PUD MODIFICATIONS

The Waterside PUD includes the following modifications to the El Paso County Land Development Code (LDC) and Engineering Criteria Manual (ECM):

LDC/ECM Section	Category	Standard	Modification	Justification
1. LDC Chapter 8.4.4(E)(2)	Private Roads Require Waiver	Use of private roads shall be limited.	Private roads proposed to serve only portions of this community.	Private roads provide more flexibility for the development to accommodate the unique community proposed on the site. The private roads will be owned and maintained by the HOA.
2. LDC Chapter 8.4.4(E)(3)	Private Roads to meet County standards.	Private roads shall be constructed and maintained to ECM standards.	Read width and roadway terminations (see 3 and 4 below)	Read width and roadway terminations (see 3 and 4 below)
3. ECM Section 2.2.4.B.7, Figure 2-17, ECM Table 2-7, and ECM 2.3.3.F.3 and standard detail SD_2-2	Typical Urban Local and Typical Urban Local (Low Volume) Cross Section	• 50' public right of way with 30' asphalt mat (Local and Local Low Volume). • Urban Local roadway width with standard drawing (SP_2-2 (30' MAT)) • 200' minimum length of centerline tangent between broken back curves.	29' private tract with 24' asphalt mat (Local and Local Low Volume) with reduced tangent length between broken back curves.	A smaller private road cross-section tract versus ROW, narrower asphalt width (Urban Local (low volume)) asphalt width, compact road design, and the use of a turnaround will achieve the goal of providing both residents and emergency responder's access. ECM standard does not take into account reduction in speed due to the T-intersections associated with these very small turnarounds in place. A standard cul-de-sac width is almost as wide as the parcels in the location. Reduced tangent lengths between broken back curves are located on a small private looped roadway with only 16 lots utilizing the roadway.
4. ECM Section 2.3.8.A	Roadway Terminations	Urban Cul-de-Sac -Permanent hammerhead turnarounds not permitted	Permanent turnaround proposed on Hillington Heights using a 24' wide asphalt mat.
