**APPROVED WELL LOCATION**

Water Division: 2      Water District: 10  
Designated Basin:      UPPER BLACK SQUIRREL CREEK  
Management District:      UPPER BLACK SQUIRREL  
County:      EL PASO  
Parcel Name:      N/A  
Physical Address:      N/A  
SE 1/4 SE 1/4 Section 15 Township 12.0 S Range 65.0 W Sixth P.M.

**UTM COORDINATES (Meters, Zone:13, NAD83)**

Easting:      530668.0      Northing:      4317058.0

**PERMIT TO USE AN EXISTING WELL**

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT  
**CONDITIONS OF APPROVAL**

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not ensure that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to Sections 37-90-107(7), CRS, and the Findings and Order of the Colorado Ground Water Commission dated March 4, 2019, for Determination of Water Right No. 3655-BD, and pursuant to Section 37-90-107.5, CRS, and the Findings and Order of the Commission dated May 14, 2020, for approval of a replacement plan. In the event the well is not operated in accordance with the conditions of this determination and replacement plan, it will be subject to administration, including orders to cease diverting ground water.
- 4) Approved for a change of use of an existing well constructed under permit no. 310053-A. Issuance of this permit cancels permit no. 310053-A.
- 5) The use of ground water from this well is limited to domestic use inside 1 single family dwelling, including the watering of domestic animals and the irrigation of 1 acre of lawns and gardens. The place of use shall be limited to the 9.9 acre land area, which is part of the 19.8 acres claimed in the above described Order of the Commission.
- 6) The pumping rate of this well shall not exceed 15 GPM.
- 7) The annual withdrawal of ground water from this well shall not exceed 1 acre-foot, subject to the total annual withdrawal limitations and conditions as specified by the above referenced Order of the Commission.
- 8) Production is limited to the Dawson aquifer.
- 9) A totalizing flow meter or Commission approved measuring device must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (collected at least annually) and submitted to the Upper Black Squirrel Creek Ground Water Management District and the Ground Water Commission upon request.
- 10) The owner shall mark the well in a conspicuous location with the well permit number and name of aquifer as appropriate, and shall take necessary means and precautions to preserve these markings.
- 11) This well shall be located within 200 feet of the location specified on this permit. This well shall not be located within 600 feet of another large-capacity well completed in the Dawson aquifer.
- 12) The return flows from the inhouse supply component of this well use have been claimed as a replacement source, pursuant to the Findings and Order of the Commission dated May 14, 2020. As a result, the return flow from the use of this well must be through an individual waste water disposal system of the non-evaporative type where the water is returned to the same stream system in which the well is located.

**WELL PERMIT NUMBER 84459-F**

**RECEIPT NUMBER 10003716**

NOTE: This well is located within the Upper Black Squirrel Creek Ground Water Management District where local District Rules apply which may further limit the withdrawal and use of designated ground water as authorized under this permit. The District requires records of all diversions be maintained and collected monthly.

**PERMIT TO CONSTRUCT A NEW WELL**

**ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT  
CONDITIONS OF APPROVAL**

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not ensure that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to Sections 37-90-107(7), CRS, and the Findings and Order of the Colorado Ground Water Commission dated March 4, 2019, for Determination of Water Right No. 3655-BD, and pursuant to Section 37-90-107.5, CRS, and the Findings and Order of the Commission dated May 14, 2020, for approval of a replacement plan. In the event the well is not operated in accordance with the conditions of this determination and replacement plan, it will be subject to administration, including orders to cease diverting ground water.
- 4) The use of ground water from this well is limited to domestic use inside 1 single family dwelling, including the watering of domestic animals and the irrigation of 1 acre of lawns and gardens. The place of use shall be limited to the 9.9 acre land area, which is part of the 19.8 acres claimed in the above described Order of the Commission.
- 5) The pumping rate of this well shall not exceed 15 GPM.
- 6) The annual withdrawal of ground water from this well shall not exceed 1 acre-foot, subject to the total annual withdrawal limitations and conditions as specified by the above referenced Order of the Commission.
- 7) This well must be constructed to withdraw water only from the Dawson aquifer. The total depth of the well shall not exceed 785 feet, which corresponds to the base of the aquifer. At a minimum, plain casing shall be installed and grouted through all unconsolidated materials and shall extend a minimum of ten feet into the bedrock formation to prevent production from other zones.
- 8) A totalizing flow meter or Commission approved measuring device must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (collected at least annually) and submitted to the Upper Black Squirrel Creek Ground Water Management District and the Ground Water Commission upon request.
- 9) The owner shall mark the well in a conspicuous location with the well permit number and name of aquifer as appropriate, and shall take necessary means and precautions to preserve these markings.
- 10) This well shall be constructed within 200 feet of the location specified on this permit. This well shall not be located within 600 feet of another large-capacity well completed in the Dawson aquifer.
- 11) The entire length of the hole shall be geophysically logged as required by Rule 9 of the Statewide Nontributary Ground Water Rules prior to installing casing.
- 12) The return flows from the in house supply component of this well use have been claimed as a replacement source, pursuant to the Findings and Order of the Commission dated May 14, 2020. As a result, the return flow from the use of this well must be through an individual waste water disposal system of the non-evaporative type where the water is returned to the same stream system in which the well is located.

**WELL PERMIT NUMBER 84460-F**

**RECEIPT NUMBER 10003717**

NOTE: At the proposed well location, the Dawson aquifer is located at or near the ground surface and extends to a depth of approximately 785 feet. Wells completed in the Dawson aquifer must be constructed in accordance with Well Construction Rule 10.4.6 (2 CCR 402-2) for a Type II aquifer.

NOTE: The ability of this well to withdraw its authorized amount of water from this non-renewable aquifer may be less than the 100 years upon which the amount of water in the aquifer is allocated, due to anticipated water level declines.

NOTE: This well is located within the Upper Black Squirrel Creek Ground Water Management District where local District Rules apply which may further limit the withdrawal and use of designated ground water as authorized under this permit. The District requires records of all diversions be maintained and collected monthly.

NOTE: This permit will expire on the expiration date unless the well is constructed by that date. A Well Construction and Yield Estimate Report (GWS-31) must be submitted to the Division of Water Resources to verify the well has been constructed. A one-time extension of the expiration date may be available. Contact the DWR for additional information or refer to the extension request form (GWS-64) available at: <http://www.water.state.co.us>

NOTE: Permit no. 83066-F was expired by Order of the Ground Water Commission.
