OWNER, APPLICANT, AND ENGINEER DECLARATION

To the best of my knowledge, the information on this application and all additional or supplemental documentation is true, factual and complete. I am fully aware that any misrepresentation of any information on this application may be grounds for denial. I have familiarized myself with the rules, regulations and procedures with respect to preparing and filing this application. I also understand that an incorrect submittal will be cause to have the project removed from the agenda of the Planning Commission, Board of County Commissioners and/or Board of Adjustment or delay review until corrections are made, and that any approval of this application is based on the representations made in the application and may be revoked on any breach of representation or condition(s) of approval.

DEVIATION REQUEST (Attach diagrams, figures, and other documentation to clarify request)

A deviation from the standards of or in Section **2.3.2 Design Standards by Functional Classification, Table 2-6** of the Engineering Criteria Manual (ECM) is requested.

Identify the specific ECM standard which a deviation is requested:

Construct the portion of Rex Road to be located between Pyramid Peak Drive and Sunrise Ridge Drive as a Residential Urban Collector in lieu of the Urban Minor Arterial as identified in the current 2040 Major Transportation Corridor Plan.

State the reason for the requested deviation:

The portion of Rex Road between Pyramid Peak Drive and Sunrise Ridge Drive is flanked by two final plat anticipating a 60 foot right of way equal to that already platted west of Pyramid Peak Drive with Estates at Meridian Ranch Filing 2.

The roadway section west of Pyramid Peak Drive was constructed as a Residential Collector.

Explain the proposed alternative and compare to the ECM standards (May provide applicable regional or national standards used as basis):

The proposed alternative matches the existing Rex Road roadway section west of Pyramid Peak Drive that is being extended with this project.

The proposed roadway section is an El Paso County standard section for Residential Collector roads.

The daily traffic volume per the Traffic Impact Statement prepared by LSC Traffic Consultants, LLC is estimated to be 7,470 which is below the threshold of 10,000 for Residential Collectors.

LIMITS OF CONSIDERATION

(At least one of the conditions listed below must be met for this deviation request to be considered.)

- The ECM standard is inapplicable to the particular situation.
- Topography, right-of-way, or other geographical conditions or impediments impose an undue hardship and an equivalent alternative that can accomplish the same design objective is available and does not compromise public safety or accessibility.
- A change to a standard is required to address a specific design or construction problem, and if not modified, the standard will impose an undue hardship on the applicant with little or no material benefit to the public.

Provide justification:

The previously recorded final plats for Estates at Meridian Ranch Filing 2 and Meridian Ranch Filing 9 create a corridor of only 60' wide. The provides sufficient room for the Residential Collector. Any other alternative would require the acquisition of property for public and private entities in order to secure sufficient land to construct the Urban Minor Arterial.

CRITERIA FOR APPROVAL

Per ECM section 5.8.7 the request for a deviation may be considered if the request is **not based exclusively on financial considerations**. The deviation must not be detrimental to public safety or surrounding property. The applicant must include supporting information demonstrating compliance with **all of the following criteria**:

The deviation will achieve the intended result with a comparable or superior design and quality of improvement.

The deviation will provides a comparable design in that the estimated ADTs for this section fall 25% below the threshold for a roadway section higher than the Residential Collector.

The deviation will not adversely affect safety or operations.

The Engineering Criteria Manual identifies 10,000 ADTs as the maximum volume of traffic that can be safely conveyed using the Residential Collector Street section. The projected traffic is sufficiently below that value as to not pose a safety hazard.

The deviation will not adversely affect maintenance and its associated cost.

The proposed deviation will not adversely impact maintenance for this street section in that it will not receive traffic higher than normal for this type of roadway classification

The deviation will not adversely affect aesthetic appearance.

The deviation will not adversely affect the aesthetics of the area as it will match an already established street section.

The deviation meets the design intent and purpose of the ECM standards.

The anticipated traffic volume and type match the characteristics expected for a Residential Collector as identified in the ECM.

The deviation meets the control measure requirements of Part I.E.3 and Part I.E.4 of the County's MS4 permit, as applicable.

The proposed deviation is not different than any other proposed roadway within El Paso County matching all other requirements for similarly classified roads and meets all requirements associated with the MS4 permit.

REVIEW AND RECOMMENDATION:

Approved by the ECM Administrator

This request has been determined to have met the criteria for approval. A deviation from Section _____ of the ECM is hereby granted based on the justification provided.
