Please accept the following comments from El Paso County Public Health regarding the project referenced above:

- A record of an approved, permitted on-site wastewater treatment system (OWTS) for this property indicates the OWTS was installed and approved for a 4-bedroom residence in 1976 and is located off the south end of the residence. The OWTS component locations are on file at El Paso County Public Health and accessible through the El Paso County Assessor's Office website property search page. Please make sure the components of the OWTS are protected from vehicular traffic and other means of compaction.
- El Paso County Public Health recommends storing animal food in impervious containers with lids to minimize rodents and insects.
- Animal waste should be managed properly to help control odors and minimize flies and other insects.
