RE: Availability of utility service to property located outside the limits of Colorado Springs City as follows:

The parcel of land with Tax Shedule No. 5404304013 located in Sections 4 and 9, Township 14 South, Range 65 West, of the 6<sup>th</sup> Principal Meridian, County of El Paso, Colorado.

Dear Mr. Schnelbach,

The above referenced property is located outside the City of Colorado Springs city limits, and as such, is provided with gas services by Colorado Springs Utilities. These services are presently available to meet the demands anticipated because of the proposed development, subject to the conditions presented in this letter.

Connections to the Utilities' system are contingent upon the customer meeting all the requirements of the Utilities tariffs and City of Colorado Springs ordinances that are in effect for each requested utility service at the time the application for service is made by the customer and formally accepted by Colorado Springs Utilities. Connection requirements may include provisions for necessary line extensions, pumping facilities, and/or other system improvements, and payment of all applicable system development charges, recovery agreement fees and other fees applicable to the requested service.

Although Colorado Springs Utilities diligently seeks to expand facilities as necessary to meet anticipated load growth, Colorado Springs Utilities' services are provided to eligible customers at the time of connection to the distribution system on a "first come, first served" basis after acceptance of the customer's application as described above. In certain instances, our services and system capacities are limited. Accordingly, no specific allocations or amounts of Colorado Springs Utilities' facilities or supplies are reserved to serve the subject property and no commitments are made as to the availability of utility service at future times.

If you have any questions or concerns, please contact me at 719-668-8252, or at [cquinn@csu.org](mailto:cquinn@csu.org).

Sincerely,

Chris Quinn, CPCM
