

Easement Upload Note
03/18/19

Easements will have to be created for the offsite sand filter the County has required. At the time of this upload, the County hasn't seen the proposed sand filter info. I'm also uncertain which plat the sand filter easements will be included in (Estates versus Retreat). As changes to the location/design/footprint of the sand filters is likely, easements for them have not yet been prepared.

Once comments have been received on the proposed sand filters, the offsite easements exhibit will be prepared.
