Remove the crossed out reports from this statement since they were not included in this application.

Your plat shows 20 foot public utility easement on the subdivision boundary, see below

#### Easements:

Unless otherwise indicated, all side, front, and rear lot lines are hereby platted on either side with a 10 foot (use 5 feet for lots smaller than 2.5 acres) public utility and drainage easement unless otherwise indicated. All exterior subdivision boundaries are hereby platted with a 20 foot (use 7 feet for lots smaller than 2.5 acres) public utility and drainage easement. The sole responsibility for maintenance of these easements is hereby vested with the individual property owners.

Water Supply: (utilized when the water supply is individual wells)  
(Note: The exact wording of plat notes regarding well water supply depends upon the language of the water decree and/or augmentation plan, and will be reviewed and approved by the County Attorney's Office)  
Individual wells are the responsibility of each property owner. Permits for individual wells must be obtained from the State Engineer who by law has the authority to set conditions for the issuance of these permits.  
Water in the Denver Basin Aquifers is allocated based on a 100-year aquifer life; however, for El Paso County planning purposes, water in the Denver Basin Aquifers is evaluated based on a 300-year aquifer life. Applicants and all future owners in the subdivision should be aware that the economic life of a water supply based on wells in a given Denver Basin Aquifer may be less than either the 100 years or 300 years indicated due to anticipated water level declines. Furthermore, the water supply plan should not rely solely upon non-renewable aquifers. Alternative renewable water resources should be acquired and incorporated in a permanent water supply plan that provides future generations with a water supply. (Utilized when there is a joint well agreement for common use of wells)  
Permits for individual wells must be obtained from the State Engineer who by law has the authority to set conditions for the issuance of these permits. Two (2) existing well permits Nos. \_\_\_\_\_ and \_\_\_\_\_ will serve two (2) single family dwellings each. Well permit No. \_\_\_\_\_ will serve Lots \_\_\_\_\_ and \_\_\_\_\_ Block \_\_\_\_\_ subject to a joint Use Water Well Agreement as recorded under Reception No. \_\_\_\_\_ and Lot \_\_\_\_\_, Block \_\_\_\_\_, subject to a Joint Use Water Well Agreement as recorded under Reception No. \_\_\_\_\_, which limits production to the \_\_\_\_\_ Aquifer at an interval between \_\_\_\_\_ and \_\_\_\_\_ feet below ground surface. Lot \_\_\_\_\_ and \_\_\_\_\_, Block \_\_\_\_\_ and Lots \_\_\_\_\_ through \_\_\_\_\_, Block \_\_\_\_\_ will limit production to the \_\_\_\_\_ Aquifer at an interval between \_\_\_\_\_ and \_\_\_\_\_ feet below ground surface.  
Owner, its successors and assigns shall advise the Property Owners Association (or Homeowners Association) and all future owners of these lots of all applicable requirements of the decree entered in Case No. \_\_\_\_\_ (Division \_\_\_\_\_), and their costs of operating the plan for augmentation and responsibility for metering and collecting data regarding water withdrawals from wells.  
Owner shall reserve in any deeds of the property \_\_\_\_\_ acre-feet of \_\_\_\_\_ Aquifer and \_\_\_\_\_ acre feet total of \_\_\_\_\_ Aquifer water as decreed in Case No. \_\_\_\_\_ (Division \_\_\_\_\_) for use in this augmentation plan.  
Water withdrawal and wells are subject to limitations, restrictions and augmentation requirements and responsibilities as found within the Covenants for this subdivision recorded in Reception No. \_\_\_\_\_ of the Office of the El Paso County Clerk and Recorder and the terms of the water court approved water augmentation plan.

Wastewater:  
Sewage treatment is the responsibility of each individual property owner. The El Paso County Department of Health and Environment must approve each system and, in some cases the Department may require an engineer designed system prior to permit approval. These systems may cost more to design, install, and maintain. Soils and Geology conditions on site require that all (or certain lots) On-Site Wastewater Systems shall be located and designed by a Professional Engineer, currently registered in the State of Colorado. (Note: this note used in special cases only when requested by the Health Department or pursuant to a condition of approval)  
Water and wastewater service for this subdivision is provided by the \_\_\_\_\_ (District or provider name(s)) subject to the District's (Providers) rules, regulations and specifications. (Combined note, which can be broken into separate notes for water or sewer in the case of different providers)

Drainage:  
The individual lot purchaser(s) shall be responsible for final design, construction, and maintenance of private detention pond/water quality BMP(s) as described in the approved Preliminary/Final Drainage Report for this subdivision. Final design, construction drawings and drainage report updates for the detention pond/water quality BMP(s) serving each lot shall be provided with Site Development Plan submittals. The detention pond/water quality BMP(s) shall be constructed and completed prior to the issuance of any building permits for the subject lots. The subdivision developer is responsible for providing financial assurances as indicated in the Subdivision Improvements Agreement and Estimate of Guaranteed Funds for all detention ponds/water quality BMPs. All detention ponds/water quality BMPs shall be constructed prior to the release of said financial assurances.  
Individual lot purchasers shall enter into a Private Detention Basin / Stormwater Quality BMP Maintenance Agreement and Easement ("Agreement") prior to the issuance of any building permits for the subject lots. In the case that the developer constructs the detention pond(s), the developer shall enter into an Agreement for each pond constructed.

Mailboxes:  
Mailboxes shall be installed in accordance with all El Paso County and United States Postal Service regulations.
