Subject: Public Improvements Within the Public Streets Rights of Ways of:

Table Rock Homesteads
El Paso County, Colorado
Entech Job No. 251877

Dear Mr. Maxwell:

Representatives of Entech Engineering, Inc. (Entech) periodically visited the site and performed field density testing during the public improvement construction processes. Testing was performed in general compliance with the frequency indicated in the El Paso County Engineering Criteria Manual. Results of field density tests have previously been provided. Field density tests were taken by Entech personnel from February 23, 2026 to May 4, 2026. Results generally indicate densities which meet those specified in the El Paso County Engineering Criteria Manual.

Representatives of Entech also periodically observed the sub-grade soil types and aggregate surfacing material placed for the street improvements. These materials appeared to be in general compliance with the specifications presented in the El Paso County Engineering Criteria Manual.

We trust this has provided you with the information you require. If you have any questions or need additional information, please do not hesitate to contact us.

Respectfully Submitted,

ENTECH ENGINEERING, INC.
