Please revise justification section item 4.1 below to respond to at least one of the goals, policies, or objectives of one of the County's applicable plans (this property is within the Black Forest Small Area), which can be accessed via:

3.2.2. Recent changes to patient care brought about by COVID-19 have made it infeasible for the applicant to provide quality long-term care for her mother. In particular, the applicant is restricted from seeing her mother and her mother is prohibited from leaving the facility premises except for medical reasons.

4. Compliance with Chapter 5 of the Land Development Code

- 4.2. The proposed structure design is architecturally similar to the main residence and in tasteful harmony with the rural character of the property.
- 4.3. The proposed living quarters will be occupied by a single elderly individual who does not drive. As such, the usage will not overburden or exceed the capacity of public facilities or services.
- 4.4. The occupant of the proposed living quarters does not drive. It is envisioned that a specialized care-worker will visit the occupant several times per week. As such, this level of usage will not create unmitigated traffic congestion or traffic hazards in the surrounding area.
- 4.5. The proposed structure design will comply fully with all applicable local, state and federal laws and regulations regarding air, water, light and noise pollution.
- 4.6. The proposed structure will in no way be detrimental to the public health, safety and welfare of the present or future residents of El Paso Country.
- 4.7. The proposed structure will conform to all other applicable County rules, regulations and/or ordinances.

- 5.3. Driveway/roads will not change except to improve them to remove any potholes and smooth surfaces after construction.
- 5.4. Other structures on the property are not affected by this project.

Sincerely,

Lauri K. Cross

M. Scott Trimboli
