MEADOWBROOK PARK FILING NO. 1

A REPLAT OF TRACT A, 24/94 BUSINESS PARK FILING NO. 1, ALONG WITH TRACT 1, MEADOWBROOK CROSSING FILING NO. 1 ALONG WITH THE LAND DESCRIBED IN THAT WARRANTY DEED RECORDED UNDER REC. NO. 217105469, ALL BEING A PORTION OF THE SE1/4 OF SECTION 8, TOWNSHIP 14 SOUTH, RANGE 65 WEST OF THE 6TH P.M. COUNTY OF EL PASO, STATE OF COLORADO

SOILS & GEOLOGY, CONDITIONS, CONSTRAINTS, & GEOLOGIC HAZARDS NOTE:

A "Soils and Geology Study for the Meadowbrook Park, 67 Single Family Residential Development, El Paso County, Colorado", was completed by RMG - Rocky Mountain Group, last dated August 26, 2020, Job No. 17164. No lots have been identified by the referenced RMG report as being impacted by geologic hazards. The overall development area has been found to be impacted by the geologic constraints listed below;

- 1. Hydrocompactive soils (moisture sensitive soils)
2. Isolated steep slopes
3. Erosion
4. Faults and seismicity
5. Radon

The constraints listed are not considered hazards, nor are they considered unusual for the Front Range region of Colorado. Appropriate planning and engineering practices have been followed in design of the project to minimize risk associated with the listed constraints. The development is to utilize conventional shallow foundations. Basements are not proposed. No lots have been identified by the referenced RMG report as being adversely impacted by springs or groundwater; groundwater was not encountered in test borings during the field exploration. The RMG report indicates that the soil appears to be well drained, and natural moisture contents were low. Therefore, no perimeter drains are recommended or proposed. Appropriate surface grading and drainage should be established during construction, per the approved civil construction documents, and maintained over the life of the structure by the homeowner. Additional mitigation measures can be found in said report, File PUDSP208, available at the El Paso County Planning and Development Department.
