Helton Mini Storage Minor Subdivision, MS-17-004

Please accept the following comments from El Paso County Public Health for the 7.6 acre, 1 acre, minor subdivision project referenced above:

- Water and wastewater services are not proposed for this temporary storage facility. Water is proposed to be provided by purchasing bottled water and a portable toilet will be used for the office workers during business hours. El Paso County Public Health can approve other methods of wastewater treatment for longer-term, waterless wastewater service when the proposed operation can no longer be considered temporary.
- El Paso County Public Health can only approve portable toilets for temporary usage only, e.g. construction projects, outdoor events, and similar temporary use.
