American Glamping Association

To whom it may concern:

The American Glamping Association is an organization whose mission is setting a national standard for operators and professionals within the Glamping industry through providing tools, education and resources. The AGA currently works with hundreds of organizations across the United States and globally, including industry leaders and newcomers. Our industry knowledge comes from years of working directly with professionals across the Glamping industry and we focus on educating professionals, as well as the general public, on our rapidly evolving industry.

Chris & Wendy Jeub of Monument Glamping are active members of the American Glamping Association, the largest network of Glamping professionals in the country. Chris & Wendy have been active members in our community for 4 years and have been utilizing the resources that have been provided by the association to develop and enhance their glamping operation.

The AGA advocates for responsible partnerships between government and our AGA operator members, and Chris is a like minded advocate for this. We are confident that Chris & Wendy Jeub will continue to meet and exceed current industry standards while staying committed to a positive and unique outdoor glamping experience and operation.

Please feel free to reach out with any questions or clarifications. Thanks!
