EXECUTIVE SUMMARY

A request by the El Paso County Planning and Community Development Department to amend Chapters 1 and 5 of the El Paso County Land Development Code adding language pertaining to natural medicine uses. The purpose of the amendment is to:

- Add definitions for natural medicine-related uses, including defining Natural Medicine Business, Natural Medicine Healing Center, Natural Medicine Cultivation Facility, Natural Medicine Product Manufacturer, and Natural Medicine Testing Facility,
- 2. Add use specific development standards for Natural Medicine Business and Natural Medicine Personal Cultivation to include time, place, and manner regulations, and

3. Add Natural Medicine Business to the table of principal uses establishing that the use of Natural Medicine Business is allowed in the CS, C-1, C-2, and M zone districts subject to development standards and site development plan approval.

A. BACKGROUND

In November 2022, Colorado voters approved Proposition 122. This citizen-initiated measure legalized the supervised use of natural medicine at state-licensed facilities and decriminalized the use of certain plants or fungi for people 21 years of age and older. From this, the Governor signed Senate Bill 23-290, Natural Medicine Regulation and Legalization, and the rulemaking process as it relates to the regulation of the natural medicine program in Colorado. The bill explicitly limits the County's ability to prohibit these uses outright. It does enable the County to regulate time, place, and manner of the operation of natural medicine-related facilities.

On December 31, 2024, the Colorado Department of Revenue (DOR) will begin licensing natural medicine businesses including cultivation, manufacturing, testing, storing, distribution, and dispensing. Currently, the term "natural medicine" includes psilocybin and psilocin. There is a recommendation to include Dimethyltryptamine (or DMT), Ibogaine, and Mescaline in the future through this same State licensing process.

Senate Bill 23-290 does not permit local jurisdictions to adopt regulations deemed unreasonable or in conflict with the Senate Bill. The local jurisdiction <u>is not permitted to prohibit</u> state licensed natural medicine businesses or prohibit a state licensed facilitator from providing natural medicine services.

The State regulations impose a distance requirement of 1,000 feet from a healing center license to a childcare center, preschool, elementary, middle, junior, or high school, or a residential childcare facility. The distance is calculated using a route of direct pedestrian access, and not a radius from the facility (44-50-302(d) (II) C.R.S.). However, a local jurisdiction may vary the distance requirement or eliminate one or more of these types of schools or facilities from the requirement.

Finally, Senate Bill 23-290 addresses private grows when describing various offenses relating to natural medicine and natural medicine products (18-18-434 C.R.S.). That section of the bill creates a drug petty offense if a person knowingly cultivates natural medicine in a cumulative area larger than 12 feet by 12 feet. The cultivation area must be within an enclosed and locked space (which can be a residence

2880 INTERNATIONAL CIRCLE OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910 PLNWEB@ELPASOCO.COM

or a locked room within a residence). All occupants of the home must be 21 years of age and over. Local jurisdictions may expressly permit larger cultivation areas on private property, but the statute does not expressly allow reducing the cultivation areas.

Psilocybin remains a Class 1 substance regulated by the Federal Government. Only Oregon and now Colorado have decriminalized and allowed psilocybin for clinical use.

Staff has reviewed natural medicine regulations from neighboring jurisdictions including the City of Colorado Springs, the City of Fountain, Arapahoe County, Douglas County, the Town of Castle Rock, and the Town of Parker. Since the State rule making only concluded recently, a majority of these communities are still working their way through the local ordinance and regulation process. Below is a summary of other local regulation processes as of November 22, 2024.

The City of Fountain Town Council passed a final ordinance on November 19, 2024. The ordinance restricts locations of natural medicine businesses to areas of the city zoned as Planned Industrial zone district, limits operating hours from 8:00 a.m. to 5:00 p.m., Monday through Friday, and requires a natural medicine business to be a minimum of 1,000 feet away from property used or zoned for residential dwellings, schools or childcare facilities. The ordinance includes design criteria including air filtration, storage, and secure disposal.

The City of Colorado Springs has briefed the City Council and has a formal recommendation from the City Planning Commission. The staff is recommending allowing cultivation, manufacture, and testing in heavy mixed-use and industrial zones and classifying natural medicine healing center as a "medical office" with the additional restriction of a 1-mile buffer from schools, daycares, and drug and alcohol treatment facilities.

The Parker regulations separate uses by permitting natural medicine healing centers in the Business District and Commercial Zone Districts. The cultivation, manufacturing, and testing uses are allowed in the Light Industrial Zone District. The ordinance restricts the operating hours of natural medicine businesses to 8 a.m. to 5 p.m. Monday through Friday, requires screening the interior views of these businesses, and the mitigation of odors emitted by natural medicine businesses to a level undetectable beyond property boundaries. Parker regulations also require a 1,000-foot separation distance from residential areas for all natural medicine-related facilities.

COLORADO SPRINGS, CO 80910 PLNWEB@ELPASOCO.COM

The Town of Castle Rock has proposed similar regulations to Parker but is considering restricting natural medicine-related businesses, including Healing Centers, to the I-1 Light Industrial and I-2 General Industrial Zone Districts within their municipal code. Castle Rock also extended the 1,000-foot distance requirement to residential areas.

Douglas and Arapahoe counties are also considering regulations comparable to Parker and Castle Rock.

B. REQUESTED AMENDMENTS

The current proposal closely follows the County medical marijuana licensing policies for location and buffer. The proposed amendment establishes Natural Medicine Businesses as allowed uses in the CS, C-1, C-2, and M zone districts within the County. To establish a Natural Medicine Business in one of these zones, a site development plan is required that meets the design criteria outlined in 5.2.38.

A Natural Medicine Business is defined as Any of the following entities licensed under the Regulatory Act and includes a natural medicine healing center, a natural medicine cultivation facility, a natural medicine products manufacturer, or a natural medicine testing facility, or another licensed entity created by the state licensing authority.

The amendment also includes setbacks to other uses as described in the medical marijuana licensing policy:

A Natural Medicine Business shall not be on the same lot, parcel, or tract and shall not be adjacent to, and shall not be within 1000 feet of the following:

- a lot, parcel, or tract where a residential use exists or is a principal allowed use under the Land Development Code
- the principal campus of a college, university, or seminary
- a public park
- a religious institution
- a state-licensed drug or alcohol treatment facility
- a state-licensed childcare facility or home
- a military installation

2880 INTERNATIONAL CIRCLE OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910 PLNWEB@ELPASOCO.COM

One new concept for natural medicine regulation is the inclusion of a 1-mile setback/buffer from an elementary, secondary, or high school. Hours of operation, lighting, storage, and odor are also addressed in the code amendment proposal as described in figures 1, 2, and 3 attached to the staff report and made part of the proposed resolution.

Based on the locational recommendations outlined above, staff completed a mapping exercise to determine areas eligible to support Natural Medicine Businesses. There are properties within unincorporated El Paso County that could support a Natural Medicine Business. Those properties are dispersed; with properties on the east side of the City of Colorado Springs and more centralized to unincorporated El Paso County. Those potential areas are highlighted below on the map insets. County-wide maps applying the recommended buffers and zone district allowances are attached to the staff report.

C. MASTER PLAN ANALYSIS

The County's Land Development Code governs the use and development of property and provides a legal framework for implementing the Master Plan's recommendations. The purpose of the County's Land Development Code is to preserve and improve the public health, safety, and general welfare of the citizens and businesses of El Paso County, and to:

- o Implement the Master Plan and related elements.
- o Promote predictability, consistency, and efficiency in the land development process for residents, neighborhoods, businesses, agricultural and development interests.
- o Ensure appropriate opportunities for participation and involvement in the development process by all affected parties.
- o Be fair to all by ensuring due consideration is given to protecting private property rights, the rights of individuals, and the rights of the community as a whole.
- o Guide the future growth and development of the County in accordance with the Master Plan.

More specifically, the Master Plan identifies the need for periodic amendments to El Paso County's Land Development Code as stated below:

Code Amendments and Updates

2880 INTERNATIONAL CIRCLE OFFICE: (719) 520 – 6300

COLORADO SPRINGS, CO 80910 PLNWEB@ELPASOCO.COM

Your El Paso Master Plan establishes the overall vision for the character and intensity of land use and development throughout the County as well as the policies and goals related to infrastructure, transportation, facilities and services, the natural environment, and much more. To ensure the Land Development Code remains an effective tool for Master Plan implementation it should be reviewed and amended as necessary, particularly the zoning and development standards, to ensure consistency and alignment with the principles, goals, and recommendations of the Master Plan.
