PERMIT TO USE AN EXISTING WELL

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT

CONDITIONS OF APPROVAL

1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not assure the applicant that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.

2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.

3) Approved pursuant to CRS 37-90-137(2) for the change/increase in use of an existing well constructed under permit no. 66046-F-R, on the condition that this well is operated in accordance with the Crystal Park Investors, a Partnership and Crystal Park Christian Community Corp., Successors in interest to Crystal Park Development Co. Augmentation Plan approved by the Division 2 Water Court in case no. W-4568. If this well is not operated in accordance with the terms of said decree, it will be subject to administration including orders to cease diverting water. Permit no. 66046-F-R has been canceled by order of the State Engineer.

4) Approved for Lot S-121 and Lot S-124, Filing 2, Crystal Park Christian Community Subdivision, El Paso County.

5) The use of ground water from this well is limited to ordinary household purposes inside two (2) single family dwellings. The ground water shall not be used for irrigation or other purposes.

6) The maximum pumping rate of this well shall not exceed 15 GPM.

7) The maximum annual consumptive use of groundwater from this well, in combination with all other wells constructed pursuant to Division 2 Water Court case no. W-4568 shall not exceed 13 acre feet per year.

8) The return flow from the use of this well must be through an individual waste water disposal system of the non-evaporative type where the water is returned to the same stream system in which the well is located.

9) A totalizing flow meter must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (recorded at least annually) and submitted to the Division Engineer upon request.

10) This well shall be located not more than 200 feet from the location specified on this permit.
