**Subject:** 2915 Robinson St Development Plan

Good afternoon Eric,

I have shared the plan you provided for us (attached) with my management. Based on the plan you provided and our discussion on site, our department has no objection to the proposed work. We also do not see an issue with the placement of concrete blocks at/near the property line, with the knowledge that placement/use on city property does not grant or guarantee continued access/use, and the city may at its discretion their removal- we could revisit any drainage/water shedding issues should that occur.

If you require a physical copy of this information, please let me know and I'd be happy to meet with you.

Thanks for your patience while I got back to you,

**Wesley Hermann**
