RE: **"HIGH PLAINS FILING NO. 1"**  
Catamount Project #17-135

Jordan,

High Plains Filing No. 1 included development of public roadway and drainage improvements. Improvement design is detailed in the "Preliminary/Final Drainage Report for High Plains Filing No. 1" and the "High Plains Filing No. 1 Construction Documents" prepared by Catamount Engineering.

Catamount Engineering has reviewed limited as-built drawings prepared by Barron Land Surveying and has performed periodic site visit verifying improvements. Based upon this information Catamount Engineering is of the opinion that roadway improvements, grass lined swale across lots 5 and 6, riprap swale at the terminus of Raleigh Road, 4x 30" RCP culvert crossing of Ridgeback Road, and 24" RCP culvert crossing of Ridgeback Road are constructed in general conformance with the approved design plans and drainage report as filed with El Paso County.
