RE: RMS Utilities Inc. – Letter of Intent  
Work with State Highway 85/87 Right-of-Way

Dear Mr. Ausbun,

This letter is to confirm that RMS Utilities Inc. will be installing a new raw water pipeline on behalf of the Stratmoor Hills Water District. A portion of this water pipeline will be within the right-of-way of State Highway 85/87, between South Academy Boulevard and Glenarm Road in Colorado Springs.

We confirm that the drainage due to the proposed construction will not adversely affect the downstream or surrounding properties. The proposed project will disturb less than 1 acre. The trench width is expected to be approximately 5 feet wide and total area of disturbance is estimated to be approximately 0.15 acres within the State Highway 85/87 right-of-way, and approximately 0.15 acres in the Glenarm Road right-of-way, for a total ground disturbance of approximately 0.3 ac. The depth of the trench will be approximately 6 feet. Appropriate sediment and erosion control measures will be implemented by the contractor.

The only traffic generated for the project will be that associated with the installation of the proposed raw waterline. Appropriate traffic control measures will be implemented by the contractor, and a permit to work in the street right-of-way will be obtained.

If you have any questions or need additional information, please contact me.

Sincerely,

Kevin Niles  
District Manager
