7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

The Policy contains an arbitration clause. All arbitrable matters when the Proposed Policy Amount is \$2,000,000 or less shall be arbitrated at the option of either the Company or the Proposed Insured as the exclusive remedy of the parties. Hi Alex,

Looking through our records, we do not show any additional severed mineral rights for these parcels. I believe that the title commitment lists everything of record. If you have any questions, let me know. Have a great day!

Best,

Stephanie Griffin

Good morning, Stephanie.

I am hoping that you can help provide some clarity on a few additional parcels within Unincorporated El Paso County (formerly in the Town of Palmer Lake). The Parcel IDs are: 7105424044, 7104200012, and 7104237002. The attached Title Commitment appears to cover the first 2, but I do not seem to have a title on file for the last ID provided. I do not believe that the attached title points to any mineral rights, but it would be great to get any confirmation on all 3 of these parcels. Again, any information that you can provide would be much appreciated.

Thank you,
Alex

Hello Alex,

We do not have any severed mineral rights associated with your specific properties on record. Occasionally, there are severed coal rights that belong to the State of Colorado which, historically, were never separated from the land. According to the attached Schedule B for 7103000028, there was a reservation by the State of Colorado on July 13, 1878 by book 25 page 247. Without looking at this document, more than likely, the State of Colorado reserved the coal rights. The State of Colorado would still be the owner. This means that the State has all rights to access and mine them. However, the State of Colorado is traditionally not in the mining business therefore, you should not be too concerned with future mining activities. As for the other Schedule B's, they merely mention a severance. They do not specifically include when or how. The mineral severance for the other properties may be related to the Land Patent, or they could be independent severances. Unfortunately, without having the document that created the mineral estate(s), I cannot tell you who the owner might be. If you have further questions regarding mineral rights, please let me know.

Sincerely,

Stephanie Griffin

Alex,

Good morning and thank you for your below email.

I am including our County Assessor, Mark Flutcher, and Deputy Assessor, Matthew Arvidson on this reply. Both Mark and Matthew can research their property records for the below four parcels and share if there are any associated mineral rights. Either should be responding at their earliest convenience this morning.

Please let me know if I can be of further assistance.

Thank you, Steve

Hi Steve,

I am currently working on the rezoning of 4 parcels (7104000001, 7104000002, 7104001010, 7103000028) within Unincorporated El Paso County, and I am hoping you can help me better understand the mineral rights associated with the parcels, if there are infact any.

I have attached the title commitments for the subject areas, and I see in Schedule B that there is mentioning of a mineral severance. My question is if you have any records on the matter that point to who these rights are to and if they are still valid.

Any information you can share to help me better understand the topic is greatly appreciated.

Thank you,
Alex
