Hi Nina and Gilbert,

Thank you so much for meeting with me and Lance last week to discuss the new phasing plan for the RV Park. Attached is a drawing showing the area to be developed outlined in red which includes about 2/3 of the finished storage area, 12 complete RV sites, full east detention pond, temporary construction road (first 50' paved), fire suppression water tank and pump house.

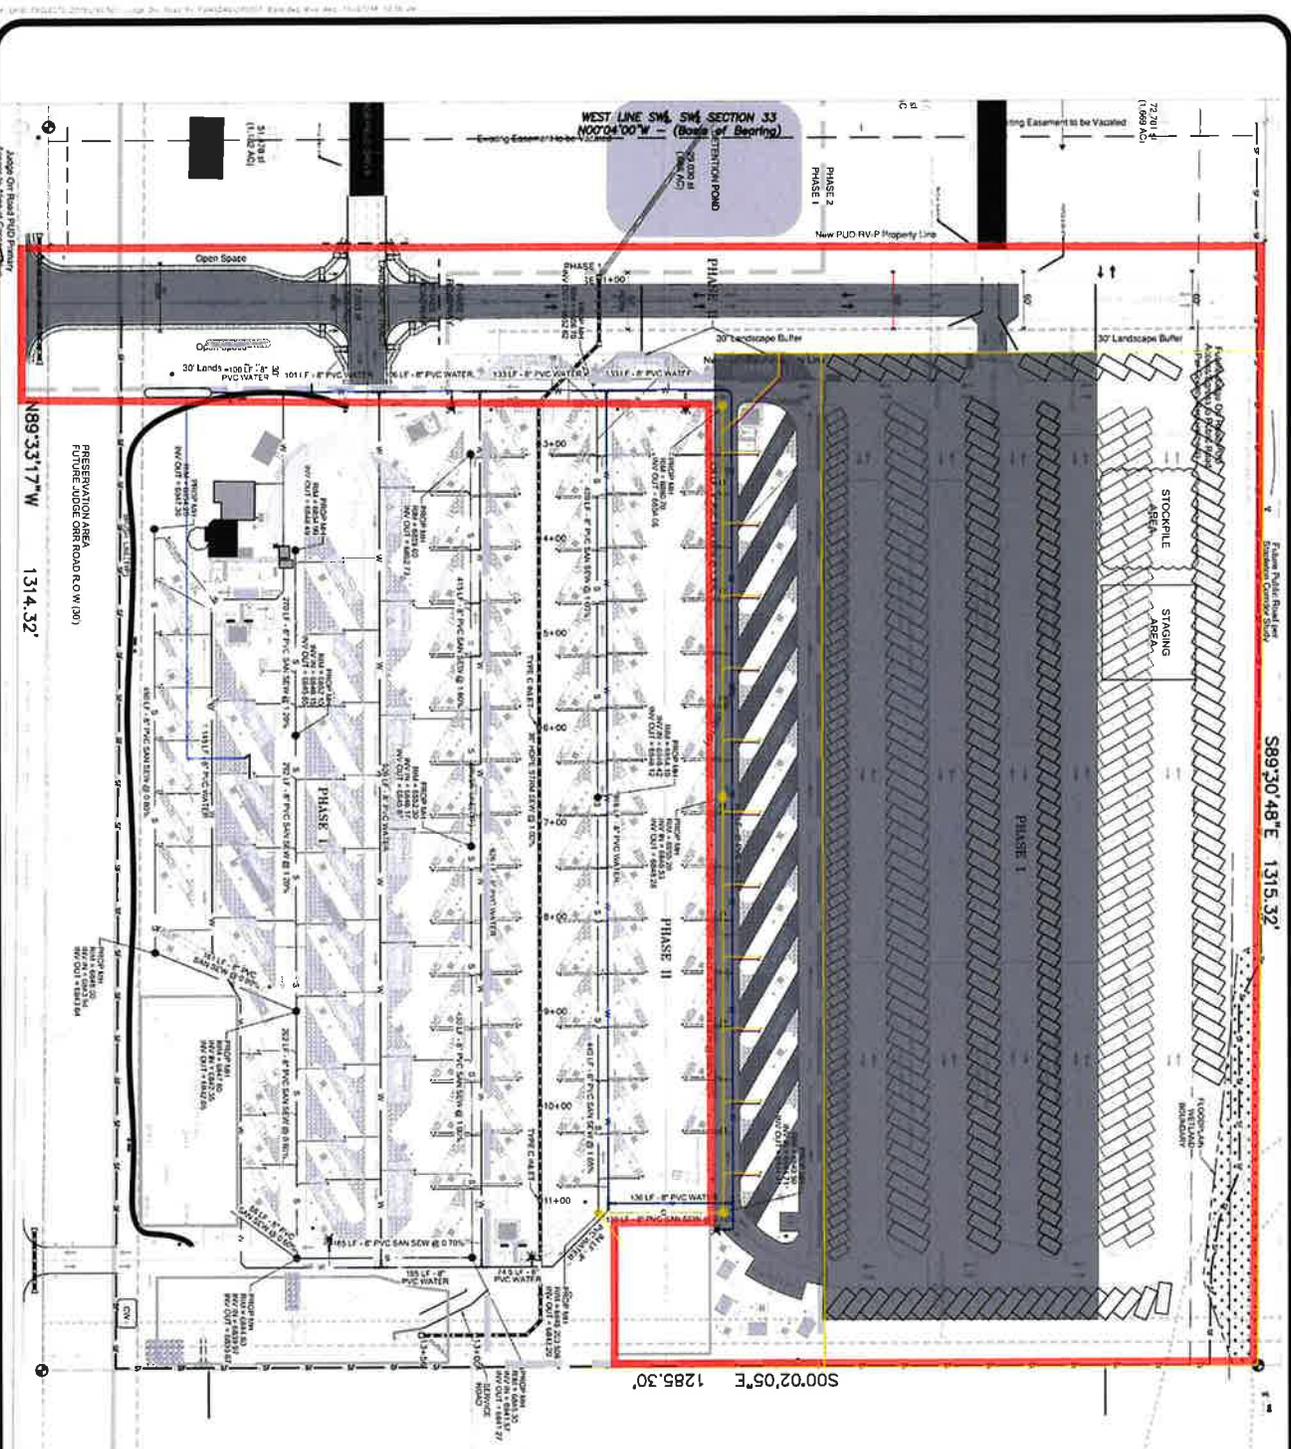

It is my intention to secure financing by end of February, upload all requested documents via EDARP by end of March, and obtain construction permits by end of April.

I would like to request the 6 month extension to obtain the construction permits and thank you and Craig for working with me.

Have a wonderful Christmas!
