Good morning,

We had a couple questions in regards to the rezoning of the 350 acres near Homestead Regional Park from A-35 to RE-5. We appreciate your time taking our concerns and questions into consideration.

1. We believe that equestrian easements should be installed between the new homes potentially being built. This is a very strong equestrian community and by not putting easements in, it restricts everyone else from having access to the Homestead Park. It is dangerous for riders on horseback to have to take busy roads in order to access the open space.
2. There is a lot of wildlife on that land. Has a study on endangered species been done prior to building homes and possibly destroying habitats?

Thank you kindly,
Neighbors Cody and Grace Davis
