SUBJECT: Nationwide Permit (NWP) Verification – Action No. SPA-2017-00088, SPA-2017-00088 Cascade Metropolitan District No. 1 - Cascade & Fountain Creek Pipeline Crossings, El Paso County, Colorado

Ken White
GMS, Inc.
611 North Weber, Suite 300
Colorado Springs, CO 80903

Mr. White:

This letter responds to your March 21, 2018 pre-construction notification for permit requirements for the Cascade Metropolitan District pipeline crossing project.

- Cascade Creek Pipeline Crossing located at approximately latitude 38.8955 N, longitude -104.9753 W, in El Paso County, Colorado.
- Fountain Creek Pipeline Crossing located at approximately latitude 38.8944 N, longitude -104.9701 W in El Paso County, Colorado.

The work as described in your submittal will consist of water system improvements for the Cascade Metropolitan District's existing drinking water system. This includes an open-cut construction crossing at Cascade and Fountain Creeks at two separate locations to install a water main pipeline to replace the existing one.

We have assigned Action No. SPA-2017-00088 to these two projects. Please reference this number in all future correspondence concerning the project.

Based on the information provided, we have determined that the two project locations are authorized by NWP 12 Utility Line Activities, with the following special condition.

- All pre-construction elevations will be placed back to pre-construction elevation conditions at the completion of the activities. Reseeding with native plants and stabilizing the area crossings will be required.

A summary of this permit and the Colorado Regional Conditions are available on our website at <http://www.spa.usace.army.mil/Missions/Regulatory-Program-and->

[Permits/NWP/](http://www.spa.usace.army.mil/Missions/Regulatory-Program-and-Permits/Water-Quality-Certification/). Please refer to our website at <http://www.spa.usace.army.mil/Missions/Regulatory-Program-and-Permits/Water-Quality-Certification/> for specific information regarding compliance with state water quality certification (WQC) requirements. The permittee must ensure that the work complies with the terms and conditions of the permit, including Colorado Regional Conditions and WQC.

Our review of this project also addressed its effects on threatened and endangered species and historic properties in accordance with general conditions 18 and 20. Based on the information provided, we have determined that this project will not affect any federally listed threatened or endangered species or any historic properties listed, or eligible for listing, in the National Register of Historic Places. However, please note that the permittee is responsible for meeting the requirements of general condition 18 on endangered species and general condition 20 on historic properties.

This verification is only valid for the project as described in your submittal. Appropriate erosion and sediment controls should be implemented to ensure that construction materials and/or activities do not enter any wetlands or other waterbodies beyond the scope of the authorization. If there are any changes in the project purpose, location, or design, you should contact our office for a reevaluation of Department of the Army permit requirements.

This letter does not constitute approval of the project design features, nor does it imply that the construction is adequate for its intended purpose. This permit does not authorize any injury to property or invasion of rights or any infringement of federal, state or local laws or regulations. The permittee and/or any contractors acting on behalf of the permittee must possess the authority and any other approvals required by law, including property rights, in order to undertake the proposed work.

This permit verification is valid until March 18, 2022 (33 CFR 330.6), unless the nationwide permit is modified, suspended, revoked or reissued prior to that date. Continued confirmation that an activity complies with the terms and conditions, and any changes to the nationwide permit, is the responsibility of the permittee. Activities that have commenced, or are under contract to commence, in reliance on a nationwide permit will remain authorized provided the activity is completed within 12 months of the date of the nationwide permits expiration, modification, or revocation.

Within 30 days of project completion, the permittee must fill out the enclosed Certification of Compliance form and return it to our office. The landowner must allow Corps representatives to inspect the authorized activity at any time deemed necessary to

ensure that it is being, or has been, accomplished in accordance with the terms and conditions of the nationwide permit.

If you have any questions, please contact Tony Martinez at (719) 543-8102 or by e-mail at Joseph.A.Martinez@usace.army.mil.

At your convenience, please complete a Customer Service Survey on-line available at http://corpsmapu.usace.army.mil/cm_apex/f?p=136:4:0.

Sincerely,

Van A. Truan,
Chief, Southern Colorado
Regulatory Branch
