RE: Water Service for Grandview Reserve

To whom it may concern:

Grandview Reserve Metro Districts (“Districts”) will provide water (obtained from the 4-Site Investment/Owner water shares), develop and construct its own water system to serve the Grandview Reserve project located between Highway 24 and Eastonville Road. Grandview Reserve is proposed to include approximately 3,200 equivalent dwelling units. The Districts will provide water in sufficient supply to handle buildout of 3,335 SFE, including schools, churches, and the future commercial areas.

Sincerely,

A stylized, handwritten signature in black ink that reads "GRMD". The letters are bold and connected, with a cursive-like flow.
