Re: Footing and Footing Reinforcing Observation – Monument Sign  
Winsome Way and Hodgen Road  
Winsome Subdivision Entrance  
El Paso County, Colorado

Dear Mr. Desjardin:

As requested, personnel of Entech Engineering, Inc. observed the foundation at the address referenced above on August 12, 2021 in order to observe the footing forms and footing reinforcing for the monument sign prior to placement of concrete.

Continuous footings and widened footings of the specified dimensions were formed for placement of concrete. The footing forms were found to have been placed generally conforming with the foundation design for monument sign by NES, Inc., dated August 3, 2020. The footing forms were approved for concrete placement.

We trust that this has provided you with the information you required. If you have any questions or need additional information, please do not hesitate to contact us.

Respectfully Submitted,

ENTECH ENGINEERING, INC.
