Hallgren Vacation Replat, VR-17-005

Please accept the following comments from El Paso County Public Health regarding the 3 commercial lot, 3.85 acre project referenced above:

- **There is a finding for sufficiency in terms of water quality for drinking water obtained from this Colorado Department of Public Health and Environment, Water Quality Control Division, regulated central water supply. The water system is assigned the PWSID# CO-0121125 from the Colorado Department of Public Health and Environment.**
- **Per the Cherokee Metropolitan District letter dated May 23, 2017, and the M&S Civil Consultants, Incorporated letter dated May 2017, there is sufficient wastewater treatment capacity at the Cherokee Water and Sanitation District wastewater treatment facility to treat the projected wastewater flows from these proposed commercial lots.**
- **Radon resistant construction building techniques/practices are encouraged to be used in this area. The EPA has determined that Colorado, and the El Paso County area have potentially higher radon levels than other areas of the country.**
