

All disturbed areas around new building not covered with recycled concrete to be covered with erosion control blankets and reseeded - per recommendations from the El Paso County Conservation District

Proposed grading plan around new bldg.

Person Dr

Clear drive path around new Ag bldg. Proposed recycled concrete to limit soil erosion immediately around building.

New Ag Bldg.

Downspouts to converge and release into bed of rip-rap. Passing through rip-rap - water will flow naturally down hill to pond on property.

Bed of rip-rap

Arrows depict general grade of the lot

Existing pond on property - expected to hold all excess water shed off of new building. No impact expected to neighboring lots.

Existing drainage - too overflow pond

large - existing overflow pond
