Zone Change Application Requirements

REVIEW CRITERIA: A proposal for the establishment or change of zone district boundaries may be approved by the City Council only if the following findings are made:

1. The action will not be detrimental to the public interest, health, safety, convenience or general welfare.
2. The proposal is consistent with the goals and policies of the Comprehensive Plan.
3. Where a master plan exists, the proposal is consistent with such plan or an approved amendment to such plan. Master plans that have been classified as implemented do not have to be amended to be considered consistent with a zone change request.

GREENWAYS AT SAND CREEK

PROJECT STATEMENT

September 3, 2019

REQUEST:

Classic Consulting Engineers and Surveyors Inc. (CCES) on behalf of Elite Properties of America, Inc. (Classic Homes) requests approval of a Conceptual Planned Unit Development (PUD) for a project to be known as Greenways at Sand Creek (Project or Property), changing the zoning of the Property from Agricultural "A" and "PK" to "PUD" and "PK", as further described in the accompanying Zoning Application, with Development Standards, also provided with this Application.

LOCATION:

The Property contains approximately 194 acres and is located in the City of Colorado Springs. The Property has 2 distinct sections contained within it, with those sections generally located both north (Northern Property) and south (Southern Property) of North Carefree Circle.

The Northern Property generally is located to the east of the City owned Sand Creek Pond 2 and other associated City owned property slated for development into the proposed Coleman Community Park. The western boundary of the Northern Property also lies adjacent to Sand Creek. A portion of the eastern boundary abuts Peterson Road, with the majority of the eastern boundary lying adjacent to existing development of single-family homes, condominiums and townhomes. Additionally, the development known as the Island at Springs Ranch is surrounded by the Property. Please see the attached map of the Northern Property.

SEE EXHIBIT "A"

The Southern Property generally is located east of Tutt Boulevard, south of North Carefree Circle and north of Sand Creek Pond No. 1. Sand Creek bifurcates this Southern Property, with approximately 20.7 acres lying east of Sand Creek and west of Pony Tracks Drive and approximately 92.8 acres lying west of Sand Creek and east of Tutt Boulevard (excluding the proposed 16.5-acre Sand Creek Tract Dedication to the City of Colorado Springs). The PUD zoning application also incorporates approximately 22 acres of currently City owned property along Tutt Boulevard that was originally envisioned as the Tutt Sports Complex. Classic Homes proposes trading this City owned property along Tutt Boulevard in exchange for a slightly larger amount of acreage located within the Northern Property and adjacent to the proposed Coleman Community Park. Please see the attached map of the Southern Property.

SEE EXHIBIT "B"

PROJECT DESCRIPTION

Greenways at Sand Creek proposes a mix of land uses and densities within the PUD area, consisting of (a) traditional and higher density single-family residential dwelling units, townhomes and apartments at proposed densities averaging over 8 dwelling units per net acre, (b) significant trails, open space corridors and active and passive parks totaling in excess of 12 acres and (c) an approximately 1.5 acre commercial

parcel. The primary access for the Northern Property will be off a new proposed RI/RO intersection at North Carefree Circle and the primary accesses for the Southern Property will be off of an extension of South Carefree Circle and a new collector roadway as depicted on the PUD map.

The residential areas are divided into five zoning categories: Residential Medium, Residential Medium with streamside overlay, Residential High, Residential High with streamside overlay, and Residential Very High. It is anticipated that the overall density shall be approximately 850-1000 units, containing approximately 330 apartment units.

One commercial area of approximately 1.5 acres is proposed at the NE corner of the intersection of Tutt Boulevard and the existing access to the golf course clubhouse.

A separate document setting out the specific zoning and development standards for the various zoning categories is included as part of the PUD zoning submittal.

BACKGROUND:

Property Background: The Property was originally developed as a public golf course in 1999 as part of the overall master planning process of Springs Ranch. The original golf course was approximately 210 acres in size and per a resolution dated October 12, 1999 the original developer of Springs Ranch (BRE/Springs Ranch, LLC) was granted park dedication credits at the rate of .314 multiplied by the 210 acres for a total of 66.5 acres of credit, as the City recognized that the public golf course satisfied the requirements and purposes of the City's ordinances concerning park dedications by providing open spaces and recreational opportunities for the residents of the City.

The City, BRE/Springs Ranch, LLC (BRE) and the owner of the golf course, Tom Tauche, Inc. (Tauche), entered into An Agreement Concerning Park Credits For Springs Ranch Golf Course dated October 12, 1999 (Agreement). The Agreement was recorded on October 29, 1999 at Reception No. 099167517 in the records of el Paso County, CO.

The Agreement provides, among other things, that Tauche reserved the right to limit public access to the golf course by converting it to a private club or to otherwise restrict the right of residents to use the golf course. The Agreement further provides that should such an eventuality occur, the City may revoke all park dedication credits arising from the Agreement and the then current owner of the golf course shall become obligated to reimburse the City for all park dedication credits granted pursuant to the Agreement. The then current owner of the golf course may reimburse the City based upon the school-park fee then in effect (but in no event less than the fee in place in 1999) by any combination of cash or dedication of other park land acceptable to the City in the appropriate amount within the Springs Ranch Master Plan. It is important to note that the Agreement contemplated a potential dedication of land elsewhere within the entirety of the Springs Ranch Master Plan; it was not specific to the area encompassing the golf course. This language contradicts certain of the neighbors' assumptions that if the golf course had not been developed that a significant amount of the golf course would have been preserved as park or open space. The Agreement further recognized that between (i) the grant of park dedication credits for the golf course (in an amount not to exceed 66.5 acres), (ii) the proposed approximately 28 acre park along Tutt Boulevard, (iii) the proposed acreage of other parks to be dedicated within the Springs Ranch Master Plan and (iv) the proposed neighborhood park located in the NE sector of the Springs Ranch Master Plan, these

dedications served to fully and completely satisfy all of BRE's requirements for park dedications or fees within the Springs Ranch Master Plan. A full copy of the Agreement is attached hereto as **Exhibit "E"**.

The Agreement was amended on November 30, 2011 and again on March 15, 2015. The First Amendment excluded certain portions of the Property originally subject to the Agreement and added certain property owned by Tauche not originally subject to the Agreement to the burdens of the Agreement. The Second Amendment allowed Tauche to sell approximately 13.8 acres originally subject to the Agreement to a developer, in exchange for payment of a sum of cash and a dedication of additional land owned by Tauche becoming subject to the Agreement.

The Agreement was further modified by and between the City and Tauche on November 28, 2018 (BRE being no longer in existence and not a necessary party to the Amendment) in a document entitled Third Amendment to Agreement Concerning Park Credits For Springs Ranch Golf Course (Third Amendment). The Third Amendment expressly acknowledges that the Agreement permits the termination of the use of the Property as a public golf course if the City is reimbursed for the park credits previously obtained in accordance with the terms and conditions of the Agreement. The Third Amendment clarifies that the Property currently subject to the Agreement totals approximately 171 acres. The Third Amendment acknowledges that the Property may be released by either (1) dedicating land for parks which are acceptable to the City in the amount of 53.7 acres (.314 multiplied by the 171 remaining acres), or (2) by paying the equivalent cash in lieu of land dedication on the 53.7 acres of park dedication based upon the per acre park fee then in effect at the time of the release (currently \$76,602 per acre) which would result in an approximately \$4.1MM payment to the City or (3) by any combination of the above. The Third Amendment in its entirety is set forth in **Exhibit "F"**.

Tauche no longer desires to operate the Property as a golf course, as further articulated in this Project Statement. Tauche has entered into a contract to sell the Property to Classic Homes and Classic Homes is the developer applicant for this PUD request.

Park for Land Trade Background: This AC PUD application covers the entirety of the 194 acres of the Tauche Property, as well as approximately 22 acres of City owned property known commonly as the Tutt Sports Complex (City Property), and an approximately 1.5 acre parcel bisecting the City Property that is owned by Development Management Inc. (DMI). The City Property is located immediately east of Tutt Boulevard, across the street from the YMCA and surrounded by apartments to the northeast and southeast. The eastern edge of the City Property shares a common boundary with the southwest portion of the Property.

SEE EXHIBIT "C"

The City Property is ill suited for development as a sports complex. It is not well configured for such a use, is surrounded by a major arterial and significant multi-family development and has a significant drainage corridor bisecting the City Property, which is actually owned by DMI. In discussions with City Parks staff during initial investigation of this PUD application the City acknowledged these deficiencies and further indicated that the next highest priority Community Park slated for development is Coleman Sports Park adjacent to the north and west of the Northern Property and adjacent to the City owned Vibes Baseball Park and adjacent City owned ground.

Parks Staff indicated they would entertain a proposed trade of 22.039 acres of City Property for 23.531 acres of ground located adjacent to the proposed Coleman Sports Park on the northern and northwesterly portions of the Property. The map below highlights the proposed trade. The proposed trade is being evaluated by Parks Staff currently and an appraisal of the respective involved parcels is being obtained to inform further negotiations between the City and Classic Homes. It is anticipated that these details will be resolved prior to this zoning application coming forward to City Council for hearing.

SEE EXHIBIT "D"

The trade has substantial benefits to the City, including (1) providing needed additional acreage to the proposed Coleman Sports Complex for programming, (2) providing an additional and easterly access road off Peterson Road into the proposed Coleman Sports Complex that will be a direct access from the east that will not require everyone using the Complex to enter via Tutt Boulevard, (3) providing direct access from the east into the proposed Complex without routing traffic through established neighborhoods and (4) solving an intervening land ownership problem on the City Property. The vast majority of residents commenting during the public process for this application found the proposed trade a significant public benefit.

The PUD application anticipates zoning of the City Property south of the drainage channel to Residential Very High (18-25 DUA) and the area north of the drainage channel to Residential High (6-10 DUA). These proposed zones and uses are compatible with the existing development surrounding the City Property.

State of the Golf Course Industry Background: Golf is declining in popularity and participation and has been for the past decade or more. Since 2006 over 1,854 golf courses have closed nationwide. This trend is recognized by golf course owners, operators and club manufacturers and has been well documented nationally. Golf courses all around the country have been closing and slated for redevelopment. While not often welcomed by surrounding residents, a well-done redevelopment is certainly better for a community than a failed golf course which begets significant community problems – from noxious weeds, to illegal dumping to creating an attractive nuisance.

Springs Ranch Golf Course has been affected by these trends. It is in need of significant capital infusion to retain it as a viable golf course, everything from new irrigation systems, new wells, new pumps, new golf carts, etc. The clubhouse has significant deferred maintenance as well. The reality is that the Club does not operate at a profit to justify the capital requirements. Colorado Springs is a difficult place within which to operate a privately owned public golf course given the significant (and inexpensive and often subsidized) alternatives that exist; with two golf courses operated by USAFA, a golf course operated by Fort Carson, a golf course operated by Peterson AF Base, and with the two golf courses operated by the City as an enterprise in Valley Hi and Patty Jewett. Our community has a history of troubled or closed public golf courses due, in part, to this stiff competition. Appletree Golf Course has been shuttered and is now an unauthorized dump with significant vandalism and trespassing problems. Gleneagle Golf Course has been closed and partially redeveloped and a number of other public courses have been temporarily closed or changed hands.

Given these realities, there is no long-term viable future for Springs Ranch as a golf course. This proposal ensures that the City will actually receive the required payment of approximately \$4.1MM discussed above, master plans the Property comprehensively and thoughtfully, ensures public access and inter-

connectedness that does not legally exist today, provides public trail systems, parks and open space that benefit both the future homeowners as well as the existing neighborhoods and surrounding community.

ROBUST PUBLIC PROCESS:

Voluntary Town Hall Meetings: Classic Homes mailed letters to approximately 3200 surrounding neighbors and informed them of its desire to acquire and redevelop the Property. Classic then held four voluntary town hall meetings, with the first two being held on May 8, 2019 and May 10, 2019 and the second two being held on June 12, 2019 and June 17, 2019. At the initial meetings Classic informed interested residents of its proposed plans and encouraged feedback and comments, as well as engaged in significant Q&A sessions. Comment forms were provided and many residents took the opportunity to weigh in and provide input. To further obtain community input, Classic set up a project webpage on its website detailing the location and time of its meetings, as well as posting public meeting videos and updates to the page following the meetings. Classic sent meeting notifications to CONO which distributed information to its approximately 1200 resident database. Classic encouraged interested stakeholders to sign up through the Classic project webpage so they would receive information and continual updates as the Property plans evolved and changed. To date, over 3220 people have visited the project webpage and over 278 people have signed up to receive future updates.

Significant Plan Changes Based on Community Feedback: Classic, along with Bachman pr, received and processed in excess of 91 comments and requests. The subsequent two town hall meetings in June were held to acknowledge and discuss the input received and to review plan modifications made in response to the community input. While this is a request for PUD zoning, Classic provided significantly more detail at these neighborhood meetings than is required or normative. Classic has gone so far as to share conceptual proposed lot layouts and product types within the various zoning parcels. Providing this level of detail and transparency to the residents engendered significant comments and feedback and resulted in a multitude of changes to the proposed plan. Highlights of some of these changes include:

- Agreeing to ranch restrict all homes north of North Carefree Circle (Greenway North) and limit them to 25' in height, as calculated under City Code;
- Providing a minimum 55' buffer along the southern edge of proposed lots on the Northern Property, providing for a transitional buffer for the existing neighbors to the south;
- Agreeing to work with the Island residents to discuss and implement reasonable traffic calming measures on Showhorse Court and Golf Club Drive to discourage cut through traffic through their neighborhood;
- Proposing a pocket park along the western side of Sand Creek where the existing regional Sand Creek trail corridor connects to the proposed trail system;
- Reducing the total number of proposed residences within Greenway East that access off Pony Tracks Drive from approximately 60 to 42 and agreeing to ranch restrict all these homes and limit them to 25' in height, as calculated under City Code;
- Adjusting the layout of the easterly lots in Greenway East to eliminate front yards of proposed residences facing into existing backyards of current residents;
- Creation of a larger neighborhood park that abuts Sand Creek and creates an interconnected park and trail system.
- Removal of proposed residences on the easterly edge of the neighborhood park creating a view corridor and opening up the uses of that area;

- Reducing our proposed townhome area to reduce the amount of 2 story homes facing into neighbors to the east.
- Providing public trail connection corridors from the East of the Property through the site and to First and Main Town Center.
- Adding incremental on-street and off-street bike trails and corridors.

All of these agreed upon design element changes are reflected on the proposed PUD Concept Plan.

Additionally, Classic has had ongoing discussions with various community members, including Lou Morales the representative of eight or nine of the surrounding HOAs, to apprise him of plan changes, entitlement submittals and generally obtain feedback on the proposed submittal.

All of the foregoing is above and beyond the public process that will be required by the City in conjunction with the application. Please see attached report from Bachman pr for more details concerning the public engagement process associated with this application. **(Exhibit "G")**

PROJECT JUSTIFICATION

Conformance with PlanCOS: PlanCOS articulates a number of "Big Ideas" that this PUD Concept Plan fully meets and supports, including,

1. **Embrace creative infill, adaptation and land use change (PlanCOS Chapter 3, P.56, Goal UP-2 & Policy UP-2.A).** Greenways at Sand Creek is one of the largest undeveloped infill areas existing in our City. PlanCOS recognizes that as our City matures, a decline of any neighborhoods will not serve us well. Neighborhood disinvestment affects our entire City. The Plan further indicates that we need areas to infill and adapt in response to a myriad of trends including demographics, technology and the market. As a community PlanCOS encourages us to embrace the prospect of managed, thoughtful and forward-thinking changes in land use by reinvesting in key areas.

Greenways at Sand Creek proposes to take a significantly underperforming privately owned golf course and before its inevitable failure to repurpose it to a higher and better and much needed use. This plan has a mix of housing types, thoughtfully incorporates trails and open space into the Project and the surrounding neighborhoods, connects the existing and proposed communities with a Neighborhood Park and surrounding restaurants and shopping at the adjacent First and Main Town Center and is the thoughtful plan PlanCOS encourages.

2. **Focus on Urbanizing Corridors and Centers (Chapter 3, P. 57, Goal UP-4 & Policy UP-4.A).** PlanCOS acknowledges that for Colorado Springs to continue to flourish and grow, we need additional places to function as centers for community life. Density, land use diversity and public spaces need to be key components of these areas if they are to be sustainable, walkable and active. Greenways at Sand Creek accomplishes each of these objectives under its PUD Plan, in that it has diversity of product, active and passive public spaces that interconnect throughout the Project and to the community at large.
3. **Provide Parks for the People and Complete our Creeks (Chapter 7, P. 147, Goal ML-1 & Policy ML-1.C, and Goal ML-3 & Policies ML-3A&B).** PlanCOS recognizes that we need to ensure access to a variety of parks, opens spaces, trails and outdoor venues. It further

acknowledges that our creeks and stream corridors should be the lifeblood and arteries of our green infrastructure. Historically we have turned our backs to our creeks and stream corridors and PlanCOS indicates that these areas should be considered as spaces for recreation, wildlife, transportation and utilities, as well as conveying our stormwater.

Greenways at Sand Creek checks all of the above boxes. It thoughtfully incorporates parks, open spaces and public trails with proposed outdoor venues and opens them up to existing as well as future residents. The trail system along Sand Creek is one of the primary trail corridors in our City and this PUD publically activates the existing private trail corridor and creates an integrated inter-connected system of usage and development. Of primary importance, this Project provides public open space, parks, streamside corridors and significant community amenities to both its residents and surrounding property owners and the community at large. Currently, no legal public access exists to connect this major trail corridor and no legal right of access exists for people other than golfers. This Project alleviates these issues and significantly improves the existing conditions, from both a land form and access standpoint.

4. **Established Suburban Neighborhood (Chapter 5, P. 90, Typology 2):** PlanCOS categorizes Springs Ranch as an “Established Suburban Neighborhood”. In such areas new development should focus on safe connections into and within these neighborhoods and connect to off-street trail connections. Where possible, it should integrate diversity of housing types, provide parks and gathering places and connect to trails and open spaces.

Greenways at Sand Creek accomplishes all the objectives of development proposed in an Established Suburban Neighborhood. It has very few transportation corridors that impact existing neighborhoods, it provides diversity of housing types and publicly connects the community to quality green space and gathering areas and trails and open spaces.

Zone Change Criteria (Section 7.5.603.B)

1. **The action will not be detrimental to the public interest, health, safety, convenience or general welfare.**

The proposed PUD zoning consisting of commercial, residential, park and open space uses is consistent with existing development patterns in this part of the City. Residential is the primary use and compatible with the surrounding residential areas. This PUD Plan benefits the public interest, safety and convenience by providing park land needed by the City for the proposed Coleman Community Park, generating significant monies to the Parks Department for park projects and by opening up connectedness to trails and stream corridors currently in private hands.

As a part of this application, a Geological Hazards Study was conducted for the area north of North Carefree Circle. A very small portion of the westerly fringe of the Northern Property is shown to require this limited Geologic Hazard Review.

2. **The proposal is consistent with the goals and policies of PLANCOS.** See discussion above regarding compliance with PlanCOS.

PUD Concept Plan Review Criteria (Section 7.3.605)

- A. Is the proposed development pattern consistent with the Comprehensive Plan, the 2020 Land Use map, and all applicable elements of the Comprehensive Plan (including the Intermodal Transportation Plan and the Park, Recreation and Trails Master Plan)?**

Policy VN-2.A of PlanCOS promotes neighborhoods that incorporate common desired neighborhood elements. This PUD plan, as further outlined above, incorporates many such desired elements including diversity of housing types, active and passive parks, trails, open spaces and public gathering spots. It provides a variety of residential densities in order to further the PlanCOS goals of housing for all “and “everyone in a neighborhood”.

- B. Are the Proposed Uses Consistent with PlanCOS?**

The uses are consistent with PlanCOS. Please see answers incorporated throughout the PlanCOS Conformance section and below.

- C. Not applicable**

- D. Is the Proposed Development Consistent with the Intent and Purposes of this Zoning Code?**

The proposed development is consistent with the intent and purpose of the code as it will improve housing standards and provide needed parks, utility corridors and other public infrastructure and facilities.

- E. Does the Development Pattern proposed within the PUD Concept Plan Promote the Stabilization and Preservation of the Existing or Planned Land Uses in Adjacent Areas and Surrounding Residential Neighborhoods?**

The area to the east of the Project is primarily residential. This PUD Plan proposes residential development adjacent to such neighborhoods that are consistent and compatible with the existing neighborhoods. Care and concern to surrounding residential neighborhoods is reflected in the proposed zoning standards by limiting height of structures where appropriate to adjacent housing units. Higher density residential is proposed within the central area and western edge of the Project. The western edge of the Project abuts Tutt Boulevard and immediately adjacent uses include multi family, a YMCA and the First and Main Town Center. The northern and southern edges of the Project are adjacent to City owned land that is currently utilized for 2 large detention ponds along Sand Creek and the proposed Coleman Community Park. There are no use to use relationships that are problematic under this proposal.

F. Does the Development Pattern Proposed within the PUD Concept Plan Provide an Appropriate Transition or Buffering between Uses of Differing Intensities Both On Site and Off Site?

The PUD Concept Plan does provide appropriate transitioning and buffering between existing and proposed development. This transitioning and buffering is accomplished in a number of ways such as proposed reduced height in the Zone Standards, use of open space buffering, and Park buffering. There are no inappropriate transitions provided internally within the Project.

G. Does the Nonresidential Development Pattern Proposed within the PUD Concept Plan Promote Integrated Activity Centers and Avoid Linear Configurations along Roadways?

The only commercial node within this proposed PUD is provided at the NE corner of the major intersection of Tutt Boulevard with the existing access into the golf course. This area is appropriate for commercial use and provides no integration problems with surrounding properties. The only other significant nonresidential use are related to proposed Park improvements which are anticipated to contain activities associated with an existing lake on the Project that is proposed to be retained and certain to be determined facilities to be completed within the Park, such as an outdoor amphitheater.

H. Are the Permitted Uses, Bulk Requirements and Required Landscaping Appropriate to and Compatible with the Type of Development, the Surrounding Neighborhood or Area and The Community?

A range of residential densities is provided to allow a variety of housing products and types. The Project anticipates medium density single family, alley loaded medium density homes, townhomes and apartments. Bulk requirements, height limitations, and density ranges ensure the development provides internal transitions and is compatible with the surrounding residential uses. Open space, trails and parks are provided, however, landscaping requirements will be assessed with future development plans.

I. Does the PUD Concept Plan provide Adequate Mitigation for any Potentially Detrimental Use to Use Relationships (e.g. Commercial Use Adjacent to Single Family Homes)?

No such detrimental use to use relationships exist or are proposed with this PUD Plan.

J. Does the PUD Concept Plan accommodate Automobile, Pedestrian, Bicycle and Transit Modes of Transportation as Appropriate, Taking into Consideration the Development's Primary Function, Scale, Size and Location?

As discussed in detail within this Project Statement, interconnected roadways, green trail corridors, and connections to multi-use trails provide access for automobile, pedestrians and bicycles. There is minimal roadway connections into the existing neighborhoods, however,

this PUD Plan proposes integrating trail and open space into existing neighborhoods and opening them for public use where none existed previously.

K. Does the PUD Concept Plan include a Logical Hierarchy of Perimeter and Internal Arterial, Collector and Local Streets that will Disperse Development Generated Vehicular Traffic to a Variety of Access Points and Ways, Reduce Thorough Traffic in Adjacent Residential Neighborhoods and Improve Resident Access to Jobs, Transit, Shopping and Recreation?

There is only one proposed development node in this PUD Plan which purports to have its primary access via an existing residential collector; that is the area off of Pony Tracks and this area is limited to 42 units. The rest of the Project is served by extensions of existing roads, i.e. South Carefree Circle and the current entrance across from First and Main into the current golf clubhouse location, or by a proposed new connection, i.e. the proposed RI/RO off of North Carefree Circle to serve the Northern Property. The PUD Zoning Standards and Plan propose a hierarchy of road standards to appropriately serve this Project and these road standards are depicted on the PUD Plan.

Proposed public street sections have been provided on the PUD Plan further detailing the anticipated public street amenities, including travel lanes, bike lanes, sidewalks and parking areas.

L. Will Streets and Drives within the Project Area be Connected to Streets Outside the Project Area in a Way that Minimizes Significant Through Traffic Impacts on Adjacent Residential Neighborhoods, but still Improves Connectivity, Mobility Choices and Access to Jobs, Shopping and Recreation?

Yes, see above answer to K. Additionally, connectivity and mobility choices are significantly improved for the existing neighborhoods and residents by opening up alternative access across the Project via sidewalks and bike lanes to First and Main and the YMCA where no legal public access exists today.

M. Does the PUD Concept Plan Provide Safe and Convenient Vehicle and Pedestrian Connections between Uses Located within the Zone District and To Uses Located Adjacent to the Zone District or Development?

Yes, see previous responses.

N. Will Adequately Sized Parking Areas be Located to Provide Safe and Convenient Access, To Avoid Excessive Parking Ratios and Avoid Excessive Expanses of Pavement?

This item will be addressed with future development plans but there are no excessive expanses of parking or pavement planned for this Project.

EXHIBIT E: 1999 PARKS CREDIT AGREEMENT

**AGREEMENT CONCERNING PARK CREDITS
FOR SPRINGS RANCH GOLF COURSE**

THIS AGREEMENT, dated October 12, 1999, is between the CITY OF COLORADO SPRINGS, a home rule city and a Colorado municipal corporation (the "City"), and BRE/Springs Ranch L.L.C., a Delaware limited liability company ("BRE/Springs Ranch") and Tom Tauche, Inc., a Colorado corporation ("Tauche"). BRE/Springs Ranch was the prior owner of certain property now developed as an 18-hole golf course known as the Springs Ranch Golf Course (the "Golf Course"), which is legally described on the attached Exhibit A. BRE/Springs Ranch conveyed the Golf Course to Tauche in return for Tauche's promise and covenant, among other matters, to construct and operate thereon an 18-hole golf course, club house and other facilities which shall remain open to the general public and available for play to all residents of the City and other interested golfers. Tauche has and hereby does assign to BRE/Springs Ranch all park fee credits for the Golf Course granted herein below.

The Golf Course is part of a major development within the City commonly known as Springs Ranch. As the developer of Springs Ranch, BRE/Springs Ranch is required by City ordinances and subdivision regulations to dedicate land for parks to the City or to pay park fees to the City in lieu of dedication of land. City ordinances also provide for the granting of credits for privately held land in certain instances. The parties wish to provide for park dedication credits to be awarded to BRE/Springs Ranch in consideration of the Golf Course being open to the residents of the City.

Therefore, in consideration of the mutual covenants contained herein, the City and Springs Ranch agree:

1. Park Dedication Credits. Because the Golf Course is open to the public,¹ the City recognizes that it satisfies the requirements and purposes of the City's ordinances concerning park dedications by providing open space and recreational opportunities for the residents of the City. The City has the power and authority to award credit for private open space pursuant to Section 15-3-

¹ Notwithstanding statements contained herein regarding access by the public to the Golf Course, nothing herein shall be construed to limit the ability of Tauche and all successive owners of the Golf Course to charge fees and to establish rules of conduct, access and play upon the Golf Course.

1207A.2 of the Code of the City of Colorado Springs, 1980, as amended. Therefore, the City grants to BRE/Springs Ranch park dedication credits in lieu of actual dedication to the public of land or payment of park fees. The amount of such dedication credit is set forth in greater detail below. These park dedication credits may be used by BRE/Springs Ranch in connection with development of land within the approved Springs Ranch Master Plan in the same manner as any other park dedication credits allowed by the City, in accordance with City procedures.

2. Reimbursement of Park Dedication Credits. Tauche, for itself and all future owners of the Golf Course, reserves the right to limit public access to the Golf Course by converting it to a private club available for play only by members or otherwise restrict the right of all residents of Colorado Springs to use the Golf Course. However, if Tauche or any future owner of the Golf Course, at any time after the date of this Agreement, changes the nature or rules of the Golf Course so that it is no longer available to all residents of the City as a public golf course, then the City may revoke all park dedication credits arising from this Agreement. In addition, the then-current owner of the Golf Course shall become obligated to reimburse the City for all park dedication credits granted pursuant to this Agreement. The then-current owner of the Golf Course may reimburse the City based upon the school-park fee then in effect by any combination of cash or dedication of other park land acceptable to the City in the appropriate amount within the Springs Ranch Master Plan. In no event shall any reimbursement be less than the 1999 value of the park credits granted or issued by this Agreement. The then-current owner of the Golf Course shall reimburse the City within 30 days after receiving notice from the City of the amount to be reimbursed.

3. Amount of Credit Granted Hereunder. The City and BRE/Springs Ranch acknowledge and agree that (i) the grant of park dedication credits for the Golf Course, (in an amount not to exceed 66.5 acres which corresponds to 31.4% of the acres comprising the Golf Course), (ii) together with all parks dedicated to date to the City within the Springs Ranch Master Plan, (iii) together with the proposed 28 acre Regional Park located along Tutt Boulevard which BRE/Springs Ranch shall dedicate to the City, (iv) together with a neighborhood park located in the northeast sector within the Springs Ranch Master Plan which

BRE/Springs Ranch shall dedicate to the City (collectively the "Parks"), all combine to fully and completely satisfy all of BRE/Springs Ranch and Tauche's requirements for park dedications or fees within the Springs Ranch Master Plan. In consideration of the City's agreement to grant park dedication credits with respect to the Golf Course, BRE/Springs Ranch agrees that it shall dedicate to the City all of the Parks without requiring payment for the land, even if the land dedicated for the Parks is in excess of the land dedication requirements of BRE/Springs Ranch under City ordinances in effect from time to time. The City shall never be obligated to buy or otherwise pay for any of the land for the Park dedications, nor shall it be obligated to reimburse BRE/Springs Ranch in cash for any excess park credits accumulated with the City in connection with Springs Ranch. Correspondingly, once all of the Parks identified above have been transferred and dedicated to the City, BRE/Springs Ranch, Tauche and their respective successors shall not be required to dedicate land to the City or pay any park fees in connection with property within the Springs Ranch Master Plan. Nothing in this Agreement shall prevent BRE/Springs Ranch from seeking approval of amendments to the Springs Ranch Master Plan that change, reduce or eliminate park sites in Springs Ranch in accordance with City ordinances, policies and procedures relating to the amendment of master plans.

4. Agreement to Run with Land. This Agreement shall be recorded in the real property records of El Paso County, Colorado. It shall run with the land comprising the Golf Course as described on Exhibit A and shall be binding upon and inure to the benefit of the City, BRE/Springs Ranch, Tauche and all future owners of the Golf Course.

5. Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

6. Effect of Agreement. All negotiations relative to the matters contemplated by this Agreement are merged herein and there are no other understandings or agreements relating to the matters and things herein set forth other than those incorporated in this Agreement. No provision of this Agreement shall be altered, amended, revoked or waived except by an instrument in writing signed by the party to be charged with such amendment, revocation or waiver.

7. Severability. If any clause or provision of this Agreement is illegal, invalid or unenforceable under applicable present or future laws, then it is the intention of the parties that the remainder of the Agreement shall not be affected and that in lieu of any such clause or provision there be added as a part hereof a substitute clause or provision as similar in terms and effect to such illegal, invalid or unenforceable clause or provision as may be possible.

EXHIBIT F: 2018 PARKS CREDIT AGREEMENT AMENDMENT

**THIRD AMENDMENT
TO AGREEMENT CONCERNING PARK CREDITS
FOR SPRINGS RANCH GOLF COURSE**

This is a Third Amendment (the "Third Amendment") to that certain Agreement Concerning Park Credits for Springs Ranch Golf Course dated October 12, 1999, and recorded in the real property records for El Paso County, Colorado, on October 29, 1999, at Reception No. 099167517 (the "Park Credit Agreement"), by and among the **CITY OF COLORADO SPRINGS**, a home rule city and a Colorado municipal corporation (the "City"), and **TOM TAUCHE, INC.**, a Colorado corporation ("Tauche"). The Park Credit Agreement is modified by that certain Amendment to Agreement Concerning Park Credits for Spring Ranch Golf Course recorded on December 2, 2011, at Reception No. 211119344 (the "First Amendment"), and by that certain Second Amendment to Agreement Concerning Park Credits for Spring Ranch Golf Course recorded in the real property records of El Paso County, Colorado, on June 30, 2016, at Reception No. 216072327 (the "Second Amendment"), and by that certain Affidavit Re: Scrivener's Error Pursuant to C.R.S. § 38-35-109(5) recorded in the real property records of El Paso County, Colorado on March 6, 2018, at Reception No. 218026095 (the "Scrivener's Correction"). The Park Credit Agreement, the First Amendment, the Second Amendment and the Scrivener's Correction are collectively referred to herein as the "Park Credit Agreement."

Recitals

A. When the Springs Ranch property in Colorado Springs was being developed, the developer for that property obtained park credits from the City by committing to use as a golf course open to the general public the property described on **Exhibit A** attached hereto and incorporated herein by this reference (the "Property"). The Property is subject to and encumbered by the Park Credit Agreement.

B. To further document the commitment to use the Property as a public golf course in exchange for receiving park credits, a Declaration of Restrictions for The Golf Course At Springs Ranch (the "Initial Declaration") was recorded in the public records of the Clerk and Recorder of El Paso County, Colorado, on October 29, 1999, at Reception No. 099167516.

C. The Initial Declaration, as amended by that certain Amendment To Declaration Of Restrictions For The Golf Course At Springs Ranch (the "First Declaration Amendment"), recorded in the public records of the Clerk and Recorder of El Paso County, Colorado, on December 02, 2011, at Reception No. 211119345, and by that certain Second Amendment To Declaration of Restrictions for the Golf Course at Springs Ranch (the "Second Declaration Amendment") recorded in the public records of the Clerk and Recorder of El Paso County, Colorado on June 30, 2016, at Reception No. 216072328, burdens the Property. The Initial Declaration together with the First Declaration Amendment and the Second Declaration Amendment are collectively referred to as the Declaration.

D. The Park Credit Agreement permits the termination of the use of the Property as a public golf course in the future if the City is reimbursed for the park credits previously obtained in accordance with the terms and conditions of the Park Credit Agreement.

E. Tauche intends to close the golf course and terminate the use of the Property as a golf course open to the public and to make the Property available for development, and agrees to reimburse the City for the park credits previously obtained in accordance with the terms and conditions of the Park Credit Agreement when the golf course is closed to the general public.

F. Tauche and the City are executing this Third Amendment to document the parties' agreement as to the terms of that reimbursement and as to the termination of the Dedication and future termination of the Park Credit Agreement once the full reimbursement has been made.

G. The Property is a part of the Springs Ranch development, which was developed by BRE/SPRINGS RANCH, L.L.C. Development of Springs Ranch has previously been completed; BRE/SPRINGS RANCH, L.L.C., is no longer in existence and is not a necessary party to this Release.

Agreement

1. The parties stipulate and agree that the Property which is subject to the Park Credit Agreement constitutes approximately 171 acres. The parties further agree that the Property can be released from the Declaration by either (1) dedicating land for parks (or making improvements to parks if provided for by the ordinances of the City then in effect) which are acceptable to the City at the rate of .314 times the number of acres of the Property being released, which would be a total of 53.7 acres of park dedication to fully satisfy the obligation to release the entire Property in accordance with the Park Credit Agreement, or (2) by paying the equivalent cash in lieu of land dedication on the 53.7 acres of park dedication based on the per-acre park fee then in effect at the time of the release, or (3) by any combination of (1) and (2) above. The City agrees that once repayment has been made in accordance with this provision that the Property (or the portion thereof for which reimbursement has been made) shall no longer be subject to the terms and conditions of the Park Credit Agreement, and that the City will execute a Termination and Release of the Park Credit Agreement in the form attached hereto as **Exhibit B**. Because the Park Credit Agreement, as amended by this Third Amendment, provides the commitment from Tauche to repay the park credits upon the closure of the golf course to the general public, the Declaration is not needed and the parties are, contemporaneously with the execution of this Third Amendment, executing and will record the Termination and Release of the Declaration in the form of **Exhibit C** attached hereto, following which the Declaration will no longer encumber the Property.

2. Pursuant to the Second Amendment, Tauche previously conveyed three parcels to the City which are defined in the Second Amendment as the Released Property, but Tauche retained an easement across the Released Property for utilities and access, as set forth in the Special Warranty Deed dated May 16, 2016 and recorded July 11, 2018 at Reception No. 218079638 in the records of El Paso County, Colorado. In addition to that Released Property, Tauche previously removed an approximately 15.924 acre parcel which was used for Pond No. 2

and was conveyed to the City as part of Pond No. 2 (the "Pond No. 2 Parcel"). Upon the termination and release of the Park Credit Agreement, Tauche shall release any reserved easements in the Released Property and the Pond No. 2 Parcel and agrees to execute upon request a quit claim deed in favor of the City in the form set attached hereto as **Exhibit D**, provided, however, that Tauche may reserve a portion of any existing utility easements as reasonably agreed to by the City in conjunction with the future development of the Property.

3. Each party hereto shall execute and cause to be delivered to each other party hereto such instruments and other documents, and shall take such other actions, as such other party may reasonably request in order to consummation of the transaction contemplated hereby.

4. All other terms and conditions of the Agreement shall remain in effect until terminated in accordance with this Third Amendment. The terms of this Third Amendment shall control in the event of a conflict between the terms of this Third Amendment and the Park Credit Agreement.

[Signature Page Follows]

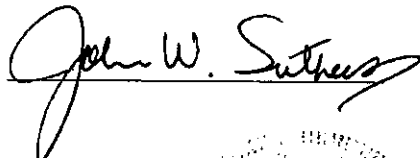

Dated this 28th day of November, 2018.

IN WITNESS WHEREOF, the parties have signed this Third Amendment as of the date indicated above.

TO THIRD AMENDMENT TO AGREEMENT CONCERNING PARK CREDITS

TERMINATION AND RELEASE OF AGREEMENT CONCERNING PARK CREDITS FOR SPRINGS RANCH GOLF COURSE

This is a Termination and Release (the "Release") of that certain Agreement Concerning Park Credits for Springs Ranch Golf Course dated October 12, 1999, and recorded in the real property records for El Paso County, Colorado, on October 29, 1999, at Reception No. 099167517 (the "Park Credit Agreement"), by and among the **CITY OF COLORADO SPRINGS**, a home rule city and a Colorado municipal corporation (the "City"), and **TOM TAUCHE, INC.**, a Colorado corporation ("Tauche"). The Park Credit Agreement is modified by that certain Amendment to Agreement Concerning Park Credits for Spring Ranch Golf Course recorded on December 2, 2011, at Reception No. 211119344 (the "First Amendment"), by that certain Second Amendment to Agreement Concerning Park Credits for Spring Ranch Golf Course recorded in the real property records of El Paso County, Colorado, on June 30, 2016, at Reception No. 216072327 (the "Second Amendment"), by that certain Affidavit Re: Scrivener's Error Pursuant to C.R.S. § 38-35-109(5) recorded in the real property records of El Paso County, Colorado on March 6, 2018, at Reception No. 218026095 (the "Scrivener's Correction"), and by that certain Third Amendment to Agreement Concerning Park Credits for Spring Ranch Golf Course recorded in the real property records of El Paso County, Colorado, on _____, 2018, at Reception No. _____ (the "Third Amendment"). The Park Credit Agreement, the First Amendment, the Second Amendment, the Scrivener's Correction and the Third Amendment are collectively referred to herein as the "Park Credit Agreement."

Recitals

H. When the Springs Ranch property in Colorado Springs was being developed, the developer for that property obtained park credits from the City by committing to use as a golf course open to the general public the property described on **Exhibit A** attached hereto and incorporated herein by this reference (the "Property"). The Property is subject to and encumbered by the Park Credit Agreement.

I. To further document the commitment to use the Property as a public golf course in exchange for receiving park credits, a Declaration of Restrictions for The Golf Course At Springs Ranch (the "Initial Declaration") was recorded in the public records of the Clerk and Recorder of El Paso County, Colorado, on October 29, 1999, at Reception No. 099167516.

J. The Initial Declaration, as amended by that certain Amendment To Declaration Of Restrictions For The Golf Course At Springs Ranch (the "First Declaration Amendment"), recorded in the public records of the Clerk and Recorder of El Paso County, Colorado, on

December 02, 2011, at Reception No. 211119345, and by that certain Second Amendment To Declaration of Restrictions for the Golf Course at Springs Ranch (the "Second Declaration Amendment") recorded in the public records of the Clerk and Recorder of El Paso County, Colorado on June 30, 2016, at Reception No. 216072328, burdens the Property. The Initial Declaration together with the First Declaration Amendment and the Second Declaration Amendment are collectively referred to as the Declaration.

K. The Park Credit Agreement permits the termination of the use of the Property as a public golf course in the future if the City is reimbursed for the park credits previously obtained in accordance with the terms and conditions of the Park Credit Agreement.

L. Tauche intends to close the golf course and terminate the use of the Property as a golf course open to the public and to make the Property available for development. To do so, Tauche is reimbursing the City for the park credits which were previously granted pursuant to the terms of the Park Credit Agreement, as amended. The parties hereto desire to terminate the Park Credit Agreement (and the Declaration) and remove and release the Property from the Park Credit Agreement (and the Declaration). In exchange for the City's consent to the removal and release of the Property from the Park Credit Agreement (and the Declaration), Tauche has fully reimbursed the City for the Park Credits previously obtained in accordance with the terms of the Park Credit Agreement.

M. The Property is a part of the Springs Ranch development, which was developed by BRE/SPRINGS RANCH, L.L.C. Development of Springs Ranch has previously been completed.

Agreement

In consideration of the foregoing Recitals, which are incorporated herein by this reference, the mutual covenants of the parties contained herein, and other good and valuable consideration, the adequacy of which is acknowledged, the undersigned parties agree as follows:

1. All capitalized terms used in this Release that are not defined in this Release have the meanings given to them in the Park Credit Agreement.
2. The obligations of Tauche under the Park Credit Agreement to repay all park credits previously received are deemed fully satisfied.
3. The Property is hereby released from and shall no longer be subject to the Park Credit Agreement.
4. The Park Credit Agreement is hereby terminated and deemed of no further force or effect and is deemed removed from the public records.
5. The parties have each independently researched the status of BRE/SPRINGS RANCH, L.L.C., and mutually agree, without warranty, that BRE/SPRINGS RANCH, L.L.C. is no longer in existence and is not a necessary party to this Release.

6. Each party hereto shall execute and cause to be delivered to each other party hereto such instruments and other documents as such other party may reasonably request in order to accomplish the purposes of this Release.

Dated this _____ day of _____, 2018.

IN WITNESS WHEREOF, the parties have signed this Release as of the date indicated above.

**TERMINATION AND RELEASE
OF
DECLARATION OF RESTRICTIONS
FOR THE GOLF COURSE AT SPRINGS RANCH**

This Termination And Release Of Declaration Of Restrictions For The Golf Course At Springs Ranch (this "Release") is made this ____ day of _____, 2018, by **TOM TAUCHE, INC.**, a Colorado corporation ("Declarant"), and the **CITY OF COLORADO SPRINGS**, a home rule city and a Colorado municipal corporation (the "City").

RECITALS

N. The Property described on **Exhibit A** attached hereto and incorporated herein by reference (the "Property") is the subject of an Agreement Concerning Park Credits for Springs Ranch Golf Course dated October 12, 1999 (the "Park Credit Agreement"), by which the Springs Ranch development obtained park credits from the City by committing to use the Property as a golf course open to the general public. The Park Credit Agreement provides for a termination of the public golf course if the City is reimbursed for those park credits previously obtained in accordance with the terms and conditions of the Park Credit Agreement.

O. The Declaration Of Restrictions For The Golf Course At Springs Ranch (the "Declaration") to which this Release applies, was recorded in the public records of the Clerk and Recorder of El Paso County, Colorado, on October 29, 1999, at Reception No. 99167516, to further document the commitment to the use of the Property as a public golf course in furtherance of the allocation of park dedication credits by the City in connection with the Springs Ranch development project.

P. The Declaration is amended by that certain Amendment to Declaration Of Restrictions For The Golf Course At Springs Ranch (the "First Amendment"), recorded in the public records of the Clerk and Recorder of El Paso County, Colorado, on December 02, 2011, at Reception No. 211119345, and by that certain Second Amendment to Declaration of Restrictions for the Golf Course at Springs Ranch (the "Second Amendment") recorded in the public records of the Clerk and Recorder of El Paso County, Colorado on June 30, 2016 at Reception No. 216072328. The Declaration, as modified by the First Amendment and the Second Amendment, is hereinafter referred to as the "Declaration."

Q. Declarant intends to close the Golf Course and terminate the use of the Property as a golf course open to the public and make the Property available for development. To do so, Declarant is reimbursing the City for the park credits which were previously granted pursuant to the terms of the Park Credit Agreement, as amended. The parties hereto desire to terminate the Declaration and remove and release the Property from the Declaration. In exchange for the

City's consent to the removal and release of the Property from the Declaration, Declarant has fully reimbursed the City for the Park Credits previously obtained in accordance with the terms of the Park Credit Agreement.

R. The Golf Course is a part of the Springs Ranch development, which was developed by BRE/SPRINGS RANCH L.L.C. Development of Springs Ranch has previously been completed; BRE/SPRINGS RANCH L.L.C is no longer in existence and is not a necessary party to this Release.

S. The City has joined in execution of this Release to acknowledge that the Park Credits have been fully reimbursed by Declarant and that the Declaration is hereby deemed terminated and released.

AMENDMENT

In consideration of the foregoing Recitals, which are incorporated herein by this reference, the mutual covenants of the parties contained herein, and other good and valuable consideration, the adequacy of which is acknowledged, the undersigned parties agree as follows:

7. All capitalized terms used in this Release that are not defined in this Release have the meanings given to them in the Declaration.

8. The obligations of Declarant under the Park Credit Agreement to repay all park credits previously received are deemed fully satisfied.

9. The Property is hereby released from and shall no longer be subject to the Declaration.

10. The Declaration is hereby terminated and deemed of no further force or effect and is deemed removed from the public records.

11. Each party hereto shall execute and cause to be delivered to each other party hereto such instruments and other documents, and shall take such other actions, as such other party may reasonably request in order to carry out the intent and accomplish the purposes of this Release.

IN WITNESS WHEREOF, the Declarant and the City have executed this Release as of the date indicated above.

THIS QUITCLAIM DEED, made this ___ day of _____, 2018, between **TOM TAUCHE, INC.**, a Colorado corporation, whose address is c/o Tom Tauche, Springs Ranch Golf Club, 3525 Tutt Boulevard, Colorado Springs, CO 80922, referred to herein as the Grantor, and **CITY OF COLORADO SPRINGS**, a home rule city and a Colorado municipal corporation, whose address is 30 South Nevada Avenue, Colorado Springs, CO 80903, referred to herein as the Grantee:

WITNESS, that the Grantor, for and in consideration of the sum of Ten and No/100 Dollars (\$10.00), the receipt and sufficiency of which is hereby acknowledged, has remised, released, sold and QUITCLAIMED, and by these presents does remise, release, sell and QUITCLAIM unto the Grantee, its successors and assigns forever, all the right, title, interest, claim and demand which the Grantor has in and to the following interest in real property:

All that interest of the Grantor in those perpetual, non-exclusive easements over, through, and across the Property, for the purposes of installing, maintaining, repairing or replacing gas, electric, phone and cable lines, pipes and services, including irrigation lines, and for installing, maintaining, repairing or replacing the golf cart path, all as currently existing upon the Property, as reserved in Special Warranty Deed recorded July 11, 2018 under reception no. 218079638; and

All that interest of the Grantor in those easements and rights of way as are necessary in connection with the operation of Grantor's Springs Ranch Golf Course, including currently existing cart paths, bridges, underground water lines and related improvements and facilities, as well as the right of access to service and maintain the same, as reserved in Deed recorded July 21, 2005 under reception no. 205110196.

RESERVING UNTO THE GRANTOR such now existing utility lines and infrastructure as may be reasonably necessary in conjunction with the future development of the property described on **Exhibit A** attached hereto and incorporated herein. Notwithstanding the foregoing, Grantee shall have the right to relocate, at Grantee's sole expense, any now existing utility lines and infrastructure as reserved by the GRANTOR.

TO HAVE AND TO HOLD the same, together with all and singular the appurtenances and privileges thereunto belonging, or in anywise thereunto appertaining, and all the estate, right, title, interest and claim whatsoever of the Grantor, either in law or equity, to the only proper use and benefit of the Grantee, its successors and assigns forever.

IN WITNESS WHEREOF, the Grantor has executed this QUITCLAIM DEED on the date set forth above.

TERMINATION AND RELEASE
OF
DECLARATION OF RESTRICTIONS
FOR THE GOLF COURSE AT SPRINGS RANCH

This Termination And Release Of Declaration Of Restrictions For The Golf Course At Springs Ranch (this "Release") is made this 7th day of December, 2018, by **TOM TAUCHE, INC.**, a Colorado corporation ("Declarant"), and the **CITY OF COLORADO SPRINGS**, a home rule city and a Colorado municipal corporation (the "City").

RECITALS

A. The Property described on **Exhibit A** attached hereto and incorporated herein by reference (the "Property") is the subject of an Agreement Concerning Park Credits for Springs Ranch Golf Course dated October 12, 1999 (the "Park Credit Agreement"), by which the Springs Ranch development obtained park credits from the City by committing to use the Property as a golf course open to the general public. The Park Credit Agreement provides for a termination of the public golf course if the City is reimbursed for those park credits previously obtained in accordance with the terms and conditions of the Park Credit Agreement.

B. The Declaration Of Restrictions For The Golf Course At Springs Ranch (the "Declaration") to which this Release applies, was recorded in the public records of the Clerk and Recorder of El Paso County, Colorado, on October 29, 1999, at Reception No. 99167516, to further document the commitment to the use of the Property as a public golf course in furtherance of the allocation of park dedication credits by the City in connection with the Springs Ranch development project.

C. The Declaration is amended by that certain Amendment to Declaration Of Restrictions For The Golf Course At Springs Ranch (the "First Amendment"), recorded in the public records of the Clerk and Recorder of El Paso County, Colorado, on December 02, 2011, at Reception No. 211119345, and by that certain Second Amendment to Declaration of Restrictions for the Golf Course at Springs Ranch (the "Second Amendment") recorded in the public records of the Clerk and Recorder of El Paso County, Colorado on June 30, 2016 at Reception No. 216072328. The Declaration, as modified by the First Amendment and the Second Amendment, is hereinafter referred to as the "Declaration."

D. Declarant intends to close the Golf Course and terminate the use of the Property as a golf course open to the public and make the Property available for development. To do so, Declarant is reimbursing the City for the park credits which were previously granted pursuant to the terms of a Third Amendment to the Park Credit Agreement which the parties have executed. The parties hereto desire to terminate the Declaration and remove and release the Property from the Declaration. In exchange for the City's consent to the removal and release of the Property from the Declaration, Declarant has agreed to fully reimburse the City for the Park Credits previously obtained in accordance with the terms of the Third Amendment to Park Credit Agreement.

E. The Golf Course is a part of the Springs Ranch development, which was developed by BRE/SPRINGS RANCH L.L.C. Development of Springs Ranch has previously been completed; BRE/SPRINGS RANCH L.L.C is no longer in existence and is not a necessary party to this Release.

F. The City has joined in execution of this Release to acknowledge that the Park Credits have been fully reimbursed by Declarant and that the Declaration is hereby deemed terminated and released.

AMENDMENT

In consideration of the foregoing Recitals, which are incorporated herein by this reference, the mutual covenants of the parties contained herein, and other good and valuable consideration, the adequacy of which is acknowledged, the undersigned parties agree as follows:

1. All capitalized terms used in this Release that are not defined in this Release have the meanings given to them in the Declaration.

2. The obligations of Declarant under the Park Credit Agreement to repay all park credits previously received will be fully satisfied in accordance with the terms of the Third Amendment to the Park Credit Agreement.

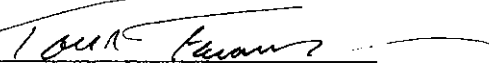

3. The Property is hereby released from and shall no longer be subject to the Declaration.

4. The Declaration is hereby terminated and deemed of no further force or effect and is deemed removed from the public records.

5. Each party hereto shall execute and cause to be delivered to each other party hereto such instruments and other documents, and shall take such other actions, as such other party may reasonably request in order to carry out the intent and accomplish the purposes of this Release.

IN WITNESS WHEREOF, the Declarant and the City have executed this Release as of the date indicated above.

Springs Ranch/Sand Creek Golf Course Summary -- Voluntary Public Engagement Process

September 4, 2019

I. Project Overview

Classic Homes is seeking to purchase the approximately 171-acre Springs Ranch Golf Course property located east of Tutt Boulevard for redevelopment. Classic's land development, engineering and consulting teams conducted due diligence to thoroughly evaluate the condition of the site. In connection with the potential redevelopment of this property, Classic's focus is to materially align plans for Springs Ranch consistent with the goals and policies set forth in the City of Colorado Springs' Comprehensive Plan (PlanCOS) as it relates to infill and redevelopment framework and to create a quality community. In an effort to be proactive and transparent with the community, Classic Homes initiated a voluntary public process ahead of the standard development process to inform adjacent neighborhoods of its plans to purchase the property and to develop the site should Classic Homes receive approval from the City of Colorado Springs.

II. Public Engagement Process

In fulfilling the City Planning Land Entitlement Application process for the Springs Ranch project, Classic Homes is required to solicit public input from surrounding potentially impacted property owners and businesses. However, Classic Homes has chosen to voluntarily engage the surrounding neighborhoods prior to the required public process to ensure a higher level of public input into the development plans. The public engagement process solicits community (neighborhood and business) input to better understand the concerns and desires of all audiences who would potentially be impacted by the project and to incorporate the feedback into the plan.

The public engagement process is also an opportunity to address some of the operational aspects of the project such as construction impacts, access to amenities on the property, public access park areas, additional traffic in the area, impacts of the project on view sheds, among others; and to inform the community and audiences of the benefits and opportunities the project could bring to the adjacent neighborhoods.

The Public Engagement Process Goals were to:

- Define details and plans for the project through community input and in the process, to communicate those details as well as the benefits of the project to each of the audiences
- Foster community understanding about and build support for the project
- Demonstrate where/how community input was included in the development plan

III. Bachman pr Scope of Services

Bachman pr, a local public engagement firm, was contracted by Classic Homes to design and implement a voluntary public outreach and engagement process as part of its proposal to purchase and redevelop the

Springs Ranch Golf Course property. Services provided by Bachman pr involved contacting adjacent neighbors, businesses and the public for the purpose of informing them of the potential sale of the golf course property for redevelopment, to address questions and concerns, and to obtain public input into Classic Homes development plans prior to its submittal to the City.

Lisa Bachman facilitated each of the public meetings, including question and answer sessions. Each meeting included Classic Homes CEO, Doug Stimple, giving a PowerPoint presentation / project overview and addressing all questions asked by the public. He explained the history of the property, the current status, and Classic Homes proposal to purchase and develop the property. He also explained the process Classic Homes will go through to submit an application to the City for rezoning and development, the City's review process and an overall development timeline.

IV. Public Outreach / Engagement Initiatives

In an effort to be forthcoming and transparent with the community about Classic Homes interest and intentions for redeveloping the Springs Ranch Golf Course, several voluntary public meetings were scheduled inviting neighborhood residents, businesses and the public to learn about the project, ask questions, and provide input. Although the community concept plans were in the very early stages of design, the purpose of these meetings was to proactively discuss the project, timeline for improvements, answer questions, and ask for community input.

a. Meeting Dates/Times/Location and Attendance

The following Town Hall-style Neighborhood Meetings took place from 5:30 – 7 p.m. at the Creekside Service Center, 3850 Pony Tracks Drive:

- Meeting #1: May 8 – approximately 240 citizens attended
 - Focused primarily on the area of the development located north of N. Carefree Circle
- Meeting #2: May 10 – approximately 80 citizens attended
 - Focused primarily on the area of the development located south of N. of Carefree Circle
- Meeting #3: June 12 – approximately 100 citizens attended
 - Focused on how Classic Homes concept plans for the development were revised based on public feedback and input received during meetings #1 and #2
- Meeting #4: June 17 – approximately 50 citizens attended
 - Also focused on how Classic Homes concept plans for the development were revised based on public feedback and input received during meetings #1 and #2

Anyone requiring auxiliary aid or ADA service to participate in the meetings were asked to call the project team no later than 48 hours prior to the meeting to request services (no calls were received requesting special ADA services for any of the four Neighborhood Meetings).

b. Public Outreach and Meeting Notifications

i. Letter of Intent

To inform the adjacent neighborhoods of its intent to purchase the Springs Ranch Golf Course for development, Classic Homes mailed a Letter of Intent in March 2019 to approximately 3,200 surrounding property owners. The letter described the property as it exists currently, the potential sale of the property and closure of Springs Ranch Golf Course, Classic Homes' plans for development and how citizens could sign up through the Classic Homes website to receive notifications of upcoming Neighborhood/Public Input Meetings.

ii. Postcards

Postcards promoting four Neighborhood Meetings were mailed to approximately 3,200 property owners within the Springs Ranch neighborhood.

iii. Website

A project webpage was set up on the Classic Homes website for keeping the community and public informed about the project as it develops and listing times/dates/locations of each of the Neighborhood/Public Meetings. Video recordings of each of the meetings were posted to the webpage following each meeting.

Webpage URL: <https://classichomes.com/project/springsranch/>

iv. Email Meeting Notifications and Subscription Service

Neighborhood/Public Meeting attendees were informed that to receive email notices of future meetings and project updates they could sign up through the Classic Homes project webpage. Meeting notices were distributed to all citizens who signed up either through the project webpage and who signed in at each of the Neighborhood/Public Meetings.

Each email received through the webpage was responded to with the following message:

Your registration to receive more information about potential redevelopment plans related to the Springs Ranch Golf Course has been received. You will be notified about neighborhood meetings, development plans, and relevant updates as information becomes available.

Thank you for visiting our website and for your continued interest in this project.

v. News/Social Media

Neighborhood/Public Meeting notices were posted on the social media platform, NextDoor.com. Local news media reported on the development plans and promoted the meetings, including:

- The Gazette newspaper
- KOAA-TV
- KRDO-TV

vi. HOA Notifications

Meeting notifications were distributed through homeowner associations of neighborhoods surrounding the golf course property. The project team provided Neighborhood/Public Meeting notices and project related information on an ongoing

basis to the Multi-HOA Team representing eight homeowner associations/neighborhoods:

- Springs Ranch Community Association
- Hillsboro Condominium Owners
- Golf Course North
- The Heights at Springs Ranch
- Fairways at Springs Ranch
- High Meadows at Springs Ranch
- Island at Springs Ranch
- The Range at Springs Ranch

vii. Council of Neighbors and Organizations

Representatives of the Council of Neighbors and Associations (CONO) were invited to and participated in the Neighborhood/Public Meetings. Meeting notifications were sent to CONO which distributed information to its approximately 1,200 resident database which include the following:

- Springs Ranch Community Association
- Fairways at Springs Ranch TOA
- Golf Course North at Springs Ranch HOA
- Golf Course Heights at Springs Ranch HOA
- Heights at Springs Ranch HOA
- Falcon Ridge at Springs HOA
- High Meadows at Springs Ranch HOA
- Knolls at Springs Ranch HOA
- Stonestrow at Springs Ranch HOA
- Falcon Terrace at Springs Ranch HOA
- The Highlands at Springs Ranch HOA
- The Cascades at Springs Ranch HOA
- Cascades at Springs Ranch II HOA
- East Ranch Townhome Association
- Pronghorn Meadows HOA
- Stetson Hills Neighborhood Association
- The Island at Springs Ranch HOA
- Range at Springs Ranch HOA
- Hannah Ridge HOA

c. Public Meeting Materials

- Comment Forms: Meeting attendees were encouraged to fill out and leave their completed comment forms at the sign-in table following each Neighborhood/Public Meeting or return them by mail or email. A total of 91 completed comment forms were turned in by the public over the four meetings. Comment form questions included:
 - What I like most about the project is:
 - What I like least about the project is:
 - My additional comments about the project are:

- Agenda Handouts: An agenda handout for each meeting included the project webpage URL and the project email address for the public to submit questions electronically.
- Information Displays: Large informational boards were displayed around the room at each meeting showing maps of the proposed project and pictures of Classic Homes products planned for each section of the development.
- PowerPoint Presentation: A PowerPoint presentation was given at each meeting in which Doug Stimple described all aspects of Classic Homes plans for the property, products and amenities planned for each section of the development, and corresponding site maps.
- Preliminary Concept Maps (Meetings #1 and #2): Smaller versions of the project preliminary concept site maps from the PowerPoint presentation were distributed during the meetings for reference and as a take-away.
- Revised Concept Maps (Meetings #3 and #4): Revised concept site maps were distributed showing how Classic Homes revised the development site plan based on public input provided during meetings #1 and #2.
- Video Recordings: Each of the Neighborhood/Public meetings were videotaped for project team reference and to inform those unable to attend the meetings.
- Petitions: Classic Homes informed attendees at each of the four public meetings that it had prepared a petition for those who may want to oppose redevelopment of the golf course. The petition was available at the sign-in table for anyone wanting to sign it. Classic Homes CEO, Doug Stimple, committed to including the petition and all signatures as part of the application to the City.

d. Public Meeting Format/Agenda

As the facilitator for each of the public meetings, Lisa Bachman/Bachman pr started by reviewing the meeting purpose, agenda and format.

For each of the meetings, Doug Stimple, CEO of Classic Homes presented and discussed:

- background information about the property and the project
- what is happening with golf courses nationally, why this golf course is being sold, and impacts to the surrounding property values if a course isn't maintained
- Classic's conceptual plans/ideas for the property and potential timeline
- the City application process, where Classic is in the process, and schedule for public input (both the Classic Homes voluntary process and the City formal process)

Lisa Bachman also facilitated a question and answer session for each of the four Neighborhood/Public Meetings. Doug Stimple responded to and addressed every question asked by the attendees. She ended each meeting by reviewing the next steps in the process, schedule for future public meetings, and reminding attendees to visit the project webpage for meeting summaries/videos and ongoing project updates.

The first two Neighborhood Meetings were designed for Classic Homes to present its proposal and concept for the site development, listen to citizen feedback and answer

questions about its plans. The second two Neighborhood Meetings were designed to present to the changes Classic Homes made to its concept plans based on feedback received from the public during the first two meetings. A revised concept plan was handed out during the second two meetings and Classic Homes explained the changes it made based on public desires for the development.

V. Citizen Comments and Concerns

a. Meeting Dates:	Completed Comment Forms:	Petition Sigs Collected:
Meeting #1: May 8	40 completed comment forms	11 signatures
Meeting #2: May 10	22 completed comment forms	9 signatures
Meeting #3: June 12	18 completed comment forms	6 signatures
Meeting #4: June 17	11 completed comment forms	1 signature

b. Public Comments / Question Topics

All questions and concerns expressed by the public were responded to and addressed by Doug Stimple either during the four Neighborhood Meetings or by email. This potential redevelopment project represents a change for the existing homeowners who have been situated along a golf course with open

views. While the public understood the situation of how an unmaintained golf course would negatively impact property values, concerns were expressed, although they were by and large similar to other development projects at this early stage of the process.

Concerns expressed focused on the following topics:

- Loss of the open space and viewshed
- Increase in traffic congestion and safety impacts
- Premiums initially paid by purchasers for properties on the golf course
- Impact of the development on property values of existing homes
- Impact of the development on local schools
- Drainage at properties within “the Island” area / flood plain
- Impact on fire and police emergency services
- Density: units planned to be built on the property for each area of the development
- Types and price ranges of home product for each area of the development
- Desire for a buffer around properties
- Construction impacts; noise, and air pollution; Sand Creek impacts

VI. Conclusion/Results

Classic Homes has provided extensive opportunity for the public to be informed about the potential Springs Ranch Golf Course redevelopment project, to have opportunities to ask questions and to provide input, especially as a voluntary effort implemented at the very early stage of the development process. The public engagement process was open and transparent starting with Classic Homes mailing a letter of intent to purchase the property for potential redevelopment to adjacent property owners very early in the initial planning phase and followed up by four open Town Hall-style Neighborhood Meetings. An extensive effort using a variety of communication tools was implemented to inform the public of the proposed redevelopment project and of the Neighborhood Meeting schedule.

Overall assessment of the public's input: As part of its voluntary public input process, Classic Homes engaged with more than 400 citizens and property owners from the neighborhood's surrounding Springs Ranch Golf Course through its four public meetings. Classic also responded to those who submitted comments and asked questions by email. All questions during the meetings and those submitted by email were responded to by Classic Homes.

Many of the property owners along the golf course did not welcome the proposal of the golf course being redeveloped for fear of losing their viewshed and open space and over concerns of increased traffic in the area. However, most also understood the negative impact to their property values of an unmaintained golf course. There was also generally an appreciation for how new, quality homes constructed in their neighborhood, a new planned community, connectivity to trails and parks, and neighborhood amenities can increase their property values. Concerns expressed were similar to other new development projects, largely focused on increased traffic congestion, loss of views, concerns about drainage, density, and impacts to emergency services.

During the Neighborhood Meetings, the Classic Homes project team was respectful in listening to attendees and in answering all questions asked by the public. The public was also largely respectful of Classic Homes stating they appreciated the meetings and information. Many residents indicated that while they don't like the area changing from a golf course, they understand the reason and they appreciate Classic Homes' willingness to meet with its neighbors to answer questions and openly communicate its plan should it be approved by the City. Many citizens also indicated that if the golf course site does proceed for development they are glad it will be done so by Classic Homes v. an unknown, lesser quality developer/builder.

Classic Homes demonstrated its willingness to listen to the concerns and requests expressed by residents in the neighborhoods surrounding the development site by making changes to its concept plans following the first two of

the four Neighborhood Meetings. While some meeting attendees indicated they don't want the golf course redeveloped at all and so would not be satisfied with any changes to the concept plans, many others voiced their appreciation that Classic Homes listened to their concerns and made several changes.

While it's understandable that some citizens would have concerns about changes in their neighborhood (as noted above), especially given that some of the homes are currently situated along a golf course for which some paid a premium, numerous positive comments were also expressed regarding what the public likes/appreciates about the project and about Classic Homes:

- Classic does a good job in building a new community; commitment/promise of quality homes and different products for all age groups, affordable, a reputable and respected builder/developer.
- Appreciate that Classic Homes is purchasing the site instead of another builder/developer.
- Well thought out plan, appreciate the transparency and the community dialogue; appreciate that Classic Homes is having these meetings to allow our input.
- Thank you for changing two areas of the development to restrict homes there to ranch-style heights.
- Like the trails/parks and access to the creek aspect of the development plans and the park proposal.
- Like that Classic is taking care of Sand Creek and making trails, etc. for the community. It will increase the value of all present homes. Like that Classic is developing a trail system with a large public park that will be beneficial to the citizens of the east side of Colorado Springs.

- Like the access off Peterson Rd. and bike/ped access to First & Main Town Center.
- Appreciate Classic's willingness to share information of its proposal early on.
- Appreciate the development is retaining and adding green open space along Pony Tracks and adding buffers for the neighborhoods.
- Appreciate the opportunity to express our opinions and feelings (even if it doesn't change anything!); Appreciate Classic Homes' willingness to listen to the public and their intent to be honest/clear about the planned development; Appreciate the thought & care that has gone into the project; This is good for neighborhood and community; Appreciate you had open meetings that you didn't need to; Appreciate the honest, transparent answers to questions; Appreciate being given a preview of the process to move toward Classic's plan to develop.
- Like the opportunity to build a new home in my current location.
- Like turning of Springs Ranch golf clubhouse into a community center, brew pub or just something cool for all residents.
- Like that a traffic study/report will be conducted.
- I started out against this but after Wednesday's meeting I am more positive about it. I still would love the whole property to become one large park with a Library branch in the old clubhouse. But I can see the benefits especially with trails.
- I am hoping the area of Springs Ranch becomes a much desired neighborhood and increases home values.

VII. Topics of Community Questions and Input

- **Increase in traffic / safety impact**

Classic has engaged a traffic study for the project. Both Classic and the City traffic department are reviewing the study to determine if changes need to be made. Classic will do what is required based on the traffic study results.

- **Loss of views / buffer**

Views are not protected by the law so there is no compensation for loss of view. The owner of the golf course property has the right to build what meets City requirements and codes. Classic puts in all its contracts that it can't guarantee existing views will be there forever. Public feedback has indicated a desire for a buffer around the area referred to as "the island." Classic is planning for that but doesn't know at this time exactly what it will be.

- **Property Values**

There are never any guarantees that when buyers purchase a property that there will be no changes to the surrounding area. The inability of the private golf course property owner to maintain the course means that somebody is going to redevelop it. An unmaintained, or poorly maintained golf course traditionally has negative impacts on surrounding property values.

Classic Homes has the experience, track record and reputation to develop the property in a pleasing and quality way that will benefit surrounding homeowners with new amenities that increase property values. There is nowhere Classic Homes has built in which property values have decreased.

- **Impact on public safety**

Developing infill areas actually decreases crime and response times. If you build outward, it often increases response times. When you develop, then infill, response times do not change. Local police and fire departments will have a chance to respond to the Classic proposal.

- **Impact on local schools**

The City Fire Department, Police Department, Colorado Department of Transportation (Powers Blvd. is a state highway), and School District 49 will have a chance to review the application. The school district will tell Classic, as the developer, if they prefer acreage for a new school or prefer Classic pay fees instead.

- **Drainage / Flood Plain**

A drainage plan that will not cause property owners problems is part of the requirements. A stormwater quality program will benefit not only the golf course redevelopment project but also give the City a head start to provide stormwater quality for existing flows that have none at this time. The development will be 100% compliant and no portion of the development will be within the flood plain established by the Federal Emergency Management Agency (FEMA). Additionally, the streamside overlay zone applies to a portion of this property. Within the streamside overlay portion, virtually nothing can be constructed within 40 feet of the creek. Within the next 40 feet, a deminimis amount of impervious surface (i.e. a back patio) can be built per the regulations. In addition, the City of Colorado Springs is under legal action by the Environmental Protection Agency resulting in the City now having one of the most aggressive review processes along the front range, with development plans having to be reviewed by federal, state and local governments.

- **Parks**

A City formula determines how much acreage in parks needs to be included in new developments; 5-7.5 acres of park land per 1000 residents. While there are no specific plans yet, the project proposes approximately 600 housing units, an additional 330 apartments, and several active & passive park areas, consisting of approximately 12.5 acres of park, including an approximately 7.5 acre active park as a focal point of the development . The City Parks Department currently doesn't have the resources to build all the parks on its list of numerous other neighborhood park locations. Classic is proposing to build the parks and greenway areas as part of the new development early on so that the neighborhood doesn't have to wait for the City to build them.

The land owned by the City identified for a park in this area has bad drainage and is too narrow without as much ground for what the City needs to construct a proper park there. Classic has proposed to exchange the land with a much better section of land on the north side of the golf course. The access would be off of Peterson Road v. through the neighborhood. On the master plan of all of Springs Ranch, the property owner received approximately 60 acres of park land credit for putting in the golf course. If the golf course had not been built, the owner would likely have had to pay the fees on the balance and the neighborhood would likely have only received 10 acres of parks. An agreement stipulates that if and when the golf club should be taken private or it closes, the owner would owe the City a significant amount of money, approximately \$4MM. The current owner of the golf course property is not in a position to pay that to the City. With the sale of the property, the new owner will take on the liability and responsibility for making the payment to the City.

- **Trails and the Creek**

Classic has not laid out all the trails within the development yet but intends to make it a very bicycle/walkable-friendly area. The fronts of the houses will face the creek for "eyes on the creek," a recognized approach for reducing homeless populations and crime.

- **Home types / Classic Homes product**

The number of homes planned for the property is not definitive, but Classic is proposing 550-625 single-family dwelling units and 330 apartment units. After receiving public feedback, Classic will

restrict the type of homes built north of N. Carefree to ranch style single story homes, some of which will have walkout basement conditions. The proposed new homes in the area south of N. Carefree will match, or closely complement, surrounding existing density. Additionally, Classic proposes a “no-build” zone as a buffer for existing homes surrounding the area referred to as the “island.” Street-side homes will be multi-use accessible and will connect to multi-mobile corridors. A front door to front door green belt and pocket parks are proposed. Classic will clean up Sand Creek and make it both more accessible and more attractive. Trails and improved pedestrian/bicycle bridges will enable residents to connect to First & Main Town Center.

- **Construction**

Timing of build-out for the development largely depends on the economy. From the time dirt is turned to complete build-out, depending on condition of the market, is optimistically 6 years overall. If the housing market stays strong, Classic expects to sell approximately 100 units per year for a 5- to 6-year project.

GREENWAYS AT SAND CREEK
PUD ZONING AND DEVELOPMENT STANDARDS

INTRODUCTION

Classic Homes has submitted to the City of Colorado Springs an application to change the zoning of the Property from Parks “PK” and Agricultural “A” to “PUD” (Planned Unit Development) with Development Standards. The zone change request is not accompanied by an application for a Master Plan, as the original Master Plan for Springs Ranch has been implemented. The Zone boundaries and accompanying legal descriptions are attached as **Exhibit “A”**. A concurrent rezoning of Existing “A” to “PK” is also being processed. These Development Standards do not affect the proposed PK area.

LOCATION

The Property contains approximately 194 acres and is located in the City of Colorado Springs. The property has 2 distinct sections contained within it, with those sections generally located both north (Northern Property) and south (Southern Property) of North Carefree Circle.

The Northern Property generally is located to the east of the City Owned Sand Creek Pond 2 and other associated City owned property slated for development into the proposed Coleman Community Park. The western boundary of the Northern Property also lies adjacent to Sand Creek. The furthest eastern boundary abuts Peterson Road, with the majority of the eastern boundary lying adjacent to existing development of single-family homes, condominiums and townhomes. Additionally, the development known as the Island at Springs Ranch is surrounded by the Property. Please see the attached map of the Northern Property. **(Exhibit “B”)**

The Southern Property generally is located east of Tutt Boulevard, south of North Carefree Circle and north of Sand Creek Pond No. 1. Sand Creek bifurcates this Southern Property, with approximately 20.7 acres lying east of Sand Creek and west of Pony Tracks Drive and approximately 92.8 acres lying west of Sand Creek and east of Tutt Boulevard. The PUD zoning application also incorporates approximately 22 acres of currently City owned property along Tutt Boulevard that was originally envisioned as the Tutt Sports Complex. For reasons further enumerated in the Project Statement, Classic Homes proposes trading this City owned property along Tutt Boulevard in exchange for a larger amount of acreage located within the Northern Property and adjacent to the proposed Coleman Community Park. Please see the attached map of the Southern Property. **(Exhibit “C”)**

ZONING CONTEXT

The site is entirely surrounded by City zone districts with a mix of residential, commercial and associated uses and zones. The easterly edge is predominately residential zone districts, the northern and southern portions of the Property border City owned land and the westerly portion of the Property generally abuts

high density residential, senior housing and commercial zone districts associated with the First and Main commercial development.

ADJACENT ZONING	ZONE DISTRICT
Northwestern Portion of Northern Property	PK SS AO CR, R1-6; City owned Sand Creek Pond 2 and proposed Coleman Community Park
Northeastern Portion of Northern Property	R1-6 DF AO; consisting of single family residential of approximately 3.4-4.2 DUA
Island at Springs Ranch	R1-6 AO DF; consisting of single family residential of approximately 3.9-4.2 DUA
Eastern Portions of Northern Property	PUD AO and R1-6 AO DF; consisting of single family residential of approximately 4.1 DUA, and Townhome/Condos of approximately 8.7-16.1 DUA
Northern Portion of Southern Property	PUD AO; consisting of a neighborhood convenience store
Northwest Portion of Southern Property	PUD AO consisting of an apartment complex of approximately 22 DUA
Western Portions of Southern Property	PBC AO, R5 AO; consisting of First and Main commercial development, senior housing of approximately 19 DUA, apartments of approximately 21 DUA and the southern portions of First and Main commercial development
Southern Portions of Southern Property	A SS AO R1-6; City owned ground containing Sand Creek Pond 1
Eastern Portions of Southern Property	R1-6 DF AO; consisting of single family residential of approximately 4.1-5.4 DUA.

SEE EXHIBIT “D”

PROJECT DESCRIPTION

Greenways at Sand Creek proposes a mix of residential uses within the overall PUD and incorporates such uses within the community and connects them via public roadways, bike lanes, trails, open spaces and parks. It also has a 1.5 acre proposed commercial zone district. The proposed PUD is attached as **Exhibit “B”**. The PUD plan anticipates approximately 170-180 lots located within the zone designation of RM, approximately 25-30 single family alley loaded homes located within the zone designation of RH, approximately 275-300 single family homes located within the zone designation of RH, approximately 140 townhomes within the zone designation of RH and approximately 330 apartments. Additionally, the PUD plan anticipates approximately 7.7 acres of formal parks, 4.5 acres of natural parks, 20-24 acres of open space and 1.5 miles of trails and walking paths, exclusive of sidewalks associated with streets. The density proposed by the PUD Plan is as follows: Greenways North: 3.6 DUA; Greenways East: 4.1 DUA; and Greenways South: 10.2 DUA, exclusive of the tract incorporating Sand Creek and proposed to be deeded to the City, as well as other proposed public park areas and the Commercial Use, for a gross density of 9-

10 DUA. For any portions of the zone districts that fall within the requirements of the City's Streamside Overlay Zone District, these areas have been designated on the attached PUD Plan with an SS designation.

With respect to the Northern Property, the primary east/west access is provided via North Carefree Circle, which will connect to a new proposed right-in right-out intersection at the southeastern edge of the Northern Property. Additional connections are provided into the Northern Property via Showhorse Court and Peterson Road, all as further depicted on the PUD plan. Internal access is proposed with the Northern Property from new internal streets which will be constructed to the proposed development areas. The PUD plan proposes to "ranch restrict" all homes constructed within the Northern Property, which means that the homes will be single story construction limited to 25 feet in height, as calculated under the City Code. It is anticipated that most, if not all, of the homes will have a basement foundation and some of these basements may be "walk outs" depending upon the final grading of the affected areas. The residential zone area for the Northern Property is depicted on the PUD Plan as Residential Medium (RM), with the typical lot anticipated to consist of a 50-foot lot frontage, with a lot depth of 100-120 feet. The developable portion of the Northern Property is anticipated to encompass approximately 35 acres, with approximately 130-134 single family homes, for an overall density of 3.6 DUA. The RM zone designation allows 3-5.5 DUA.

With respect to the Southern Property, the proposed development east of Sand Creek will be accessed via Pony Tracks Drive, an existing residential collector already in existence. The PUD plan proposes to construct approximately 42 residential houses within the 10 acres of developable ground. The PUD plan further proposes to "ranch restrict" all homes constructed within the proposed development east of Sand Creek and to front homes to Sand Creek as preferred under the City's Streamside Overlay zone designation. This area shall be designated RMSS and will allow 3-5.5 DUA.

With respect to the balance of the Southern Property (the proposed development west of Sand Creek) these areas will be accessed via an (1) an improved residential road at the current entrance into the Springs Ranch Clubhouse, which will be extended into the site from the eastern contiguous portion of the First and Main Town Center commercial development and (2) an extension of a residential road from South Carefree Circle into the Southern Property. These access roads will be connected via internal public residential streets. Making such connectivity ensures that the residents of the Southern Property will have direct access to Powers Boulevard from the site via South Carefree Circle.

Within this western portion of the Southern Property, there are approximately 35 acres of proposed RH and RHSS zoning designations, allowing density of single-family homes with 6-12 DUA. These areas will have a mix of single-family products containing 6-12 DUA. Additionally, this western portion of the Southern Property is anticipated to have approximately 2 areas of RH and RHSS zoning designation, each containing approximately 70 townhome or other high-density units, with density in the 6-12 DUA ranges. The southwestern most edge of the Southern Property, consisting of approximately 13 acres fronting on Tutt Boulevard and adjacent to the commercial development of First and Main Town Center, has a proposed zoning designation of RVH and is anticipated to be developed with apartments in the 18-25 DUA range. Finally, this Southern Property will have a formalized neighborhood park and community amenities located on approximately 7.7 acres, along with open space, on-street and off-street bike lanes and trails and associated tracts.

Please refer to the Project Statement document for a further and more detailed project description.

The Zoning and Development Standards for the different land use categories are set out in **Exhibit “F”** and the permitted uses within these use areas are provided in **Exhibit “G”**.

COMPREHENSIVE PLAN COMPLIANCE

Plan COS contains a number of “Big Ideas” that are aspirational for development within Colorado Springs. Greenways at Sand Creek achieves many of these ideals. Plan COS indicates that our City should embrace creative infill, adaptation and land use changes (**PlanCOS Chapter 3, P. 56, Goal UP-2 & Policy UP-2.A**). Greenways at Sand Creek is one of the larger infill projects that exists within Colorado Springs and this PUD will create a diverse, interesting, publicly connected neighborhood that will significantly benefit residents of Colorado Springs while replacing an underutilized, poorly performing public golf course. Other relevant “Big Ideas” include focusing on corridors and centers we need to allow community life to thrive, and suggests achieving this through density, land use diversity and public spaces (**PlanCOS Chapter 3, P. 57, Goal UP-4 & Policy UP-4.A**). Plan COS further promotes providing parks for the people and completing our creeks to make our creeks as multipurpose and accessible corridors (**PlanCOS Chapter 7, P. 147, Goal ML-1 & Policy ML-1.C and Goal ML-3 & Policies ML-3A&B**). Greenways at Sand Creek achieves all of these goals: it contains diverse and interesting housing stock that will be accessible to a variety of household income levels; it has significant public spaces that were previously only accessible to those who paid a green fee; it has proposed community amenities planned to be associated with the park; it contains formal and informal parks that are accessible to all; it celebrates and honors the Sand Creek trail connections, making them accessible and improved for a variety of activities along one of our City’s most important creek corridors.

Plan COS specifically classifies the typology of Springs Ranch as an Established Suburban Neighborhood (**PlanCOS Chapter 5, P. 90, Typology 2**). Plan COS states that new development in such typology should focus on safe connections into and within these neighborhoods and connect to off-street trail connections. This PUD application achieves such goals, as it creates 3 new connections from established street systems into this proposed development and has virtually no impact on neighborhood street systems. Additionally, this PUD application creates trail, open space and bike connections into the existing neighborhoods where none existed before and creates a walkable, bikeable corridor into the restaurants, shopping and entertainment available at First and Main Town Center. It provides for parks to serve not just this proposed development, but surrounding neighborhoods as well. The Sand Creek trail corridor is an important link to the goal of “Completing our Creeks” and this PUD application provides for uninterrupted, public access for multipurpose usage.

Plan COS acknowledges that not all projects fit into one “typology” and certainly Greenways at Sand Creek could be classified additionally as a “Changing Neighborhood” given the proposed change in use of this Property. Plan COS further classifies this type of proposal as a redevelopment or an infill project. For such types of projects, Plan COS suggests that goals of any such proposed development should include redeveloping drainages, increase connectivity between commercial areas and existing and proposed neighborhoods, develop off street trail system and create community centers (**PlanCOS Chapter 5, Typology 3**). Greenways at Sand Creek achieves each and every one of those stated goals.

Please refer to the Project Statement of Greenways at Sand Creek for a more thorough discussion of the many significant ways in which Greenways at Sand Creek meets the Plan COS comprehensive planning criteria.

SUMMARY

This PUD zoning request with Development Standards are in conformance with the City Comprehensive Plan. This Planned Unit Development will create a diverse, interesting, connected neighborhood that will significantly benefit residents of Colorado Springs while replacing an underutilized, poorly performing public golf course. It fully complies with all aspects of the Streamside Zoning Overlay, has incorporated numerous comments from surrounding neighbors and neighborhood associations to provide connectivity, transitions and access throughout the planning area. The land use categories are appropriate and the zone change will enhance the community and will not cause any detriment to the health, safety and welfare of the surrounding area.

COMMENTS: (This is a preliminary listing of issues and attention items; additional issues will likely surface as the application proceeds through the review process):

- The proposed residential development will require the review and approval of a PUD zone change and concept plan. Both applications will be determined by City Council. Should the land swap be considered part of the project's developed area, the swap will need to occur prior to the submission of the entitlement applications. If not approved by time of submittal, the City will need to sign the application.
- The entitlements will need to be accompanied by a traffic study, preliminary drainage report, geological hazard report (small northern parcel), and also discuss channel improvements and streamside requirements.
- All applicable City standard notes and notices must be applied to the concept plan.
- A minimum of 2 neighborhood meetings will need to occur. These meetings can occur prior to or during the project's review.
- As the development is expected to be phased to accommodate the development of different residential products, phasing lines should be provided on the plan with anticipated construction windows.
- It is unclear at this time whether an FIA will be required, as a MP amendment is not required per City Code. City staff will clarify this item at a later date.

NOTE: The above information is intended to assist in the preparation of an application. This sheet is not a complete list of submittal requirements. Refer to the Zoning and Subdivision Ordinances and the appropriate application checklists for further information and details.

This form and the information contained herein is valid for 6 months.

PROJECT BLURB(S)

Provide a project blurb for each application type, adjust language as needed. Note code sections where applicable for variances.

PUD Zone Change

Request by Tom Tauche, Inc., Development Management, Inc. c/o Norwood Development, and City of Colorado Springs, with representation by Classic Consulting Engineers & Surveyors, for approval of a PUD zone change for the Greenways at Sand Creek project. If approved, the proposed zone change would rezone 170.6 acres of land from A/PK/AO/SS (Agricultural and Public Parks with an Airport and Streamside Overlays) to PUD/AO/SS (Planned Unit Development: Single-Family Detached Residential, Multi-Family Residential, and Commercial, maximum building height ranges of 25-50 feet, and density range from 3-25; with Airport and Streamside Overlays). The site is zoned A/PK/AO/SS (Agricultural and Public Parks with an Airport and Streamside Overlays), located east of Tutt Boulevard along a segment of Sand Creek extending to the north and south of North Carefree Circle, and consists of 170.6 acres.

PK Zone Change

Request by Tom Tauche, Inc., Development Management, Inc. c/o Norwood Development, and City of Colorado Springs, with representation by Classic Consulting Engineers & Surveyors, for approval of a zone change for the park site portion of the Greenways at Sand Creek project. If approved, the proposed zone change would rezone 23.5 acres of land from A/PK/AO/SS (Agricultural and Public Parks with an Airport and Streamside Overlays) to PK/AO/SS (Public Parks with Airport and Streamside Overlays). The site is zoned A/PK/AO/SS (Agricultural and Public Parks with an Airport and Streamside Overlays), located east of Tutt Boulevard along a segment of Sand Creek extending to the north and south of North Carefree Circle, and consists of 23.5 acres.

PUD Concept Plan

Request by Tom Tauche, Inc., Development Management, Inc. c/o Norwood Development, and City of Colorado Springs, with representation by Classic Consulting Engineers & Surveyors, for approval of a

[Type text]

PUD concept plan for the Greenways at Sand Creek project. If approved, the proposed plan would establish the development parameters for a residential and commercial development with ancillary public and private site improvements. The site is zoned A/PK/AO/SS (Agricultural and Public Parks with an Airport and Streamside Overlays), located east of Tutt Boulevard along a segment of Sand Creek extending to the north and south of North Carefree Circle, and consists of 194.13 acres.

POSTCARD

Include 3-5 highlighted points to best describe the project.

- This project proposes a development consisting of residential, commercial and park uses, and ancillary public and private site improvements
- Rezone a 23.5-acre parcel for a future park site
- Rezone 170.6 acres to a Planned Unit Development
