Forever Labradors and Goldens, AL-18-007

Please accept the following comments from El Paso County Public Health regarding the project referenced above:

- **A record of a permitted and approved on-site wastewater treatment system (OWTS) for this property indicates the OWTS was installed and approved for a 4 bedroom residence in 2004. The OWTS component locations are on file at El Paso County Public Health and are also accessible through the El Paso County Assessor's Office website property search page. Records show the components are located north of the existing house. Please assure all components of the OWTS are protected from vehicular traffic and other means of compaction such as storage sheds. It is required to reserve a secondary site on the property for the possibility of a future repair, addition, and/or replacement of the existing OWTS soil treatment area.**
- **The property is served water by Wigwam Mutual Water Company. (PWSID#CO 0121470)**
- **El Paso County Public Health recommends storing animal food in impervious containers with tight fitting lids in an effort to minimize possible rodent attraction. The Letter of Intent plan for dog food storage complies with this recommendation.**
- **Animal waste shall be managed properly to help control nuisance odors and minimize possible insect attraction. The Letter of Intent plan for dog waste management complies with this requirement.**
- **El Paso County Public Health does not have a record of a complaint being filed regarding dogs at this address.**
