EL PASO COUNTY STORMWATER MANAGEMENT PLAN CHECKLIST

EPC Project Number:

	Revised: October 2021	Applicant	EPC
1. <u>S</u>	ORMWATER MANAGEMENT PLAN (in the "Applicant" column specify the page number for each item)	т т	
1	Applicant (owner/designated operator), SWMP Preparer, Qualified Stormwater Manager, and Contractor Information. (On cover/title sheet)		Y
2	Table of Contents		Υ
3	Site description and location to include: vicinity map with nearest street/crossroads description		Υ
4	Narrative description of construction activities proposed (e.g., may include clearing and grubbing, temporary stabilization, road grading, utility / storm installation, final grading, final stabilization, and removal of temporary control measures)		Y
5	Phasing plan – may require separate drawings indicating initial, interim, and final site phases for larger projects. Provide "living maps" that can be revised in the field as conditions dictate		Y
6	Proposed sequence for major activities: Provide a construction schedule of anticipated starting and completion dates for each stage of land-disturbing activity depicting conservation measures anticipated, including the expected date on which the final stabilization will be completed		Y
7	Estimates of the total site area and area to undergo disturbance; current area of disturbance must be updated on the SWMP as changes occur		Y
8	Soil erosion potential and impacts on discharge that includes a summary of the data used to determine soil erosion potential		Υ
9	A description of existing vegetation at the site and percent ground cover and method used to determine ground cover		Y
	Location and description of all potential pollution sources including but not limited to: disturbed and stored soils; vehicle tracking; management of contaminated soils; loading and unloading operations; outdoor storage of materials; vehicle and equipment maintenance and fueling; significant dust generating process; routine maintenance activities involving fertilizers, pesticides, herbicides, detergents, fuels, solvents, oils, etc.; on-site waste management; concrete truck/equipment washing; dedicated asphalt, concrete batch plants and masonry mixing stations; non-industrial waste such as trash and portable toilets		Y
11	Material handling to include spill prevention and response plan and procedures		Υ
12	Spill prevention and pollution controls for dedicated batch plants		Y
13	Other SW pollutant control measures to include waste disposal and off-site soil tracking		Υ
14	Location and description of any anticipated allowable non-stormwater discharge (ground water, springs, irrigation, discharge covered by CDPHE Low Risk Guidance, etc.)		Y
15	Name(s) of ultimate receiving waters; size, type and location of stormwater outfall or storm sewer system discharge		Y
16	Description of all stream crossings located within the project area or statement that no streams cross the project area		Y

3275 Akers Drive Colorado Springs, CO 80922 Phone 719-520-6460 Fax 719-520-6879 www.elpasoco.com

EL PASO COUNTY STORMWATER MANAGEMENT PLAN CHECKLIST

EPC Project Number:

17b flow arrows to depict stormwater flow directions Y 17c all areas of disturbance Y 17d areas of cut and fill Y 17e areas used for storage of building materials, soils (stockpiles) or wastes Y 17f location of any dedicated asphalt / concrete batch plants Y 17g location of all structural control measures Y		Revised: October 2021	Applicant	EPC			
17b flow arrows to depict stormwater flow directions Y 17c all areas of disturbance Y 17c all areas of disturbance Y 17d areas of cut and fill Y 17e areas of cut and fill Y 17e areas used for storage of building materials, soils (stockpiles) or wastes Y 17f location of any dedicated asphalt / concrete batch plants Y 17g location of all structural control measures Y 17f location of all non-structural control measures Y 17n location of all structural control measures Y 17a Narrative description of all structural control measures to be used. Modifications to EPC standard control measures must meet or exceed County-approved details Y 18 Narrative description of all structural control measures to be used including seeding, mulching, protection of existing vegetation, site watering, sod placement, etc. Y 19 Description of Final Stabilization and Long-term Stormwater Quality (describe nonstructural and structural measures to control SWMP is to be revised Y 20 Technical drawing details used must meet or exceed EPC standards Y 21 Procedure describing how the SWMP is to be 70% of pre-disturbed lev	17	SWMP Map to include:					
17c all areas of disturbance Y 17d areas of cut and fill Y 17d areas of cut and fill Y 17e areas used for storage of building materials, soils (stockpiles) or wastes Y 17e location of any dedicated asphalt / concrete batch plants Y 17f location of all structural control measures Y 17g location of all non-structural control measures Y 17h location of all non-structural control measures Y 17i springs, streams, wetlands and other surface waters, including areas that require maintenance of pre-existing vegetation within 50 feet of a receiving water Y 18 Narrative description of all structural control measures to be used. Modifications to EPC standard control measures must meet or exceed County-approved details Y 19 Description of all non-structural control measure installation and maintenance; custom or other jurisdicton's details used must meet or exceed EPC standards Y 21 Procedure describing how the SWMP is to be revised Y 22 Eveription of Final Stabilization and Long-term Stormwater Quality (describe nonstructural and structural measures to control SW pollutants after construction operations have been completed, including detention, water quality control measure etc.) Y	17a	construction site boundaries		Υ			
17d areas of cut and fill Y 17e areas used for storage of building materials, soils (stockpiles) or wastes Y 17f location of any dedicated asphalt / concrete batch plants Y 17g location of all structural control measures Y 17h location of all non-structural control measures Y 17i springs, streams, wetlands and other surface waters, including areas that require maintenance of pre-existing vegetation within 50 feet of a receiving water Y 18 Narrative description of all structural control measures to be used. Modifications to EPC standard control measures must meet or exceed Courty-approved details Y 19 Description of all non-structural control measure installation and maintenance; custom or other jurisdiction's details or all control measure installation and maintenance; custom or other jurisdiction's details or all control measure installation and maintenance; custom or other iurisdiction's details used must meet or exceed EPC standards Y 20 Technical drawing details for all control measure etc.) Y 21 Procedure describing how the SWMP is to be revised Y 22 Specification that final vegetative cover density is to be 70% of pre-disturbed levels Y 23 Specification that final vegetative cover density is to be 70% of pre-disturbed levels Y	17b	flow arrows to depict stormwater flow directions		Υ			
17e areas used for storage of building materials, soils (stockpiles) or wastes Y 17f location of any dedicated asphalt / concrete batch plants Y 17g location of all structural control measures Y 17h location of all non-structural control measures Y 17i springs, streams, wetlands and other surface waters, including areas that require maintenance of pre-existing vegetation within 50 feet of a receiving water Y 17i springs, streams, wetlands and other surface waters, including areas that require maintenance of pre-existing vegetation, stim accurate countrol measures to be used. Modifications to EPC standard control measures must meet or exceed County-approved details Y 18 Narrative description of all non-structural control measures to be used including seeding, mulching, protection of existing vegetation, site watering, sod placement, etc. Y 20 Technical drawing details for all control measure installation and maintenance; custom or other jurisdiction's details used must meet or exceed EPC standards Y 21 Procedure describing how the SWMP is to be revised Y 22 Description of Final Stabilization and Long-term Stormwater Quality (describe nonstructural and structural measures to control SW pollutants after construction operations have been completed, including detention, water quality control measure etc.) Y 23 Specification that final vegetati	17c	all areas of disturbance		Υ
