2. Proposed Activity or Development.

Triview Metropolitan District (the District) proposes to construct the Northern Delivery System (NDS) with the intent to bring renewable water to Northern El Paso County municipal customers. Existing infrastructure will be utilized to capture, convey, treat, and deliver surface water to the north end of the Colorado Springs Utilities (Springs Utilities) service area at a location known as the CSU Highway 83 Storage Tank. The proposed NDS project will convey water from the Springs Utilities' Highway 83 Storage Tank through a pump station, and transmission main, at which point it will be delivered to existing Triview Metropolitan storage tank for distribution to customers of Triview Metropolitan District, Forest Lakes Metropolitan District and any other entities that choose to participate. Some additional infrastructure may be needed to capture, convey or deliver to additional entities. The proposed NDS facilities are located within the jurisdictional boundaries of both El Paso County (EPC) and the Town of Monument.

3. Location of Development: new tank ?

The parcel of land on which the booster pump station will be constructed is located east of the intersection of Old Northgate Road and Highway 83. The pipeline route begins at the booster pump station and proceeds west across private property and then continues west within the Old Northgate Road right of way, north within the Roller Coaster Road right of way, west within the Baptist Road right of way and private property until it reaches land within the Town of Monument jurisdiction.

4. Legal Descriptions for Portions of the Property located on private land:

a) Booster Station and Pipeline Easement on City of Colorado Springs Property referenced by Schedule 6203000002
