

WATERSIDE AT LAKE WOODMOOR

SW 1/4 OF THE SE 1/4 OF SECTION 11 TOWNSHIP 11 SOUTH, RANGE 67 WEST, 6TH PRINCIPAL MERIDIAN EL PASO COUNTY, COLORADO PUD DEVELOPMENT PLAN/PRELIMINARY PLAN

GENERAL PROVISIONS:

- A. **Authority.** This PUD is authorized by Chapter 4 of the El Paso County Land Development Code, adopted pursuant to the Colorado Planned Unit Development Act of 1972, as amended.
- B. **Applicability.** The provisions of this PUD shall run with the land. The landowners, their successors, heirs, or assigns shall be bound by this Development Plan, as amended and approved by the Planning and Community Development Department Director or Board of County Commissioners.
- C. **Adoption.** The adoption of this development plan shall evidence the findings and decisions of the El Paso County Board of County Commissioners that this Development Plan for Waterside at Lake Woodmoor is in general conformity with the El Paso County Master Plan, El Paso County Policy Plan and applicable Small Area Plan; is authorized under the provision of the El Paso County Land Development Code; and that the El Paso County Land Development Code and this development plan complies with the Colorado Planned Unit Development Act of 1972, as amended.
- D. **Relationship to County Regulations.** The provisions of this Development Plan shall prevail and govern the development of Waterside at Lake Woodmoor, provided, however, that where the provisions of this Development Plan do not address a particular subject, the relevant provisions of the El Paso County Land Development Code in effect at the time of the PUD plan approval (or owner acknowledge the PUD changes with the Code), or any other applicable resolutions or regulations of El Paso County, shall be applicable.
- E. **Enforcement.** To further the mutual interest of the residents, occupants, and owners of the PUD and of the public in the preservation of the integrity of this development plan, the provisions of this plan relating to the use of land and the location of common open space shall run in favor of El Paso County and shall be enforceable at law or in equity by the County without limitation on any power or regulation otherwise granted by law.
- F. **Conflict.** Where there is more than one provision within the development plan that covers the same subject matter, the provision which is most restrictive or imposes higher standards or requirements shall govern.
- G. **Maximum Level of Development.** The total number of dwellings is the maximum development requested for platting or construction (plus any approved density transfers). The actual number of dwellings or level of development may be less due to subdivision or Site Development Plan requirements, land carrying capacity, or other requirements of the Board of County Commissioners.
- H. **Project Tracking.** At the time of any final plat application, the applicant shall provide a summary of the development, to date, to Planning and Community Development Department, in order to assure maximum development limits are not exceeded.
- I. **Overall Project Standards.** The standard zoning requirements of El Paso County Land Development Code, as amended, including off-street parking, landscaping, site development, accessory and temporary uses, and use by special review and variance processes shall apply to this PUD, except as modified below.

PURPOSE AND INTENT:

The necessity for this development to be zoned as a PUD instead of a straight zone lies in the challenges associated with natural features and ecologies on the site. The deviations outlined in the PUD Modification Table seek to create a more favorable development for both the residents and the natural areas present on the site. This development meaningfully contributes to the existing housing spectrum in the area and seeks to provide another housing option at a different price point and maintenance level from those in the vicinity. This development aligns with multiple Core Principles and subsequent Goals outlined in the El Paso County Master Plan. These items are discussed in depth in the Letter of Intent associated with this submittal.

DEVELOPMENT GUIDELINES:

- A. **Project Description:** Waterside at Lake Woodmoor is a planned residential community on 7.53 acres of land located north of Lake Woodmoor and south of Deer Creek Road. The project is planned as a townhome community.
- B. **Permitted Uses:** Permitted uses within the Waterside at Lake Woodmoor subdivision include townhomes, attached single-family homes, open space, and trails. The uses of any property within the subdivision as a Child Care Center, Family Care Home or Group Home shall be subject to the regulations of Chapter 5 of the El Paso County Land Development Code, as may be amended in the future. Marijuana Clubs and Marijuana Grow Facilities are not permitted within this subdivision.
- C. **Temporary Uses:** Temporary uses are limited to model home/subdivision sales office, yard sales, and seasonal produce sales, and are subject to the regulations of Chapter 5 of the El Paso County Land Development Code, as may be amended in the future.
- D. **Accessory Uses:** Accessory uses within this subdivision are limited to the following:
- Animal keeping of up to 4 pets (excludes chicken, pigeon or bee keeping) as defined by the El Paso County LDC 5.2.7.C. Residential home occupation that does not require clients to visit the premises.
- E. **Accessory Structures.** Accessory structures must comply with the Development Standards in item (G) of these guidelines, and shall be subject to the regulations relating to accessory structures in Chapter 5 of the El Paso County Land Development Code. Residential accessory structures in this subdivision are restricted to the following:

- Storage shed
- Gazebo
- Deck (attached or detached, covered or uncovered)
- Hot tub
- Private greenhouse
- Fence, wall and hedged
- Antennas, radio facilities, and satellite dishes
- Solar energy systems

F. **Signs.** One entry sign is proposed to identify the Waterside at Lake Woodmoor community. The maximum size of the Community Entry Sign shall be 100 square feet. Sign size shall be measured by drawing the smallest rectangle around the text of the sign. For double sided signs, only one sign face shall contribute to the maximum size.

- G. **Development Standards.**
1. Maximum building height: thirty (30) feet.
 2. Setback minimums:
 - a. Front: 6 feet minimum
3 feet minimum to covered porch
 - b. Side: 7 feet minimum
3 feet minimum to covered porch
(Exception: 0' at property line of common wall for building and covered porch)
 - c. Rear: 15 feet minimum
5 feet minimum to covered porch
 3. No projections into setbacks or the tracts owned and maintained by the Waterside at Lake Woodmoor will be permitted.
 4. Retaining walls greater than 7 feet are not permitted within lot setbacks.

H. **Lot Sizes.** The PUD Development Plan and the Final Plat establish the lot sizes. No subdivision of any lot will be permitted if such subdivision results in the creation of additional building lots.

I. **Streets.** Streets within Waterside at Lake Woodmoor subdivision provide general vehicular circulation throughout the development. All streets shall be privately owned and maintained by the Waterside at Lake Woodmoor Home Owner's Association. All Streets shall be paved unless otherwise indicated on the Development Plan. Sidewalks and parking spaces will be provided as illustrated on this plan.

J. **Architectural Control Committee Review/Covenants.** Waterside at Lake Woodmoor is subject to the covenants and design criteria established by the Woodmoor Improvement Association and Architectural Control Committee.

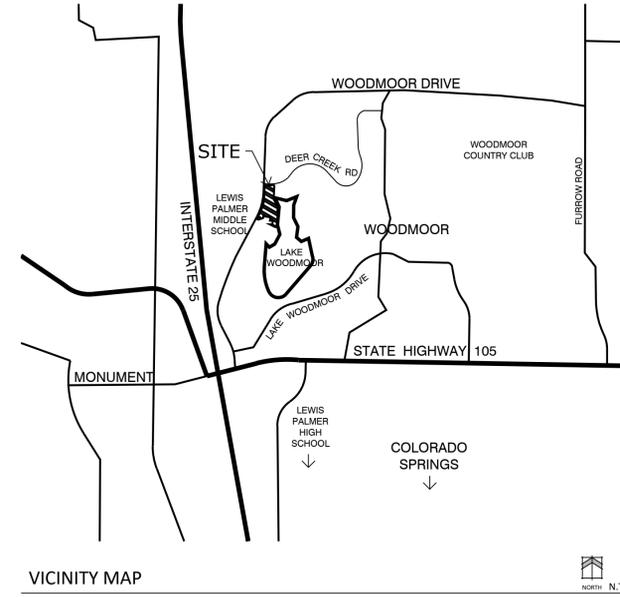

LEGAL DESCRIPTION

ALL OF THE WATERSIDE CONDOMINIUMS SUBDIVISION, RECORDED IN PLAT BOOK 2, AT PAGE 47 RECORDS OF EL PASO COUNTY, COLORADO.

PUD MODIFICATIONS

The Waterside PUD includes the following modifications to the El Paso County Land Development Code (LDC) and Engineering Criterial Manual (ECM):

LDC/ECM Section	Category	Standard	Modification	Justification
1. LDC Chapter 8.4.4(E)(2)	Private Roads Require Waiver	Use of private roads shall be limited.	Private roads proposed to serve only portions of this community.	Private roads provide more flexibility for the development to accommodate the unique community proposed on the site. The private roads will be owned and maintained by the HOA.
2. LDC Chapter 8.4.4(E)(3)	Private Roads to meet County standards.	Private roads shall be constructed and maintained to ECM standards.	Road width and roadway terminations (see 3 an 4 below)	
3. ECM Section 2.2.4.B.7, Figure 2-17, ECM Table 2-7, and ECM 2.3.8.F.3 and standard detail SD_2.2	Typical Urban Local and Typical Urban Local (Low Volume) Cross Section	<ul style="list-style-type: none"> • 50' public right of way with 30' asphalt mat (Local and Local Low Volume). • Urban Local roadway asphalt width standard drawing (SP_2-2 (30' MAT)) • 200' minimum length of centerline tangent between broken back corners. 	20' private tract with 24' asphalt mat (Local and Local Low Volume) with reduced tangent length between broken back curves.	A smaller private road cross-section tract versus ROW, narrower asphalt width (Urban Local (low volume)) asphalt width, compact road design, and the use of a turnaround will achieve the goal of providing both residents and emergency responder's access. ECM standard does not take into account reduction in speed due to the T-intersections associated with these very small turn-around areas. A standard cul-de-sac width is almost as wide as the parcel is in the location. Reduced tangent lengths between broken back curves are located on a small private looped roadway with only 16 lots utilizing the roadway.
4. ECM Section 2.3.8.A	Roadway Terminations	Urban Cul-de-Sac -Permanent hammerhead turnarounds not permitted	Permanent turnaround proposed on Hillingdon Heights using a 24' wide asphalt mat.

PUD MODIFICATIONS

The Waterside PUD includes the following modifications to the El Paso County Land Development Code (LDC) and Engineering Criterial Manual (ECM):

LDC/ECM Section	Category	Standard	Modification	Justification
1. LDC Chapter 8.4.4(E)(2)	Private Roads Require Waiver	Use of private roads shall be limited.	Private roads proposed to serve only portions of this community.	Private roads provide more flexibility for the development to accommodate the unique community proposed on the site. The private roads will be owned and maintained by the HOA.
2. LDC Chapter 8.4.4(E)(3)	Private Roads to meet County standards.	Private roads shall be constructed and maintained to ECM standards.	Road width and roadway terminations (see 3 an 4 below)	
3. ECM Section 2.2.4.B.7, Figure 2-17, ECM Table 2-7, and ECM 2.3.3.F.3 and standard detail SD_2-2	Typical Urban Local and Typical Urban Local (Low Volume) Cross Section	<ul style="list-style-type: none"> 50' public right of way with 30' asphalt mat (Local and Local Low Volume). Urban Local roadway asphalt width standard drawing (SP_2-2 (30' MAT)) 200' minimum length of centerline tangent between broken back corners. 	20' private tract with 24' asphalt mat (Local and Local Low Volume) with reduced tangent length between broken back curves.	A smaller private road cross-section tract versus ROW, narrower asphalt width (Urban Local (low volume)) asphalt width, compact road design, and the use of a turnaround will achieve the goal of providing both residents and emergency responder's access. ECM standard does not take into account reduction in speed due to the T-intersections associated with these very small turn-around areas. A standard cul-de-sac width is almost as wide as the parcel in the location. Reduced tangent lengths between broken back curves are located on a small private looped roadway with only 16 lots utilizing the roadway.
4. ECM Section 2.3.8.A	Roadway Terminations	Urban Cul-de-Sac -Permanent hammerhead turnarounds not permitted	Permanent turnaround proposed on Hillingdon Heights using a 24' wide asphalt mat.
