Best Management Practices (BMPs) are required to be installed at the head of all stormwater runoff to prevent sediment, silt, and other pollutants from entering the water body. The BMPs shall be designed and installed in accordance with the requirements of the National Stormwater Management Handbook, 2nd Edition, published by the National Stormwater Management Association (NSMA) in 2000. The BMPs shall be installed and maintained in accordance with the requirements of the National Stormwater Management Handbook, 2nd Edition, published by the National Stormwater Management Association (NSMA) in 2000. The BMPs shall be installed and maintained in accordance with the requirements of the National Stormwater Management Handbook, 2nd Edition, published by the National Stormwater Management Association (NSMA) in 2000.
