### Colorado Springs, CO

Planning and Development 30 S. Nevada Ave., Suite 701 Colorado Springs, CO 80903

#### Final Report - Corrections Required Application No. ANEX-24-0006

Report Date: 04/03/2024

Description : Matrix Design Group on behalf of Colorado Springs Equities LLC is submitting a serial annexation petition for seven parcels and Land Use Plan/Rezoning exhibit for a portion of the subdivision known as Rock Creek Mesa. Address : 0 Pawnee RD Colorado Springs CO 80926

Record Type : Annexation

Document Filename : 224.023-SURV-RCM ANNEX PLAT 6.pdf

1	224.023-SURV- RCM ANNEX PLAT 6-TITLE	Zaker Alazzeh : City Eng - Traffic Engineering	<ul> <li>Traffic Engineering has no further comments on this item.</li> <li>DP and TIS Staff Report final comments:</li> <li>1- Traffic Engineering reviewed the Traffic Impact Study (TIS) and determined that the TIS was complete and provided the adequate information and analyses per the requirements of the Traffic Criteria Manual and Traffic Engineering staff. The applicant will be responsible for the TIS recommended traffic mitigation measures and roadway improvements.</li> <li>2- The applicant will be responsible to construct a 190 feet long eastbound left-turn lane "100 feet of storage and 90 feet taper" at Pawnee Road/HWY 115 intersection.</li> </ul>

Comment ID	Page Reference	Reviewer : Department	Review Comments	
			<ul> <li>3- In 2030 the applicant will be responsible to extend 200 feet to the eastbound left-turn lane to provide 300 feet of storage and 90 feet taper at Pawnee Road/HWY 115 intersection.</li> <li>4- In 2045 the applicant will be responsible to construct a double eastbound left-turn lane to provide two 100 feet of storage and 180 feet taper at Pawnee Road/HWY 115 intersection.</li> <li>5- The applicant will be responsible to coordinate roadway improvements along HWY 115/Pawnee Road and HWY 115/Cherokee Road intersections with CDOT.</li> </ul>	
11	224.023-SURV- RCM ANNEX PLAT 6-TITLE	Sara Rivera : City Engineering - SWENT	Please contact the Lead Reviewer, Sara Rivera (sara.rivera@coloradosprings.gov), with any questions. Please reference the Planning review number in all communications.	
12	224.023-SURV- RCM ANNEX PLAT 6-TITLE	Sara Rivera : City Engineering - SWENT	Info Only: All submittals to the Stormwater Enterprise (SWENT), Engineering Development Review Division (EDRD) and Traffic, must be submitted online via the ProjectDox software. Information, including a user manual and the link to the website can be found here: https://coloradosprings.gov/stormwater- enterprise/page/electronic-review-system. Please note that this does not change the Planning department's submittal process in any way.	
13	224.023-SURV- RCM ANNEX PLAT 6-TITLE	Sara Rivera : City Engineering - SWENT	Info Only: The Stormwater Enterprise (SWENT) has recently updated Criteria regarding required submittals. For all Development Plans (DPs) which previously required a Final Drainage Report (FDR) submittal (generally, all DPs with 1 acre or more of earth disturbance proposed), a Preliminary Drainage Report (PDR) submittal is now acceptable instead of an FDR submittal. This change in Criteria allows for such DPs to be approved without requiring detailed, final drainage design calculations at the planning stage of the project.	
			For DPs with less than 1 acre of earth disturbance proposed, a Final Drainage Letter (FDL) submittal is required. A PDR submittal is now acceptable instead of an FDR submittal in support of a Final Plat (FP). The PDR must be approved before the FP can be recorded.	
			An FDR may still be submitted in support of DP or FP approval if final design information is available at the time of the DP or FP submittal. FDR Addendums are no longer accepted. All required final calculations must be included in the FDR prior to FDR approval.	
			FDR approval is still a prerequisite for Construction Drawing (CD) approval (e.g., GEC Plan, Drainage Plan/Profile, PCM Plan, etc.).	
			Master Development Drainage Plans (MDDPs) are no longer required for DPs with 10 or more acres of earth disturbance proposed.	
			Please see SWENT's website for updated checklists: https://coloradosprings.gov/stormwater- enterprise/page/stormwater-review	
14	224.023-SURV- RCM ANNEX PLAT 6-TITLE	Sara Rivera : City Engineering - SWENT	The FEMA floodplain zone is incorrect. Please update to the correct zone.	
2	224.023-SURV- RCM ANNEX PLAT 6-TITLE	Matthew Alcuran : Col Springs Utilities	Please acknowledge the following Water Planning Informational Note: Please refer to the completed Hydraulic Analysis Report completed on November 2, 2023 for HR Green and SSS Education. Conclusions and Requirements: **Modeled fire flows are 2100 to 2200 GPM. No fire flow requirement was provided. **Either alternative presented in this report are acceptable. **Since all pressures are below 170 psi, PVC is acceptable.

6	224.023-SURV- RCM ANNEX PLAT 6-TITLE	Matthew Alcuran : Col Springs Utilities	<ul> <li>Please acknowledge the following: Informational Items:</li> <li>On February 14, 2023, Colorado Springs City Council approved a water service extension ordinance #23-02 (see attached), City Code section 12.4.305, which directly impacts the extension of water service outside city limits, including for proposed annexations. Under this section of City Code, the water service boundary can only be extended to include the proposed annexation(s) if the annexation(s) meet an exception(s) specified in the ordinance. Descriptions and application of each exception(s) are provided below.</li> <li>The area is an enclave (as defined by State law); or</li> <li>Area proposed to be annexed does not appear to be an enclave.</li> <li>The area is owned or leased by the City; or</li> <li>Property is not owned or leased by the City.</li> <li>The extension of water service to the area will have a de minimis impact on the overall City's available water supply; or</li> <li>Based on proposed land use, aggregate projected water demands for Rock Creek Mesa Addition Nos. 2-7 would not have a de minimis impact on the City's available water supply. See analysis below.</li> <li>A unique and extraordinary event or circumstance necessitates an extension of water services to serve critical interests of the City; or</li> <li>No evidence to support unique and extraordinary event or circumstance necessitating extension of water services to serve critical interests of the City; or</li> <li>The City's available water supply is sufficient to meet at least 128% of existing usage (calculated using a five (5) year rolling average of weather normalized unrestricted water usage data) and the projected demand for water services within the proposed extension of service(s), and not less than 25% of the perimeter of the area is contiguous with the City (as defined by State law).</li> <li>Proposed annexation and extension of water service to subject property appears to meet this criteria. Please refere to full analysis below.</li> </ul>
7	224.023-SURV- RCM ANNEX PLAT 6-TITLE	Matthew Alcuran : Col Springs Utilities	Reliably Met Demand, Existing Usage and De Minimis Analysis         Current Reliably Met Demand and Existing Usage         Reliably Met Demand (RMD) 95,000 Acre-feet/year (AFY)         Existing Usage* 69,772 AFY         *5-year-weather-normalized rolling average unrestricted water usage (2019-2023)         Minimum Water Supply Requirement (MWSR)

Comment ID	Page Reference	Reviewer : Department	Review Comments
			Existing Usage (AFY) Percentage MWSR (AFY) 69,772 x 128% = 89,308
			Available Water Surplus (AWS) RMD (AFY) MWSR (AFY) AWS (AFY) 95,000 - 89,308 = 5,692
			De Minimis Calculation AWS (AFY) Percentage De Minimis (AFY) 5,692 x 1% = 57
			Proposed Annexation's Projected Water Demand Property Acreage Projected Water Demand (AFY)* 109.2300 95
			* Aggregate across Addition Nos. 2-7 based on proposed land use(s)
			Proposed Annexation's Projected Water Demand Projected Water Demand (AFY) De Minimis (AFY) 95 > 57
			Proposed extension of water service does not meet de minimis impact to City's available water supply criteria.
			128% Water Surplus Analysis MWSR (AFY) Projected Water Demand (AFY) Total (AFY) 89,308 + 95 = 89,403
			128% Water Surplus Analysis Total (AFY)  RMD (AFY) 89,403 < 95,000
			Proposed extension of water service currently meets 128% Water Surplus criteria*
			*RMD and existing usage are updated periodically and are subject to change. Owner acknowledges that the assumptions, calculations and analyses performed and shown above are based on the information available as of the date of this review and may require recalculation and re-analysis subject to any update(s) to policy, existing usage, RMD and/or AWS prior to any presentation(s) to Utilities Board, City Planning Commission or City Council.
			25% Contiguity Analysis
			Applicant has provided a survey and/or plat that appears to demonstrate that the property proposed for annexation meets this exception. See analysis below.
			Please note that in March 2024, staff is presenting several proposed City Code changes to City Council that would directly impact section 12.4.305, specifically:
			<ul> <li>Removal of the recommendation of approval by the Utilities Board</li> <li>Removal of the 25% contiguity requirement</li> <li>If approved, these requirements would no longer apply.</li> </ul>
