El Paso County Development Services Department 2880 International Circle, Suite 110 Colorado Springs, CO 80910-3127

RE: Glen at Widefield Filing No. 12 - Final Plat Part SW1/4 of Sec. 22, Twp. 15S, Rng. 65W, 6th P.M. Water Division 2, Water District 10 CDWR Assigned Subdivision No. 30429

To Whom It May Concern:

We have received the submittal concerning the above-referenced proposal to subdivide a 77.82 acre tract of land into 79 single-family lots. According to the submittal, the proposed supply of water and wastewater disposal is to be served by Widefield Water and Sanitation District ("Widefield").

Water Supply Demand

The Water Supply Information Summary, Form No. GWS-76, provided with the submittal references a demand of 27.65 acre-feet/year for the Glen at Widefield Filing No. 12 which is part of the total commitment for Glen at Widefield East. The referral documents estimate a water use rate of 0.35 acre-foot/year/residential lot.

Source of Water Supply

The source of water for the proposed development is to be served by the Widefield Water and Sanitation District, and a February 22, 2022 letter of commitment from Widefield was provided with the submittal confirming 27.65 acre-feet have been committed to The Glen at Widefield Filing No. 12.

Additional Comments

Should the development include construction and/or modification of any storm water structure(s), the Applicant should be aware that, unless the storm water structure(s) can meet the requirements of a "storm water detention and infiltration facility" as defined in section 37-92-602(8), Colorado Revised Statutes, the structure may be subject to administration by this office. The applicant should review DWR's Administrative Statement Regarding the Management of Storm Water Detention Facilities and Post-Wildland Fire Facilities in Colorado, available online at: http://water.state.co.us/DWRIPub/Documents/DWR%20Storm%20Water%20Statement.pdf, to ensure that the notice, construction and operation of the proposed structure meets statutory and administrative requirements.

State Engineer's Office Opinion

According to this office's records, it appears Widefield has sufficient water resources to serve the proposed development. Based upon the above and pursuant to Section 30-28-136(1)(h)(II), C.R.S., it is the opinion of this office that the proposed water supply is adequate and can be provided without causing injury to decreed water rights. Should you have any further questions, please feel free to contact me directly.

Sincerely,

Ivan Franco, P.E.

Water Resource Engineer

cc: Bill Tyner, Division 2 Engineer

Doug Hollister, District 10 Water Commissioner
