This letter is being written to serve as a letter of commitment for emergency services coverage for: Trails at Aspen Ridge filling no. 2

The service provided will include structure and wildland fire coverage, response to medical situations, plan reviews, and fire inspections.

We have also reviewed the preliminary concept layout with street access. At this time we are giving our approval for the street and hydrant layout, with the already stated fire lanes/ not parking signs that are on the plans.

If you have any questions please feel free to contact me.

Thank you,
David Girardin
