**Commissioner District: 2**

<b>Planning Commission Hearing Date:</b>	<b>9/7/2023</b>
<b>Board of County Commissioners Hearing Date:</b>	<b>9/28/2023</b>

**EXECUTIVE SUMMARY**

A request by Oliver Watts Consulting for approval to Vacate and Replat one (1) commercial lot into three (3) commercial lots. The 5.55-acre property is zoned CR (Commercial Regional) and is within the CAD-O (Commercial Airport Overlay District)is the property is located at the intersection of North Powers Boulevard and Palmer Park Boulevard. The property is improved with three buildings and associated parking. The replat will enable each business owner to own their building and the property on which it is located. No new construction is anticipated at this time.

**A. WAIVERS/DEVIATIONS/AUTHORIZATION**

**Waiver(s)/Deviation(s):** None associated with this project.

**Authorization to Sign:** Final Plat and any other documents necessary to carry out the intent of the Board of County Commissioners.

**B. APPROVAL CRITERIA**

Section 7.2.3.C, Actions Vacating or Altering a Recorded Plat, Replat, of the El Paso County Land Development Code (As Amended) (“Code”) states that a replat, “involves two actions, the vacation of the portion of the subdivision plat where the change is proposed...and approval of a new subdivision plat.” The Code goes on to define a replat as providing a replat of a subdivision or lots in a subdivision, in which the original subdivision is substantially modified, or additional lots are created. In approving a replat, the following findings shall be made:

- The replat complies with the Code, and the original conditions of approval associated with the recorded plat;
- No nonconforming lots are created, and in the case of existing nonconforming lots, the nonconformity is not increased;
- The replat is in keeping with the purpose and intent of the Code;
- The replat conforms to the required findings for a minor or major subdivision, whichever is applicable;
- Legal and physical access is provided to all parcels by public rights-of-way or recorded easement, acceptable to the County in compliance with the Code and the ECM;
- The approval will not adversely affect the public health, safety, and welfare; and
- Where the lots or parcels are subject to any CC&Rs or other restrictions, that any potential conflict with the CC&Rs or other restrictions resulting from the replat has been resolved.

**C. LOCATION**

PLNWEB@ELPASOCO.COM

## D. BACKGROUND

The subject property was originally platted October of 2007, under the name “Powers Centre Filing No. 3”, Plat number 8998. The subject property is surrounded by industrial and commercial zoning and uses. The applicant is requesting the Vacation and Replat to create individual lots for each building, allowing each building owner to then purchase the individual lot on which their business is located.

## E. ANALYSIS

### 1. Land Development Code Compliance

The subject property will meet the zoning requirements for CR and will align with the general character of the zoning district and surrounding area. Additionally, the current store does not intend any new construction. The replat has met all required findings that are necessary for a Vacate and Replat. Each lot owner will adhere to the parking agreement known as “Reciprocal Access/Parking Agreement” which can be found in the covenants that were recorded October 13, 1982, in Book 3621 at Page 592. An amendment was recorded December 3, 1985, in Book 5095 at Page 982.

### 2. Zoning Compliance

The replat will create three lots that conform to the standards of the CR (Commercial Regional) zoning district. The CR (Commercial Regional) zoning district density and dimensional standards are as follows:

- Width (front line setback): none
- Front setback (3,4,11): 50 ft
- Side setback (2,3,4,11): 25 ft
- Rear setback (2,3,4,11): 25 ft
- Maximum Lot Coverage: None
- Maximum Height: 45 ft

*2 The minimum setback is 25 feet from the perimeter boundary of the district, but no minimum setback is required from any internal side or rear lot line within the same district.*

*3 Temporary uses shall be setback at least 25 feet from all property lines and 100 feet from Residential zoning districts.*

*4 Gasoline pumps and canopies shall be setback at least 25 feet from all property lines.  
11 If the building is established as or converted to condominium units in accordance with Chapter 7 of this Code, the building and lot shall meet the minimum lot area*

*and setbacks, but the individual units are not required to meet the minimum lot area, maximum lot coverage, or setback requirements.*

## **F. MASTER PLAN COMPLIANCE**

### **1. Your El Paso County Master Plan**

#### **a. Placetype Character:** Employment Center

*Employment Centers comprise land for industrial, office, business park, manufacturing, distribution, warehousing, and other similar business uses. The priority function of this placetype is to provide space for large-scale employers to establish and expand in El Paso County. They are typically located on or directly adjacent to Interstate 25 and/or other regional corridors to ensure business and employee access.*

*Proximity to other transportation hubs, such as Meadowlake Airport, and rail lines is also appropriate for an Employment Center. Uses in this placetype often require large swaths of land and opportunity to expand and grow to meet future needs and demands. Transitional uses, buffering, and screening should be used to mitigate any potential negative impacts to nearby residential and rural areas. Some Employment Centers are located in Foreign Trade, Commercial Aeronautical, and Opportunity Zones to help incentivize development.*

#### **Recommended Land Uses:**

##### *Primary*

- *Light Industrial/Business Park*

##### *Supporting*

- *Commercial Retail*
- *Commercial Service*
- *Restaurant*

Please see the map series attachment for a depiction of the placetype character in the area.

#### **Analysis:**

The subject property has a commercial business on it and is taking one lot a creating three so that each business can have their own lot and be responsible for that specific lot. These lots each have a commercial business which is supported by the character and land uses in the Master Plan. This property has a “Short Stop

2880 INTERNATIONAL CIRCLE  
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910  
PLNWEB@ELPASOCO.COM

Burgers” restaurant at the site, this is a commercial business that serves the community. This is consistent with the supporting uses in the Employment Center placetype character.

**b. Area of Change Designation:** Transition

*Transition areas are fully developed parts of the County that may completely or significantly change in character. In these areas, redevelopment is expected to be intense enough to transition the existing development setting to an entirely new type of development. For example, a failing strip of commercial development could be redeveloped with light industrial or office uses that result in a transition to an employment hub or business park. Another example of such a transition would be if a blighted suburban neighborhood were to experience redevelopment with significant amounts of multifamily housing or commercial development of a larger scale in line with a commercial center.*

Please see the map series attachment for a depiction of the area of change designation in the area.

**Analysis:**

While this project does not propose any new development, it is expected within this area of change. There is potential for growth within this area, due to the vacant lots near the subject area. The surrounding parcels have potential for new development and redevelopment.

**c. Key Area Influences:** Colorado Springs Airport/Peterson Air Force Base

*Colorado Springs Airport is the second largest in the State of Colorado with continually rising passenger totals and activity. Currently, large amounts of land adjacent to the airport are primed for commercial and industrial development, in part due to the establishment of a Commercial Aeronautical Zone (CAZ). The Board of County Commissioners approved the CAZ to attract local businesses and spur development on the available land. The County should continue to prioritize nonresidential growth in this area to help expand the Employment Center in unincorporated El Paso County. Employment Centers not only provide additional job opportunities for County residents but it expands the County’s tax base, providing more opportunities to address other County issues such as upgrades to infrastructure, expansion of services and development of new roadways. Peterson Air Force Base also utilizes the Colorado Springs Airport for military flight operations and hosts various military activities critical to national security. The County should also coordinate future development adjacent*

*and within the Colorado Springs Airport Accident Potential Zone (APZ) and within the Peterson Air Force Base buffer area with the Airport and the Base to ensure growth does not negatively impact the primary functions of Peterson Air Force Base or the Airport. Coordination with Colorado Springs Airport should also be considered, as necessary.*

Please see the map series attachment for a depiction of the key area designation in the area.

**Analysis:**

The key area supports growth in this area and mentions the growth mainly being for commercial or employment opportunities. This key area offers to prioritize employment opportunities. While this project does not intend for new construction, it does offer employment opportunities and has brought more commercial growth to the area. Approval of this Vacation and Replat would allow the proprietors of these businesses the potential to own the property associated with their business.

**d. Other Implications (Priority Development, Housing, etc.)**

Not applicable.

**2. Water Master Plan Analysis**

The El Paso County Water Master Plan (2018) has three main purposes; better understand present conditions of water supply and demand; identify efficiencies that can be achieved; and encourage best practices for water demand management through the comprehensive planning and development review processes. Relevant policies are as follows:

***Goal 1.1** – Ensure an adequate water supply in terms of quantity, dependability and quality for existing and future development.*

***Policy 2.1.3** – Communicate and gather input on complex, and at times, contentious water and land use considerations.*

***Goal 4.1** – Develop an understanding of the differences in water supply sources, and any water quality issues within the County.*

The Water Master Plan includes demand and supply projections for central water providers in multiple regions throughout the County. The property is located within Planning Region 5 of the Plan, which is an area anticipated to experience growth by

2880 INTERNATIONAL CIRCLE  
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910  
PLNWEB@ELPASOCO.COM

2040. The following information pertains to water demands and supplies in Region 5 for central water providers:

The Plan identifies the current demand for Region 5 to be 4,396 acre-feet per year (AFY) (Figure 5.1) with a current supply of 4,849 AFY (Figure 5.2). The projected demand in 2040 for Region 5 is at 6,468 AFY (Figure 5.1) with a projected supply of 68,000 AFY (Figure 5.2) in 2040. The projected demand at build-out in 2060 for Region is 5 is at 9,608 AFY (Figure 5.1) with a projected supply of 10,131 AFY (Figure 5.2) in 2060. This means that by 2060 a surplus of 523 AFY is anticipated for Region 5.

### 3. Other Master Plan Elements

The El Paso County Wildlife Habitat Descriptors (1996) identifies the parcel as having a low wildlife impact potential. Colorado Parks and Wildlife have no outstanding comments.

The Master Plan for Mineral Extraction (1996) identifies no significant resources in the area of the subject parcel. A mineral rights certification was prepared by the applicant indicating that, upon researching the records of El Paso County, no severed mineral rights exist.

Please see the Parks Section below for information regarding conformance with The El Paso County Parks Master Plan (2022).

Please see the Transportation Section below for information regarding conformance with the El Paso County 2016 Major Transportation Corridors Plan (MTCP).

## G. PHYSICAL SITE CHARACTERISTICS

1. **Hazards:** No hazards were found to be associated with this project.
2. **Floodplain:** FEMA Flood Insurance Rate Maps, 08041C0751G and 08041C0752G, indicate that the property is outside of a floodplain. There are no expected impacts from this application to a floodplain.
3. **Drainage and Erosion:** The property is located within the Sand Creek Drainage Basin (FOFO2000) and is currently platted as Lot 1 Powers Centre Filing No. 3. Drainage basin fees are not assessed with this Vacation and Replat request in accordance with El Paso County's ECM Appendix L.3.13a since there is no increase in impervious cover.

2880 INTERNATIONAL CIRCLE  
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910  
PLNWEB@ELPASOCO.COM

The applicant was not required to submit a drainage report or grading and erosion control plan as there is no proposed land disturbance resulting from the Vacation and Replat to create two new parcels for existing businesses located on the site. The property is comprised of existing pavement, roofs, and structures. Drainage from the site flows south towards Omaha Boulevard. The applicant confirmed in their letter of intent that there are no planned improvements or offsite impacts resulting from the replat.

- 4. Transportation:** The property is an existing shopping center northeast from the intersection of Powers Boulevard and Omaha Boulevard. Powers Boulevard is a Colorado Department of Transportation (CDOT) owned and maintained roadway classified as a Principal Arterial. There is currently no direct access from Powers Boulevard to the property nor is direct access allowed. Omaha Boulevard is an El Paso County owned and maintained collector roadway. The property obtains access through Omaha Boulevard and Palmer Park Road through a shared access easement. Traffic is not expected to increase due to the replat and the applicant has stated in their letter of intent that traffic patterns will not be changing.

The development is subject to the El Paso County Road Impact Fee program (Resolution 19-471), as amended.

## H. SERVICES

### 1. Water

Sufficiency:

Quality: Sufficient

Quantity: Sufficient (Conditional)

Dependability: Sufficient (Conditional)

Attorney's summary: The State Engineer's Office has made a finding of adequacy and has stated water can be provided without causing injury to decreed water rights.

El Paso County Public Health has made a favorable recommendation regarding water quality sufficiency.

The County Attorney's Office has made a recommendation for a finding of conditional sufficiency with regards to water quantity and dependability. The condition is as follows:

2880 INTERNATIONAL CIRCLE  
OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910  
PLNWEB@ELPASOCO.COM

Applicant must obtain final plat approval and provide evidence thereof to the District within 12 months of the District's commitment letter dated February 17, 2023 (approval must be provided by February 17, 2024), to retain the District's water commitment. If Applicant fails to do so, this recommended finding of conditional sufficiency will be deemed moot and no longer valid. Once Applicant provides proof to the District that satisfies the District's condition of final plat approval, this conditional finding of sufficiency will automatically convert to a full sufficiency finding.

**2. Sanitation**

Sanitation is provided by Colorado Springs Utilities.

**3. Emergency Services**

The property is within the Cimarron Hills Fire Protection District.

**4. Utilities**

Colorado Springs Utilities

**5. Metropolitan Districts**

Cherokee Metropolitan District

**6. Parks/Trails**

For this application there are no regional or urban park fees required, as the Board of County Commissioners have elected to not require park fees for commercial applications.

**7. Schools**

Commercial uses do not require a school fee to be paid.

**I. APPLICABLE RESOLUTIONS**

See attached resolution.

**J. RECOMMENDED CONDITIONS AND NOTATIONS**

Should the Planning Commission and Board of County Commissioners find that the request meets the criteria for approval outlined in Section 7.2.3.C, Actions Vacating or Altering a Recorded Plat, Replat, of the El Paso County Land Development Code (As Amended), staff recommends the following conditions and notation:

## CONDITIONS

1. All Deed of Trust holders shall ratify the plat. The applicant shall provide a current title commitment at the time of submittal of the Mylar for recording.
2. Colorado statute requires that at the time of the approval of platting, the subdivider provides the certification of the County Treasurer's Office that all ad valorem taxes applicable to such subdivided land, or years prior to that year in which approval is granted, have been paid. Therefore, this plat is approved by the Board of County Commissioners on the condition that the subdivider or developer must provide to the Planning and Community Development Department, at the time of recording the plat, a certification from the County Treasurer's Office that all prior years' taxes have been paid in full.
3. The subdivider or developer must pay, for each parcel of property, the fee for tax certification in effect at the time of recording the plat.
4. Driveway permits will be required for each access to an El Paso County owned and maintained roadway. Driveway permits are obtained from the El Paso County Planning and Community Development Department.
5. The Subdivider(s) agrees on behalf of him/herself and any developer or builder successors and assignees that Subdivider and/or said successors and assigns shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program Resolution (Resolution No. 19-471), or any amendments thereto, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documented on all sales documents and on plat notes to ensure that a title search would find the fee obligation before sale of the property.
6. Applicant shall comply with all requirements contained in the Water Supply Review and Recommendations, dated June 15, 2023, as provided by the County Attorney's Office.

## NOTATION

1. Final plats not recorded within 24 months of Board of County Commissioner approval shall be deemed expired unless an extension is approved.

## **K. PUBLIC COMMENT AND NOTICE**

The Planning and Community Development Department notified twenty-three (23) adjoining property owners on August 18, 2023, for the Planning Commission and Board of County Commissioners meetings. Responses will be provided at the hearing.

May 15, 2023

El Paso County Development Services  
2880 International Circle  
Suite 110  
Colorado Springs, CO 80910

**SUBJECT:** Powers Centre Filing 3A, a minor Subdivision Plat to Lot 1 Powers Centre Filing No 3, splitting 1 Lot into 3 Lots

Lot 1 Powers Centre Filing No 3 is a commercial shopping center that is located east and south of the intersection of Powers Boulevard and Palmer Park Boulevard.

**Owner information:**

Michael J. Nisenbaum  
5030 Boardwalk Drive, Suite 200  
Colorado Springs, CO 80919  
(719) 640-7388  
[mike@mjnmgmt.net](mailto:mike@mjnmgmt.net)  
Assessor's Parcel No.: 5406304050  
Existing zone: CR CAD-0

**History:**

This site is a developed section of land located in the eastern portion of unincorporated Colorado Springs. According to the County Master Plan, the site is classified as an Employment Center that falls within the Cimarron Hills "larger urban enclave" area.

There is currently a shopping center on the site with multiple tenets/uses.

The site is surrounded on all sides by other plots of developed land. These sites are used much in the same way as this, as commercial sites.

**Request and Justification:**

Our intent is to subdivide this existing property into 3 commercial use lots. The proposed minor subdivision is compatible with the surrounding properties. The lots will be consistent with the CR CAD-0 zoning with respect to lot layout, land use, lot size, minimum building setbacks, water supply and wastewater disposal.

Water and Sewer:

A sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. §30-28-133(6)(a)] and the requirements of Chapter 8 of this Code. Water and Waste water services are currently provided by Cherokee Water. There will be no change to either. According to the County Master Plan, this site falls within Projected Growth Area Region 5. According to the State Division of Water Resources, this site sits in Water Division 2, Water District 10. Water usage will not exceed Cherokee Water’s statutory allotment. The site is on Central Sewer, provided by Cherokee Metro district. The existing sewage disposal system complies with State and local laws and regulations, [C.R.S. §30-28- 133(6)(b)] and the requirements of Chapter 8 of this Code. It is operated under State and County Health Department rules and regulations and in accordance with the Water Decree.

A listing of some of the policies of the Water Master Plan that are supported by the proposed development follow: Policy 4.1.3 – Support enhanced monitoring of sources of surface and tributary groundwater in the County. The existing commercial buildings will utilize Cherokee Water for any waste water treatment.

Electric:

Electric will be provided by the City of Colorado Springs per their commitment letter on January 10<sup>th</sup>, 2023. Said letter has been submitted with the subdivision packet.

Gas:

Gas will be provided by the City of Colorado Springs per their commitment letter on January 10<sup>th</sup>, 2023. Said letter has been submitted with the subdivision packet.

Traffic Generation:

There will be no new traffic generation as a result of this subdivision. Nothing is changing about the current businesses, no new grading, building or anything else that would increase the traffic generated for the site. The only thing that is changing is the location of the Lot lines. Therefore, a Transportation Impact Study (TIS) is not required for the project. This development is subject to fees established by the El Paso County Road Impact Fee Program per El Paso County Resolution Number 19- 471. Traffic Impact Fees will be paid at time of building permit.

FEMA Floodplain:

Per FEMA Panels 08041CO751G and 08041CO752G, this site is not within the limits of a 100yr floodplain.

Stormwater runoff / drainage

There will be no change in the current runoff patterns caused by this resubdivision and therefore no adjacent properties will be adversely affected by the land action. See the statement below in CH 7.

Request of Subdivision Applicability per LDC Chapters 7&8:

This proposed subdivision will be dividing the current 1 lot into 3 commercial lots compatible with zoning CR CAD-0. Two of the lots will surround existing businesses and the third will consist of the remaining subdivided land.

- CH 7:

- A Preliminary plan is not required as this is a “minor subdivision”.
  - The subdivision is consistent with all design standards and regulations.
  - The new lots are already served by Cherokee water for water and wastewater services. There will be no change to this.
  - There are no geological hazards present on the site or special precautions relevant to the site as it is already developed.
  - There are no drainage improvements required for the lots. Nothing is changing, only new lot lines are being drawn.
  - The site already falls under the jurisdiction of EPSO and is within the Cimarron Hills Fire Protection District.
  - The site complies with methods of fire protection as outlined in Chapter 6. A Letter will be included to show evidence of this.
  - There will be no offsite impacts as a result of this subdivision.
  - There are no required public facility improvements for this subdivision.
- CH 8:
- The land is suitable for development as the entire area is already commercially developed.
  - The land is safe for the intended purposes of commercial development. There are no known major geological hazards that affect this site.
  - There are no slopes over 30% on the proposed lots or any other known extreme geological hazards affecting this site.
  - Regarding roads and access, there are two major thoroughfares running to the north and west of the site. There is existing access from Palmer Park Boulevard to the north and Omaha Boulevard to the south.
  - There are no plans to alter the landscape of the new lots.
  - As far as we are aware, there are no structures or other areas located on the site that would qualify as archeological or historical.
  - As far as we are aware, there are no plans for differing land use on these lots.
  - According to the County Master plan, this site is designated as one of the “most likely” areas for a plane crash, therefore residential development is discouraged. This is not an issue because this site is purely commercial in nature. Development will comply with existing APZ’s.
  - As far as we are aware, there are no endangered species affected by these proposed changes.
  - As stated previously, this site is not within the limits of a 100yr floodplain per FEMA Panels 08041CO751G and 08041CO751G.
  - The current lot does sit near to a major arterial (Powers Boulevard) but nothing is being changed or added to the site aside from new lot lines. Therefore, we do not need to worry about noise mitigation.
  - The current and proposed lots are not situated anywhere near a railroad.
  - This site is not located near enough to any major military outpost or installation and thus does not fall under any constraints detailed in LDC chapter 8.

Constraint’s/Hazards:

As far as we are aware, there are no special features to this site that would result in constraints or hazards preventing development of the proposed new 3 lots.

Proposed Improvements:

The overall goal of this subdivision is to split the existing site into 3 lots. Nothing about the commercial businesses on the lots will be changing aside from a possible change in ownership. Tenants on the existing lot wish to own their respective portion of the lot outright. As far as we are aware, nothing else is changing.

We ask that El Paso County grant the subdivision request to CR CAD-0. This will allow three lots to be made from an existing one so that their tenants may own the land they do business on.

Please contact our office with any questions, thank you

Oliver E. Watts, Consulting Engineer, Inc.

# POWERS CENTRE FILING NO. 3A

A VACATION AND REPLAT OF LOT 1, POWERS CENTRE FILING NO. 3

in the SW 1/4, Section 6, Township 17 South, Range 65 West, 6th P.M.

EL PASO COUNTY, COLORADO

## Know all men by these presents

That, 5922 Ellenview, LLC, a California limited liability company, as to an undivided 50% interest, and 11317 McCormick Street, LLC, a California limited liability company, as to an undivided 50% interest being the owner of the following described tract of land, to wit:

Lot 1 Powers Centre Filing No 3, County of El Paso, State of Colorado, and containing 5.551 acres.

## Owners Certificate

The undersigned, 5922 Ellenview, LLC, a California limited liability company, as to an undivided 50% interest, and 11317 McCormick Street, LLC, a California limited liability company, as to an undivided 50% interest being all the owners, mortgagees, beneficiaries of deeds of trust and holders of other interests in the land described herein, have laid out, subdivided, and platted said lands into lots, tracts, streets, and easements (use which are applicable) as shown hereon under the name and subdivision of Powers Centre Filing 3A. All public improvements so platted are hereby dedicated to public use and said owner does hereby covenant and agree that the public improvements will be constructed to El Paso County standards and that proper drainage and erosion control for same will be provided at said owner's expense, all to the satisfaction of the Board of County Commissioners of El Paso County, Colorado. Upon acceptance by resolution, all public improvements so dedicated will become matters of maintenance by El Paso County, Colorado. The utility easements shown hereon are hereby dedicated for public utilities and communication systems and other purposes as shown hereon. The entities responsible for providing the services for which the easements are established are hereby granted the perpetual right of ingress and egress from and to adjacent properties for installation, maintenance, and replacement of utility lines and related facilities.

## NOTES:

1. Bearings are based on the record bearing of N00°28'24"E, for the westerly line of Lot 1 monumented in the south by an illegible 2 inch aluminum washer on a PK nail (zap-it) and in the north by a 1 inch illegible aluminum cap on a #5 rebar, as shown on the plat. Said monuments are at ground level.

2. Survey monuments found or set are at ground level unless otherwise noted on the plat.

3. Title information was provided by the client as follows:

Title Company: WFG National Title Insurance Company  
File Number: 22-447242  
Effective date: December 21, 2022 at 8:00 a.m.  
This survey does not constitute a title search or opinion.

4. Notice, according to Colorado law, you must commence any legal action based upon any defect in the survey within three years after you first discover such defect. In no event may any action based upon any defect in this survey be commenced more than ten years from the date of the certification shown hereon.

5. Units of measurement: US Survey Feet

6. The approval of the replat vacates all prior plats for the area described by this replat.

## 7. Flood plain

According to the current effective Federal Emergency Management Agency Flood Insurance Rate Map, the subject property is located outside the boundary of the 100 Year Floodplain, as identified on FEMA Mapping Panels No. 08041C0751 G, and FEMA Mapping Panels No. 08041C0752 G, both dated December 7, 2018. The site is in Zone X on said panels.

8. The following reports have been submitted in association with the Preliminary Plan or Final Plat for this subdivision and are on file at the County Planning and Community Development Department: Water Resources Report; Wastewater Disposal Report; Geology and Soils Report; Fire Protection Report

9. All property owners are responsible for maintaining proper storm water drainage in and through their property. Public drainage easements as specifically noted on the plat shall be maintained by the individual lot owners unless otherwise indicated. Structures, fences, materials or landscaping that could impede the flow of runoff shall not be placed in drainage easements.

## 10. Easements

Unless otherwise indicated, all side, front, and rear lot lines are hereby platted on either side with 5 feet public utility and drainage easement unless otherwise indicated. All exterior subdivision boundaries are hereby platted with a 7 foot public utility and drainage easement. The sole responsibility for maintenance of these easements is hereby vested with the individual property owners.

11. Developer shall comply with federal and state laws, regulations, ordinances, review and permit requirements, and other agency requirements, if any, of applicable agencies including, but not limited to, the Colorado Division of Wildlife, Colorado Department of Transportation, U.S. Army Corps of Engineers and the U.S. Fish and Wildlife Service regarding the Endangered Species Act, particularly as it relates to the listed species (e.g., Preble's Meadow Jumping Mouse).

12. The addresses exhibited on this plat are for informational purposes only. They are not the legal description and are subject to change.

13. No driveway shall be established unless an access permit has been granted by El Paso County.

14. Mailboxes shall be installed in accordance with all El Paso County and United States Postal Service regulations.

15. There shall be no direct lot access to Powers Boulevard.

16. The following lots have been found to be impacted by a geologic hazard. Mitigation measures and a map of the hazard area can be found in the report Soils Report for Lot #1, Filing #1, Powers Centre Subdivision by GeoQuest dated April 3, 2019, (see pages 4, 5, 6 for direction if/when attempting any future construction) in file VR236 available at the El Paso County Planning and Community Development Department:

- Other Hazard: Poor Soils Quality as it relates to Drainage during construction.

Any future construction or changes to buildings should be accompanied by a site-specific soil and foundation investigation to determine the engineering properties of the soils. A geologic hazard report that includes the identification of any hazards or constraints imposed by geologic conditions should accompany any report submitted in support of new construction.

There is no construction as a result of this minor replat.

17. Basin Transfer/Insufficiency: Water and wastewater services for this subdivision are provided by the Cherokee Metropolitan District (Cherokee) subject to the District's rules, regulations and specifications. The Office of the State Engineer has issued an opinion of water inadequacy based on its analysis and interpretation of a stipulated agreement concerning the availability of certain water rights for use outside of the Upper Black Squirrel Creek Designated Basin, and thus found insufficiency of water resources for this subdivision based on that agreement. This interpretation differs from certain opinions issued by the Office in the past. Based on its own review of the stipulated agreement and its history (and not the amount of water actually available) the Board of County Commissioners in an open and public hearing did not accept the interpretation of the State Engineer's Office. The Board of County Commissioners found that Cherokee has committed to provide water service to the subdivision and asserted that its long term water service capabilities are sufficient. The Board of County Commissioners made this determination in reliance upon the testimony and expertise provided by Cherokee at the public hearing thereon. At the hearing, Cherokee asserted that its plans and continued financial investment in infrastructure are designed to allow Cherokee to continue to provide this subdivision and its existing customers with water and wastewater services for 300 years or more.

18. NOTICE OF POTENTIAL AIRCRAFT OVERFLIGHT AND NOISE IMPACT ASSOCIATED WITH AIRPORT: This serves as notice of potential aircraft overflight and noise impacts on this property due to its close proximity to an airport, which is being disclosed to all prospective purchasers considering the use of this property for residential and other purposes. This property is subject to the overflight and associated noise of arriving and departing aircraft during the course of normal airport operations. All property within this subdivision is subject to an Avigation Easement as recorded at Book 2465, Pages 481 and 759 of the records of the El Paso County Clerk and Recorder.

19. All property within this subdivision is subject to a Declaration of Covenants as recorded in instrument recorded October 13, 1982 in Book 3621 at Page 592. Amendment recorded December 3, 1985 in Book 5095 at Page 982 of the records of the El Paso County Clerk and Recorder.

## 20. Reciprocal Access/Parking Agreement

All property within this subdivision is subject to a Reciprocal Access/Parking Agreement as described in the Covenants recorded October 13, 1982 in Book 3621 at Page 592. Amendment recorded December 3, 1985 in Book 5095 at Page 982 of the records of the El Paso County Clerk and Recorder.

21. The Subdivider(s) agree(s) on behalf of himself/herself and any developer or builder successor and assignees that Subdivider and/or said successor and assigns shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program Resolution (Resolution No 19-471), or any amendments thereto, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documented on all sales documents and on plat notes to ensure that a title search would find the fee obligation before sale of the property.

## 23. Utility Services

Utility Services to the site will be provided by the following:

Electricity - Colorado Springs Utilities

Gas - Colorado Springs Utilities

Water / Wastewater - Cherokee Metropolitan District

5922 Ellenview, LLC, a California limited liability company, as to an undivided 50% interest, and 11317 McCormick Street, LLC, a California limited liability company, as to an undivided 50% interest

RE: Powers Centre Filing No. 3A  
SW 1/4 of Sec. 6, Twp. 14S, Rng. 65W, 6<sup>th</sup> P.M.  
Water Division 2, Water District 10  
CDWR Assigned Referral No. 30702

To Whom It May Concern:

We have received a referral regarding the above referenced proposal to subdivide an existing 5.551 acre tract of land currently known as Tract 1 of Powers Centre Filing No. 3 into three commercial lots. According to the submittal, the proposed supply of water is to be served by Cherokee Metropolitan District (“Cherokee”). Wastewater will be disposed of in a private wastewater septic system.

### Water Supply Demand

The Water Supply Information Sheet, Form no. GWS-76, provided with the submittal estimates a demand of 4.6 acre-feet per year for all intended uses within the subdivision.

### Source of Water Supply

The source of water for the proposed development will be Cherokee Metropolitan District. The estimated water demand for the proposed subdivision are consistent with the estimated demand for the uses on the property prior to subdivision. A letter of commitment from Cherokee, dated February 17, 2023, was provided with the referral materials indicating that Cherokee confirms its commitment to providing 4.6 acre-feet/year for use on the proposed subdivision.

According to the records of this office, Cherokee has sufficient water resources to supply this development as described above.

### Additional Comments

If a storm water detention structure is constructed as a part of this project, the applicant should be aware that, unless the structure can meet the requirements of a “storm water detention and infiltration facility” as defined in section 37-92-602(8), Colorado Revised Statutes, the structure may be subject to administration by this office. The applicant should review DWR’s *Administrative Statement Regarding the Management of Storm Water Detention Facilities and Post-Wildland Fire Facilities in Colorado*, attached, to ensure that the notification, construction and operation of the proposed structure meets statutory and administrative requirements. The applicant is encouraged to use *Colorado Stormwater*

*Detention and Infiltration Facility Notification Portal*, located at <https://maperture.digitaldataservices.com/gvh/?viewer=cswdif>, to meet the notification requirements.

**State Engineer's Office Opinion**

Pursuant to Section 30-28-136(1)(h)(II) C.R.S., it is the opinion of this office that the proposed water supply can be provided without causing injury to decreed water rights, and the supply is expected to be adequate. Should you or the applicant have questions regarding any of the above, please feel free to contact me directly.

Sincerely,

Kate Fuller, P.E.  
Water Resource Engineer

VR-23-6 Powers Centre Filing No. 3A  
Vacation and Replat

Reviewed by: Lori L. Seago, Senior Assistant County Attorney  
April Willie, Paralegal

### WATER SUPPLY REVIEW AND RECOMMENDATIONS

#### Project Description

1. This is a vacation and replat proposal by Oliver Watts Consulting (“Applicant”) to replat one commercial lot into 3 commercial lots on 5.551 acres. The property is currently zoned CR CAD-O (Commercial Regional - Commercial Aviation District Overlay). This commercial property is already developed with multiple existing uses.

#### Estimated Water Demand

2. Pursuant to the *Water Supply Information Summary* (“WSIS”), the annual subdivision demand is 4.6 total acre-feet for commercial use. The WSIS does not identify the square footage of the commercial uses upon which this figure is based. Based on this, the Applicant must provide a supply of 1,380 acre-feet of water (4.6 acre-feet/year x 300 years) to meet the County’s 300-year water supply requirement for the subdivision.

#### Proposed Water Supply

3. The Applicant has provided for the source of water to derive from the Cherokee Metropolitan District (“District” or “Cherokee”). The District currently provides

MERI GERINGER

central water service to the existing uses on the property. As identified in the *Water Resources Report for Powers Center Filing No. 3A*, dated March 2023 and revised on June 7, 2023, the annual water demand for the development is 4.6 acre-feet per year. Per the *Water Resources Report*, Cherokee’s total available water supply is approximately 4,443.00 acre-feet/year, while its existing water commitments, including this property, total 4,111.7 acre-feet per year.

4. The General Manager of the District provided a letter dated February 7, 2023, committing to continue to provide water service for the commercial lots within the Powers Plaza Filing 3A Subdivision, which is located within the District’s boundaries. The District’s combined commitments for the 3 lots are delineated as follows and are based on average annual water consumption over the last five years:

<b>Address</b>	<b>Commercial Interior Demand (AFY)</b>	<b>Demand (AF/yr)</b>
5849-5857 Palmer Park Blvd	0.16	0.16
5859-5863 Palmer Park Blvd	0.22	0.22
5869 Palmer Park Blvd	0.13	0.13
5871-5883 Palmer Park Blvd	4.12	4.12
<b>Total</b>	<b>4.6</b>	<b>4.6</b>

The District notes that these commitments are “hereby made exclusively for this specific development project at this site within the District.” The District’s commitment is only a conditional commitment: “[t]o confirm this commitment you must provide the District with a copy of the final plat approval from El Paso County Development Services within 12 months of the date of this letter. Otherwise, the District may use this allocation for other developments requesting a water commitment.”

State Engineer’s Office Opinion

5. In a letter dated April 4, 2023, the State Engineer reviewed the application to subdivide the 5.551-acre tract into 3 lots. The State Engineer confirmed that the Cherokee Metropolitan District has committed a water supply of 4.6 acre-feet/year, which is the water demand identified in the WSIS. Further, the State Engineer states that “[a]ccording to the records of this office, Cherokee has sufficient water resources to supply the development as described above.” Further, the State Engineer declared that “[p]ursuant to Section 30-28-136(1)(h)(II), C.R.S., it is the opinion of this office that the proposed water supply can be provided without causing injury to decreed water rights, and the supply is expected to be adequate.”

Recommended Findings

6. Quantity and Dependability. Applicant’s water demand for Powers Centre Filing No. 3A is 4.6 acre-feet per year to be supplied by Cherokee Metropolitan District.

**Based on the water demand of 4.6 acre-feet/year for the development and the District's availability of water sources, but given the conditional nature of the District's commitment to serve, the County Attorney's Office recommends a finding of conditional sufficiency as to water quantity and dependability for Powers Centre Filing No 3A.**

7. Quality. Section 8.4.7(B)(10)(g) of the El Paso County Land Development Code allows for a presumption of water quality when water is supplied from an existing Community Water Supply operating in conformance with the Colorado Primary Drinking Water Regulations unless there is evidence to the contrary.

8. Basis: The County Attorney's Office reviewed the following documents in preparing this review: the *Water Supply Information Summary* provided March 20, 2023, the *Water Resources Report* dated March 23, 2023, revised June 7, 2023, the *Cherokee Metropolitan District* letter dated February 17, 2023, and the *State Engineer's Office Opinion* dated April 4, 2023. The recommendations herein are based on the information contained in such documents and on compliance with the requirements set forth below. ***Should the information relied upon be found to be incorrect or should the below requirement not be met, the County Attorney's Office reserves the right to amend or withdraw its recommendations.***

#### **REQUIREMENTS:**

A. Applicant and all future owners of lots within this filing shall be advised of and comply with the conditions, rules, regulations, and specifications set by the District.

B. Applicant must obtain final plat approval and provide evidence thereof to the District within 12 months of the District's commitment letter dated February 17, 2023 (approval must be provided by February 17, 2024), to retain the District's water commitment. **If Applicant fails to do so, this recommended finding of conditional sufficiency will be deemed moot and no longer valid. Once Applicant provides proof to the District that satisfies the District's condition of final plat approval, this conditional finding of sufficiency will automatically convert to a full sufficiency finding.**

VACATION AND REPLAT (RECOMMEND APPROVAL)

\_\_\_\_\_ moved that the following Resolution be adopted:

BEFORE THE PLANNING COMMISSION

OF THE COUNTY OF EL PASO

STATE OF COLORADO

RESOLUTION NO. VR-23-006  
POWERS CENTRE FILING NO. 3A

WHEREAS, Ollie Watts Consulting did file an application with the El Paso County Planning and Community Development Department for approval of a vacation and replat to vacate one lot and replat it as three lots within the CR (Commercial Regional) zoning district for property in the unincorporated area of El Paso County as described in Exhibit A, which is attached hereto and incorporated herein by reference; and

WHEREAS, a public hearing was held by this Commission on September 7, 2023; and

WHEREAS, based on the evidence, testimony, exhibits, consideration of the Master Plan for the unincorporated area of the County, presentation and comments of the El Paso County Planning and Community Development Department and other County representatives, comments of public officials and agencies, comments from all interested persons, comments by the general public, and comments by the El Paso County Planning Commission Members during the hearing, this Commission finds as follows:

1. The application was properly submitted for consideration by the Planning Commission;
2. Proper posting, publication, and public notice were provided as required by law for the hearing before the Planning Commission;
3. The hearing before the Planning Commission was extensive and complete, that all pertinent facts, matters, and issues were submitted and that all interested persons and the general public were heard at that hearing;
4. All exhibits were received into evidence;
5. The proposed land use does not permit the use of an area containing a commercial mineral deposit in a manner which would interfere with the present or future extraction of such deposit by an extractor;

6. All data, surveys, analyses, studies, plans, and designs as are required by the State of Colorado and El Paso County have been submitted, reviewed, and found to meet all sound planning and engineering requirements of the El Paso County Subdivision Regulations; and
7. For the above-stated and other reasons, the proposed vacation and replat is in the best interest of the health, safety, morals, convenience, order, prosperity, and welfare of the citizens of El Paso County.

WHEREAS, in approving a vacation and replat of a subdivision, the El Paso County Planning Commission and Board of County Commissioners shall find that the application meets the criteria of approval listed in Land Development Code ("Code") 7.2.3(C)(4) (as amended):

1. The replat complies with the Code, and the original conditions of approval associated with the recorded plat;
2. No nonconforming lots are created, and in the case of existing nonconforming lots, the nonconformity is not increased;
3. The replat is in keeping with the purpose and intent of the Code;
4. The replat conforms to the required findings for a minor or major subdivision, whichever is applicable;
5. Legal and physical access is provided to all parcels by public rights-of-way or recorded easement, acceptable to the County in compliance with the Code and the ECM;
6. The approval will not adversely affect the public health, safety, and welfare; and
7. Where the lots or parcels are subject to any CC&Rs or other restrictions, that any potential conflict with the CC&Rs or other restrictions resulting from the replat has been resolved.

WHEREAS, a sufficient water supply has been acquired with a condition in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards [C.R.S. §30-28-133(6)(a)] and the requirements of Chapter 8 of the Code.

WHEREAS, the condition of water supply is as follows:

Applicant must obtain final plat approval and provide evidence thereof to the District within 12 months of the District's commitment letter dated February 17, 2023 (approval must be provided by February 17, 2024), to retain the District's water commitment. If Applicant fails to do so, this recommended finding of conditional sufficiency will be deemed moot and no longer valid. Once Applicant provides proof to the District that satisfies the District's condition of final plat approval, this conditional finding of sufficiency will automatically convert to a full sufficiency finding.

NOW, THEREFORE, BE IT RESOLVED, the El Paso County Planning Commission recommends that the petition of Ollie Watts Consulting for approval of the Vacation and Replat to allow a vacation of one lot to be replatted as three lots within the CR (Commercial Regional) zoning district be approved by the Board of County Commissioners with the following conditions and notation:

CONDITIONS

1. All Deed of Trust holders shall ratify the plat. The applicant shall provide a current title commitment at the time of submittal of the Mylar for recording.
2. Colorado statute requires that at the time of the approval of platting, the subdivider provides the certification of the County Treasurer's Office that all ad valorem taxes applicable to such subdivided land, or years prior to that year in which approval is granted, have been paid. Therefore, this plat is approved by the Board of County Commissioners on the condition that the subdivider or developer must provide to the Planning and Community Development Department, at the time of recording the plat, a certification from the County Treasurer's Office that all prior years' taxes have been paid in full.
3. The subdivider or developer must pay, for each parcel of property, the fee for tax certification in effect at the time of recording the plat.
4. Driveway permits will be required for each access to an El Paso County owned and maintained roadway. Driveway permits are obtained from the El Paso County Planning and Community Development Department.
5. The Subdivider(s) agrees on behalf of him/herself and any developer or builder successors and assignees that Subdivider and/or said successors and assigns shall be required to pay traffic impact fees in accordance with the El Paso County Road Impact Fee Program Resolution (Resolution No. 19-471), or any amendments thereto, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documented on all sales documents and on plat notes to ensure that a title search would find the fee obligation before sale of the property.
6. Applicant shall comply with all requirements contained in the Water Supply Review and Recommendations, dated June 15, 2023, as provided by the County Attorney's Office.

NOTATION

7. Final plats not recorded within 24 months of Board of County Commissioner approval shall be deemed expired unless an extension is approved.

AND BE IT FURTHER RESOLVED that this Resolution and the recommendations contained herein be forwarded to the El Paso County Board of County Commissioners for its consideration.

\_\_\_\_\_ seconded the adoption of the foregoing Resolution.
