Ford Dimensional Boundary Line Adjustment, EXBL-25-2

Please accept the following comments from El Paso County Public Health regarding the project referenced above:

- **No public health issues were identified with this boundary line adjustment request outside of what is noted below.**
- **The existing onsite wastewater treatment systems (OWTS) for both houses on the property must have all system components located to help ensure that the OWTS components are on the same lot as the house it serves. The OWTS components must also meet the horizontal minimum installation distances from the new lot line.**
