• **SPECIALIZING IN DESIGN / BUILD** •

Subdivision Improvement Agreement

We feel this is not required since no improvements are needed until the Site Development application is submitted. With this application we will have financial assurance to cover costs.

If staff feels we need this document, we would like to defer until 2nd round when we know what improvement needs to be included for this document.

Off-site improvements may be required and is pending the design engineer's analysis to provide a suitable outfall location.
