: Legislative

Ms. Parsons – No vote – This is a courtesy to let you know what the proposed changes are because you do make recommendations for special districts. In an overall summary to tell you why we did this is that these policies were adopted in 2007 prior to the land development code prior to the adoption of the water master plan prior to the adoption of the El Paso County master plan there was language riddled throughout that reference the old small area plan and the old countywide policy plan which does not exist anymore. It had to be cleaned up so it met our current criteria's and plans. We are seeing a trend for special districts to build, design, construct the infrastructure. Keep that burden of ownership and maintenance on themselves. The operational costs for districts are being raised as more district's purpose unique developments that may have private roads. The county is not owning and maintaining them. It costs more money to operate those districts. Working with the industry we purposed a small increase to allow them to have an additional 5 mils yet over all of 65 mil cap is still recommended to be the maximum.

That is the bulk of improvements. The Gallagher adjustment was taken out of state statute as a reflection

We have stricken that language throughout the policy and model service plans as indicated in this proposal. This is the policy for the board to adopt

Mr. Trowebridge recommending addition of an overall of 5 mil 65 is still the upper limit you are proposing. not the 70.

Ms. Parsons – Yes it does state that in the report. Overall maximum is still 65.

Mr. Trowebridge has this been discussed with the BoCC. Are they aware this is coming?

Mr. Mastin yes, they are aware.

Mr. Risley are there any other comments? Just to be aware this was included as a regular item. We do have an information section only on the agenda was it an oversight

Ms. Parsons we have not taken policies to the Planning Commission. It was kind of a grey area. We do not take procedures to you we usually go direct to the BoCC. It was just to make you aware.

Mr. Risley we do not need to open to public testimony.

Mr. Bailey the grey area knowing we do not have to go through the process. Thank you for the courtesy Lets use the Non action item area moving forward.

Mr. Risley the master plan will be heard on November the 3rd which tells me we have a meeting that day.

Are there any other items?

Mr. Mastin Flying Horse North will have a lot of citizen input.

Ms. Brittan- Jack I have a 9:00 appointment, is it appropriate to come later?

Mr. Kilgore currently we have 5 items that day

Mr. Risley adjourned the meeting.
