

MASTER PLAN (SKETCH PLAN) X₁

METAL: Any of a category of electropositive elements that are usually whitish, lustrous, and, in the transition metals, typically ductile and malleable with high tensile strength; also, an alloy of two or more metallic elements.

METAL PROCESSING PLANTS: Facilities for the manufacture or reduction of metals.

MINERAL: Any naturally occurring, homogeneous inorganic substance having a definite chemical composition and characteristic crystalline structure, color, and hardness.

MINERAL DEPOSIT, Commercial: X₂
MINERAL AND NATURAL RESOURCE EXTRACTION: The physical withdrawal of minerals and natural resources.

MINERAL PROCESSING PLANTS: Facilities for the manufacture or reduction of minerals.

MOBILE HOME: A dwelling unit, factory built and factory assembled, designed for conveyance, after fabrication on streets and highways on its own wheels or on flatbed or other trailers, and arriving at the site where it is to be occupied as a dwelling unit complete and ready for occupancy, except for minor and incidental unpacking and assembly operations such as locating on jacks or other ~~foundations~~ ^{supports} or connection to utilities.

MOBILE HOME LOT: A parcel of land for the placement of a single family mobile home for the exclusive use of its occupants.

MOBILE HOME PARK: An area designated for the accommodation of mobile homes used as detached single family dwellings and containing facilities for connection of mobile homes to utility systems.

MOBILE HOME STAND: Part of an individual lot which has been reserved for placement of the mobile home, appurtenant structures or additions. The stand should provide an adequate foundation and anchoring facilities to secure the mobile home against any accidental movement.

MOBILE HOME SUBDIVISION: A parcel of land subdivided into lots, each lot individually owned and utilized as the site for placement of a single family mobile home and its facilities.

MOTEL: A building or group of buildings containing guest rooms, which is designed, used or intended to be used wholly or in part for the accommodation of automobile transients. This term shall not include child care center or family care home.

MUSEUM: A building in which works of artistic, historical and scientific value are cared for and exhibited.

NATURAL RESOURCES: Materials and capacities supplied by nature.
