"NOTICE: According to Colorado law you must commence any legal action based upon any defect in this survey within three years after you first discovered such defect. In no event, may any action based upon any defect in this survey be commenced more than ten years from the date of the certification shown hereon."

NOTES:

1. The following reports have been submitted in association with the Preliminary Plan or final Plan for this subdivision and are on filer at the County Development Services Department: Transportation Impact Study; Drainage Report; Water Resources Report; Wastewater Disposal report; Geology and Soils Report; Fire Protection Report; Wildfire Hazard Report; natural Features Report.

2. All property owners are responsible for maintaining proper storm water drainage in and through their property. Public drainage easements, as specifically noted on the plat, shall be maintained by the individual property owners unless otherwise indicated. Structures, fences, materials or landscaping that could impede the flow of runoff shall not be placed in drainage easements.

3. Unless otherwise indicated, all side, front and rear lot lines are hereby platted on either side with a 10-foot (use 5 feet for lots smaller than 2.5 acres) public utility and drainage easement unless otherwise indicated. All exterior subdivision boundaries are hereby platted with a 20-foot (use 7 feet for lots smaller than 2.5 acres) public utility easement. The sole responsibility for maintenance of these easements is hereby vested with the individual property owners.

4. Developer shall comply with federal and state laws, regulations, ordinances, review and other permit requirements, and other agency requirements, if any, of applicable agencies including, but not limited to, the Colorado Division of Wildlife, Colorado Department of Transportation, US Army Corps of Engineers and the US Fish and Wildlife Service regarding the Endangered Species Act, particularly as it relates to the listed species (e.g. Pebble's Meadow jumping Mouse).

5. The addresses exhibited on this plat are for informational purposes only. They are not the legal description and are subject to change.

6. A driveway access permit will be required from the El Paso County Development Services Division for any access to a county maintained roadway.

7. Mailboxes shall be installed in accordance with El Paso County and United States Postal Service regulations.

8. Structural foundations on lots in this subdivision shall be designed by a Colorado Registered Professional Engineer.

9. Sewage treatment is the responsibility of each individual property owner. The El Paso County health Department must approve each system and in some cases the Department may require an engineer designed system prior to permit approval.

10. Easements are for the benefit of the Utility providers.

11. In accordance with the Harry J. Studer Trust Wild fire Mitigation Plan, dated 11/22/2017 the wildland fire mitigation plan techniques and best practices for the existing residence and the new lot will be implimented within one year of the sale of the proposed lot.

12. The subdivider agrees for itself and its developer or builder successors and assigns that Subdivider and or its successors and assigns shall be required to pay traffic fees in accordance with the interim Countywide Transportation Improvement fee resolution(Resolution 10-66), as amended, at or prior to the time of building permit submittals. The fee obligation, if not paid at final plat recording, shall be documented on all sales documents and on plat notes to ensure that a title search would find the fee obligation before sale of the property. Lot 1, the site of the existing dwelling, is exempt under Paragraph 3e of Resolution 10-66.

In accordance with the submitted Harry J. Suder Trust Wild Fire Mitigation Plan, dated November 22, 2017 the wildland fire mitigation techniques and best practices for the existing residence and the new lots will be implemented within one year of the sale of the proposed lots.

"Water in the Denver Basin Aquifers is allocated based on a 100 year aquifer life; however, for El Paso County planning purposes, water in the Denver Basin Aquifers is evaluated based on a 300 year aquifer life. Applicants, the Home Owners Association, and all future owners in the subdivision should be aware that the economic life of a water supply based on wells in a given Denver Basin aquifer may be less than either the 100 years or 300 years indicated due to anticipated water level declines. Furthermore, the water supply plan should not rely solely upon non-renewable aquifers. Alternative renewable water resources should be acquired and incorporated in a permanent water supply plan that provides future generations with a water supply."
