Edit note 5 to reflect verbiage below:

This property is not located within a designated FEMA Floodplain as determined by the Flood Insurance Rate Map, Community Map Number _____, effective date ____ (modification when LOMR has been approved) and as amended by the FEMA approved Letter of Map Revision (LOMR) case number _____ dated _____.

A statement by the land surveyor explaining the basis of bearing. Assumed bearings shall not be used. The existing monuments that define the reference line shall be included on the exemption plat. One of the following methods of establishing a basis of bearing shall be used: (1) solar or polaris observation - the date of the observation and the method used shall be included in the basis of bearing note; or (2) GPS observations on the monuments at each end of the reference line. (Note: The observations shall be of sufficient time to ensure an accurate bearing. The methodology and length of the observation session shall be included in the basis of bearing note).

AS REPLATTED

Please revise note 10 to reflect verbiage below:

Sewage treatment is the responsibility of each individual property owner. The El Paso County Department of Health and Environment must approve each system and, in some cases the Department may require an engineer designed system prior to permit approval. These systems may cost more to design, install, and maintain. Soils and Geology conditions on site require that all (or certain lots) On-Site Wastewater Systems shall be located and designed by a Professional Engineer, currently registered in the State of Colorado. (Note: this note used in special cases only when requested by the Health Department or pursuant to a condition of approval)

If the property is served by a well, then we will need the following note to be added to the plat:

Individual wells are the responsibility of each property owner. Permits for individual wells must be obtained from the State Engineer who by law has the authority to set conditions for the issuance of these permits.

Add " PCD File No. VR-21-003".
