Chapman Agritainment, PPR-18-025

Please accept the following comments from El Paso County Public Health for the request referenced above:

- Drinking water for the request is not clearly specified in the Letter of Intent. Suggest the use of commercial, pre-packaged bottled water for visitors.
- Wastewater service for the project is proposed to be provided by the use of chemical toilets located in 2 areas on the property. The project is described as being seasonal; therefore, the use of chemical toilets is acceptable. The chemical toilets shall be serviced and cleaned on a routine basis. No portable hand sinks are proposed, nor are they required; however, they are encouraged for customers because of the proposed animal petting area.
- Animal waste must be collected and removed daily to minimize odors, and insect/rodent attraction.
- No records were on file at El Paso County Public Health for the onsite wastewater treatment system (OWTS). The house was built in 1914 and records and permits for OWTS's were not required until 1966.
