System Installation Requirements:

Thursday, February 25, 2021 11:42 AM - NEIL MAYES

- An Engineered OWTS system to be installed on site due to encountering USDA Soil Type 3A between 6 - 30" and strong cemented sands, requiring a Tier II licensed installer.
- System installation to include pressure dosed chamber in a bed configuration, **MUST** have installation depth of 48" to get to Soil type 2 designed LTAR soil. Minimum tank requirements 1000 gallon, 500 gallon pump station and 525 sq ft of soil treatment area (44 Q4 / 35 Arc 36 chambers required).
- 2 feet of sand will be installed underneath infiltrators to replace the cemented sand. Engineer required to verify gradation 30 days of sand placement as part of final certification
- The system must be installed per approved JDM design document #20-168 stamped and dated 2.4.2021, changes to the approved design document must be submitted and approved by Public Health prior to installation.
- All horizontal setbacks must be maintained through system installation. In addition system must remain completely uncovered, including the tank size, for final inspection.
- The well must be installed at time of final inspection, or final approval will not be given until well installation is verified.
- Engineered systems require the as built drawing and certification letter from the engineer be submitted to Public Health prior to final approval and Regional Building sign off
- Ensure that all work is completed prior to contacting and requesting final line for inspection, otherwise additional fees may be incurred.
- During excavation, if bedrock, groundwater, changes in soil type from that previously identified, or other notable soil changes are encountered, all excavation must cease and EPCPH is to be contacted for an evaluation to determine if additional tests are required
- Issuance of this permit allows construction of the system as proposed. It does not imply or guarantee final system installation approval. System design or construction changes may be required based upon changed or newly discovered site conditions.

This permit is issued in accordance with 25-10-106 Colorado Revised Statutes. The PERMIT EXPIRES upon completion/installation of the Onsite Wastewater Treatment System, or at the end of twelve (12) months from date of issue, whichever occurs first. If both a Building Permit and an Onsite Wastewater Treatment System Permit are issued for the same property and construction has not commenced prior to the expiration date of the Building Permit, the Onsite Wastewater Permit shall expire at the same time as the Building Permit. This permit is revocable if all stated requirements are not met. The Onsite Wastewater Treatment System must be installed by an El Paso County Licensed System Contractor, or the property owner.

The Health Officer shall assume no responsibility in case of failure or inadequacy of an Onsite Wastewater Treatment System, beyond consulting in good faith with the property owner or representative. Access to the property shall be authorized at reasonable time for the purpose of making such inspections as are necessary to determine compliance with the requirements of this law (permit).

Inspection request line: Call (719) 575-8699 before 3:00 p.m. the business day prior to the requested inspection date.
