### **Springs at Waterview Sketch Plan, SKP-17-048**

Please accept the following updated comments from El Paso County Public Health (EPCPH) regarding the project referenced above:

- **Water service for the west side of Waterview will be provided by Security Water District (CO0121775). The east side of Waterview will be provided water by Widefield Water and Sanitation District (CO0121900). There is a finding for sufficiency in terms of water quality for both Security Water District and Widefield Water and Sanitation District.**
- **Any Colorado Department of Public Health and Environment (CDPHE) regulated additions to either of the water systems will require prior CDPHE approval. This likely includes the addition of a water pressure booster pump. Please contact the CDPHE Water Quality Control Division for verification.**
- **Wastewater service for the east side of Waterview will be provided by Widefield Water and Sanitation District. The west side of Waterview will be provided wastewater service by Security Sanitation District.**
- **El Paso County Public Health encourages planned walk-ability of residential communities. Please consider appropriate connections to commercial areas through the use of sidewalks, and bike trails. Walk-ability features help reduce obesity and associated heart diseases.**
- **Earthmoving activities Earthmoving activities greater than 25 acres require a Construction Activity Permit from the Colorado Department of Public Health and Environment, Air Pollution Control Division. Go to the El Paso County Public Health site <http://www.elpasocountyhealth.org/service/air-quality> for the link to the Colorado Department of Public Health and Environment, Air Pollution Control Division, for the permit application.**
